**PROOF OF COMPLIANCE WITH RULE 13.1 OF
THE COMMISSION'S RULES OF PRACTICE AND PROCEDURE OF
SAN DIEGO GAS & ELECTRIC COMPANY (U902E)**

I. INTRODUCTION

Pursuant to Rule 13.1 of the Commission's Rules of Practice and Procedure, San Diego Gas & Electric Company ("SDG&E") hereby submits evidence of its compliance with Rule 13.1(b). Rule 13.1(b) requires that when a utility files an application to increase rates and hearings are scheduled, notice of the hearings is to be posted in public places and published in newspapers of general circulation in the areas in which the increase is proposed to be made effective. Proof of publication and sample copies of the notices are to be filed within 10 days after publication. SDG&E is filing this Proof of Publication one day late due to the fact that the last two copies of the newspaper noticing and associated declarations were not received until Monday, September 8, 2014.

Accordingly, SDG&E submits this proof of compliance with Rule 13.1(b), as follows:

1. Attachment A, which contains SDG&E's proof of posting of the Notice of Public Participation Hearings in R.12-06-013 for public viewing at SDG&E's business offices;
2. Attachment B, which contains SDG&E's proof of newspaper publications of the Notice of Public Participation Hearings in R.12-06-013; and

3. Attachment C, which contains SDG&E's Notification of Notice of Public Participation Hearings in R.12-06-013.

INFORMATION ABOUT THIS REQUEST

The CPUC initiated this rulemaking in June 2012 to examine current residential electric rate design and structure. Assembly Bill (AB) 327 was signed into law in October 2013 permitting electric rate reform in California.

On February 28, 2014, SDG&E filed a request with the CPUC for changes to residential rates starting in 2015 and a roadmap for rates through 2018. SDG&E's request will better align rates with the actual costs of providing electric service as indicated by AB 327. As a result, some customers will see increases in their monthly bill and others will see decreases. This proposal will not change the amount of total revenues collected by SDG&E, which is determined in other proceedings.

Specifically, SDG&E is proposing to:

- Transition from its current 4-tiered structure to a 2-tiered structure beginning in 2015, and then gradually bring the rates for the 2-tiers closer together;
- Offer optional non-tiered time-of-use (TOU) offerings beginning in 2015;
- Transition limited TOU rates that could result in default TOU rates by 2018;
- Charge a monthly service fee;
- Gradually reduce the California Alternate Rates for Energy (CARE) discount percentage in order to comply with AB 327's mandate that the CARE discount should be between 30% and 35%;
- Transition non-CARE medical baseline customers so they will pay equivalent non-CARE rates by 2018, while they continue to receive additional baseline.

If you need special accommodations, such as sign language interpreters or foreign language interpreters, please contact the CPUC's Public Advisor Office, at least five days before the hearing, at 1-415-703-2074 or toll free at 1-866-849-8390, TTY toll free at 1-866-836-7825, or regular TTY at 1-415-703-5282.

INFORMATION ABOUT THIS REQUEST

The CPUC initiated this rulemaking in June 2012 to examine current residential electric rate design and structure. Assembly Bill (AB) 327 was signed into law in October 2013 permitting electric rate reform in California.

On February 28, 2014, SDG&E filed a request with the CPUC for changes to residential rates starting in 2015 and a roadmap for rates through 2018. SDG&E's request will better align rates with the actual costs of providing electric service as indicated by AB 327. As a result, some customers will see increases in their monthly bill and others will see decreases. This proposal will not change the amount of total revenues collected by SDG&E, which is determined in other proceedings.

Specifically, SDG&E is proposing to:

- Transition from its current 4-tiered structure to a 2-tiered structure beginning in 2015, and then gradually bring the rates for the 2-tiers closer together;
- Offer optional non-tiered time-of-use (TOU) offerings beginning in 2015;
- Transition limited TOU rates that could result in default TOU rates by 2018;
- Charge a monthly service fee;

Gradually reduce the California Alternate Rates for Energy (CARE) discount percentage in order to comply with AB 327's mandate that the CARE discount should be between 30% and 35%;

Transition non-CARE medical baseline customers so they will pay equivalent non-CARE rates by 2018, while they continue to receive additional baseline.
