Hi Brian,

As you may know, on September 10th Commissioner Sandoval is holding a workshop called "Communications-Water-Energy Nexus". The draft agenda is below and times may shift a bit, but for the most part the panel topics are listed. On behalf of Commissioner Sandoval and her office, I would like to invite a PG&E representative to participate on the "Pumping, irrigation efficiency and water management through communications & information technology" panel at 10:45 am. I am hopeful that this topic is something PG&E can contribute 5-7 minutes.

Please reply back to Valerie and myself with confirmation or any questions. If you have a powerpoint, we will need it sent to us by NOON, Monday September 8th. Thank you. We look forward to hearing from you.
