

Sonoma Clean Power Authority

2013 Preliminary Annual 33% RPS Compliance Report

Reporting progress towards meeting the procurement quantity requirements for California's RPS Program

Narrative Reporting Requirements:

1. Development status update for projects that have not yet attained their commercial on-line dates.
 - a. RE Mustang – Under Development (On Schedule); contract recently executed in June, 2014.
2. SCPA began serving its initial phase of community choice aggregation customers on May 1, 2014 and, as such, did not procure any renewable energy from resources located outside California during the period covered by this report (CY 2013).
3. SCPA began serving its initial phase of community choice aggregation customers on May 1, 2014 and, as such, did not procure any unbundled renewable energy certificates during the period covered by this report (CY 2013).
4. At this point in time, SCPA has no recommendations. However, SCPA, based on its current and future renewable energy procurement activities, may provide recommendations in subsequent RPS Compliance Reports.
