Hi Meredith,

This sounds good. I would appreciate a meeting. Sometime next week would be great, I'm free between 11 and 3 pm on Tuesday the 16th if that works for you.

Brian Turner  
Deputy Executive Director for Policy and External Relations  
California Public Utilities Commission

Ken - That is correct. The meeting is scheduled for 9/18.

Brian - We would also be happy to schedule time for you to meet with our Director of Safety Culture and our Director that has responsibility for metrics and governance.

Thanks,  
Meredith

One of the people we met was PG&E's Director of Safety Culture and another was Director of Metrics and Governance (not the official title but he creates metrics). These are new positions that are charged with implementing and ensuring a safety culture - I.e. Their version of an SMS. And we found out that they are working with the consulting firm, Behavior Science & Technology (BST). BST specializes in identifying the right SMS programs for their clients.

Culture. If you are interested please work with Meredith to schedule the meeting.
