Advice 4485-E

(Pacific Gas and Electric Company ID U39 E)

Public Utilities Commission of the State of California

**Subject: Information-Only Filing Regarding Net Energy Metering Monthly
Transition Reporting**

Pacific Gas and Electric Company (PG&E) hereby submits for filing a monthly Net Energy Metering (NEM)¹ transition report.

Purpose

The purpose of this filing is to report PG&E's progress towards the NEM transition trigger level to the California Public Utilities Commission (CPUC or Commission).

Background

In accordance with Decision (D.) 14-03-041, PG&E shall report the progress towards the NEM transition trigger level to the Commission on a monthly basis, as required by Public Utilities Code Section 2827(c)(4)(C). The report includes the information required in statute, including updated information on progress toward the NEM limits based on operating solar energy systems and cumulative numbers of interconnection requests for NEM-eligible systems, as well as the amount remaining before the NEM transition trigger level is reached.

Since D.14-03-041, PG&E has collaborated with Southern California Edison (SCE), San Diego Gas & Electric Company (SDG&E), and the Commission's Energy Division staff to develop the content and format for these monthly reports, as well as develop an annual summary report to be served on the service list for this or a successor proceeding. In response to a request for guidance on how to serve these reports each month, Energy Division staff sent an e-mail on August 19, 2014, directing the utilities to file an information only Advice Letter each month. These monthly reports are also posted on PG&E's website along with other information about NEM.

¹ Includes PG&E Rate Schedules NEM, NEMV and NEMVMASH.

Net Energy Metering Monthly Transition Reporting

As adopted in D.14-03-041, the monthly NEM transition report has been updated with current interconnection data and progress towards the transition trigger level as prescribed by Public Utilities Code Section 2827(c)(4)(C). The table below shows the latest number of customers in PG&E's service territory taking service under NEM and the combined capacity of their generating systems.

Total Available MW Cap		2409 MW	5% of 48,177 MW
Applications Received in August 2014 <i>(New requests for NEM interconnection)</i>	# 4,427	MWs 36	
Total NEM Applications in Queue as of August 2014 <i>(Total pending requests for NEM interconnection)</i>	# 1,118	MWs 11	
Cumulative NEM Installations² <i>(Projects approved for NEM interconnection)</i>	# 132,602	MWs 1,166	
NEM Installations and Applications in Queue <i>(Cumulative MW installed under NEM + NEM MW in Queue)</i>	# 133,720	MWs 1,177	Percentage 49%
Remaining MW to Cap <i>(NEM Cap minus (Cumulative MW installed under NEM + NEM MW in Queue))</i>		MWs 1,232	

¹This report includes all systems either seeking interconnection or interconnected under the NEM program pursuant to PU Code Section 2827 (e.g., solar, wind, fuel cells using renewable fuels, etc.)

²Includes cumulative installations approved for NEM interconnection since NEM inception in 1996 (does not include systems that terminated NEM interconnection with the utility).

The report is publicly available at PG&E's web site at:

Protests

This is an information-only advice letter filing. Pursuant to General Order 96-B Section 6.2, PG&E is not seeking relief through this advice letter and is not subject to protest. Instead, PG&E is simply reporting the progress towards the NEM transition trigger level

to the Commission on a monthly basis, as required by Public Utilities Code Section 2827(c)(4)(C).

Effective Date

PG&E requests that this information-only advice filing become effective September 10, 2014, the date of filing.

Notice

In accordance with General Order 96-B, Section IV, a copy of this advice letter is being sent electronically and via U.S. mail to parties shown on the attached list and the parties on the service list for R.12-11-005.
