R.14-08-013
(filed August 14th, 2014)

**MOTION OF GREEN TECHNOLOGY LEADERSHIP GROUP
REQUESTING PARTY STATUS**

I. Introduction

The Green Technology Leadership Group (“GTLG”) respectfully moves for party status in this proceeding in accordance with Section 1.4(a)(4) and (b) of the California Public Utilities Commission (“Commission”) Rules of Practice and Procedure.

II. Interest in this Proceeding.

GTLG is a 501(c)(3) nonprofit organization committed to promote dialogues between policymakers and the green technology sector to foster an understanding of the synergies, solutions, and opportunities to develop a cleaner, more efficient, and improved distribution grid. Participants in the organization are leading companies, clean technology business organizations and policy experts in the areas of the electricity distribution grid, distributed energy resources (solar, energy efficiency, smart inverters, demand response, etc.), alternatives fuels, carbon management and other green technology innovators. GTLG is currently working with California IOU’s and distributed energy resource providers to establish more aligned DER goals and objectives that can eventually be part of the future IOU Distribution Resource Plans (DRP). GTLG’s report titled “More than Smart: A

Framework to Make the Distribution Grid More Open, Efficient and Resilient” was also included as Appendix B within this proceeding as one suggested framework for using in the DRP’s.

III. Communication and Service

Service of notices, orders and other correspondence in this proceeding should be directed to GTLG at the address set forth below:

IV. Conclusion

GTLG’s participation in this proceeding will not prejudice any party, or broaden the scope of the issues in the proceeding. For the reasons stated above, GTLG requests that the Commission grant this Motion for Party Status filing.

Respectfully submitted,
