That's bitter. I am traveling most of the following two weeks (week of the 29th and October 6th, including in TEXAS for my birthday, bleughhh). So we are looking at mid-October at this point. I can do any day the week of the 13th....?

I'm no good other times next week and out of country the following week to learn about the solar experience in Germany and in offsite hell the week of the 22nd (here I come Lafayette -- who plans an offsite in Lafayette?!). So, week of the 29th realistically. Sorry. We grabbed the one day I had next week.

So, what other days might work. My guess is I have most flexibility.

I only have one left to go in my parent career and I'm not missing it. I can do drinks Tuesday night next week, or any day the following week except Tuesday the 16th, or you can go without me if it's too hard and I will totally understand.
