

Liberty Power Delaware LLC 2013 Preliminary Annual 33% RPS Compliance Report Narrative Reporting Requirements

In accordance with Public Utilities Code Section 399.13(a)(3) and the “Instructions” tab of the 2013 Preliminary Annual 33% RPS Compliance Report template, Liberty Power Delaware LLC (“Liberty Delaware”) provides the following narrative response along with its 2013 Preliminary Annual 33% RPS Compliance Report.

1. The status of any necessary siting and permitting approvals from federal, state, and local agencies for those eligible renewable energy resources procured by the retail seller that have not yet attained their commercial on-line dates.

Response:

Liberty Delaware has no procurement from any facilities that have not yet attained their commercial on-line dates.

2. Identification of all procurement from eligible renewable energy resources located outside California and within the WECC during the period covered by the report.

Response:

Liberty Delaware has no procurement from eligible renewable energy resources located outside California and within the WECC.

3. Identification of all procurement of unbundled renewable energy credits (RECs) during the period covered by the report.

Response:

Liberty Delaware has no procurement of unbundled RECs.

4. Recommendations to remove impediments to making progress toward achieving the renewable energy resources procurement requirements established by statute and implemented by Commission decision.

Response:

Liberty Delaware has no recommendations to remove impediments to making progress toward achieving the renewable energy resources procurement requirements. However, Liberty Delaware reiterates its request raised in its July 11, 2013 RPS Procurement Plan that it be exempted from future RPS compliance requirements until Liberty Delaware begins to serve customer load. As Liberty Delaware serves no load and has no procurement, renewable or otherwise, an exemption from RPS compliance requirements is appropriate.
