AGREEMENT

THIS AGREEMENT, dated as of July 13, 2001 (the "Effective Date"), by and among Madera-Chowchilla Water and Power Authority ("QF") and Pacific Gas and Electric Company ("PG&E"). QF and PG&E are sometimes referred to herein as the "Parties."

WITNESSETH

WHEREAS, QF and PG&E are Parties to four power purchase agreements for PG&E's purchase of power from QF's projects identified by PG&E Log Nos. 25H036, 25H040, 25H041 and 25H042 ("PPAs");

WHEREAS, starting on February 1, 2001 (the "Initial Default Date"), PG&E failed to pay the full amount due to QF under one of the PPAs (PG&E Log No. 25H036) for deliveries of energy and capacity for the period between December 1, 2000 and April 6, 2001;

WHEREAS, the amount of payables for QF are set forth in Attachment A hereto for a total amount of forty dollars and forty-four cents (\$40.44), excluding interest thereon (the "Prepetition Payables");

WHEREAS, PG&E asserted that its failure to make certain of the Prepetition Payables was excused based on a claim of force majeure and QFs protested PG&E's assertion of such a force majeure and QFs continue to dispute such assertions of PG&E's claim of force majeure;

WHEREAS, PG&E filed a Chapter 11 bankruptcy petition pursuant to Title 11 United States Codes §§ 101 *et seq.* ("Bankruptcy Code") in the United States Bankruptcy Court for the Northern District of California, San Francisco Division (the "Bankruptcy Court") on April 6, 2001;

WHEREAS, on June 13, 2001, the California Public Utilities Commission (the "CPUC") issued Decision No. 01-06-015 whereby Qualifying Facilities under Standard Offer Contracts with PG&E may request that their contracts be modified to replace the energy pricing term with a five-year average fixed price of 5.37 cents/kwh, as proposed in the March 23, 2001 comments of the Independent Energy Producers referred to in Decision No. 01-06-015;

WHEREAS, QF notified PG&E of its desire to modify the PPAs pursuant to CPUC Decision No. 01-06-015.

NOW THEREFORE, in consideration of the premises described above and the terms and conditions set forth below, the Parties hereby agree as follows:

1. Acceptance of the CPUC Five-Year Fixed Energy Price Option. Upon entry of a Bankruptcy Court order authorizing the assumption of the PPAs as specified in Section 2, PG&E and QF shall amend the PPAs to replace the energy price term (PG&E's "full short-run avoided costs" or "full short-run avoided operating costs," as the case may be) for the lesser of the term of

the PPA or five years with the applicable energy prices as specified in Attachment B. These amended energy prices become effective on July 16, 2001, at 00:00 PPT. No provision of the PPAs other than the energy pricing term is or shall be deemed to be modified, amended, waived or otherwise affected by this Agreement and except as so modified hereby, the PPAs remain in full force and effect and are hereby ratified and confirmed in all respects. The Parties agree to reasonably cooperate and contest any challenge in any CPUC proceeding that seeks to alter or modify the energy pricing terms set forth in Attachment B, including, but not limited to, any challenge to the reasonableness of PG&E having entered into this Agreement. If, despite such cooperation and contest, a CPUC decision that alters or modifies the pricing terms in Attachment B becomes final and nonappealable, the Parties shall in good faith renegotiate the pricing terms in Attachment B, solely on a prospective basis, to preserve a five-year annual average fixed price of 5.37 cents/kwh, as proposed in the March 23, 2001 comments of the Independent Energy Producers referred to in Decision No. 01-06-015. By no later than July 13, 2001, the Parties shall execute an amendment to the PPAs consistent with the terms of this Section 1.

2. Conditioned on Assumption. The effectiveness of the PPA amendment contemplated in Section 1 is contingent upon assumption of the PPAs in accordance with the procedures described below:

- a. PG&E and QF shall use their respective best efforts to enter into a Stipulation Regarding Assumption of the PPAs ("Stipulation") that shall be filed in the Bankruptcy Court specifying the terms of this Agreement;
 - b. PG&E shall use its best efforts to file and serve a Motion for Bankruptcy Court Approval of the Stipulation ("Motion");
- and
- c. The Bankruptcy Court must grant the Motion and authorize PG&E's assumption of the PPAs effective as of August 31, 2001.

3. Full Payment. In connection with PG&E's assumption of the PPAs, PG&E agrees to pay on the "Plan Effective Date" (as such term is defined in the plan) the Prepetition Payables, including all interest thereon at the Interest Rate (as defined in Section 4), which is amortized and added to the outstanding balance of the Prepetition Payables (the "Cure Amount"), all as part of its administrative priority cure obligations pursuant to sections 365 and 503 of the Bankruptcy Code. There is no "Cure Amount" other than as defined in this Section 3.

4. Interest. Interest shall accrue on the Prepetition Payables from their respective due dates to but excluding the Plan Effective Date, at a rate (the "Interest Rate") to be negotiated in good faith by the Parties. If the Parties do not agree on the Interest Rate prior to the Plan Effective Date, the Interest Rate shall be determined in accordance with the terms of the Plan, if any, or by the Bankruptcy Court as part of the plan confirmation process. If no plan is confirmed or if PG&E's bankruptcy case is dismissed or converted to Chapter 7, then the Bankruptcy Court shall determine the Interest Rate. If the Bankruptcy Court declines to exercise jurisdiction over the determination of the Interest Rate, the Parties reserve all rights to pursue their appropriate

remedies. The Parties agree that interest shall accrue and the Interest Rate shall be determined as set forth herein but each of the Parties reserves all of its respective rights as to the appropriate Interest Rate and to the capitalization or compounding thereof in any proposed plan or in connection with any other determination of the Interest Rate by the Bankruptcy Court. Specifically, though not exclusively, QF reserves the right to dispute any Interest Rate set forth in a proposed plan and preserves the right to assert that the claim of QF is impaired under the proposed plan as a result of such proposed Interest Rate.

5. Waiver of Pecuniary Loss Damages. QF waives its right to assert claims to recover “pecuniary loss” damages in connection with assumption of the PPAs pursuant to Bankruptcy Code section 365(b)(1)(B). This waiver shall not diminish or affect QF’s right to payment of the Prepetition Payables or the Cure Amount, or to recover interest thereon; nor shall this waiver affect the determination of the Interest Rate.

6. Waiver of Right to Pre-Assumption Claim. QF waives its right to assert claims to receive the difference between the market price and the contract price for energy and capacity delivered to PG&E from and after April 6, 2001 through July 13, 2001, the effective date that PG&E assumes the PPAs, pursuant to Bankruptcy Code sections 365 and 503(b).

7. Payment of Post-Assumption Obligations. PG&E shall pay in full any and all post-assumption obligations due under the PPAs on such dates, at such times, and under the PPAs, pursuant to Bankruptcy Code section 365. Such obligations shall be afforded administrative priority status under Bankruptcy Code section 503. Good faith disputes regarding the amounts to be paid to QF under the PPAs for post-assumption deliveries of energy and capacity shall not be deemed a breach of this Agreement.

8. Reservation of Rights. Neither this Agreement nor PG&E’s assumption of the PPAs in the manner contemplated herein shall modify, waive, or otherwise prejudice either Party’s rights and obligations with respect to any proceedings before the CPUC, the Federal Energy Regulatory Commission and the courts, relating to the energy price to be paid pursuant to the PPAs for the period prior to PG&E’s assumption of the PPAs provided herein, including, but not limited to, PG&E’s pending Emergency Motion for Stay of D.99-11-025 to End True-Up for Switching QFs, filed January 10, 2001 in CPUC proceeding R.99-11-022, and petitions for rehearing, enforcement actions, and judicial challenges to CPUC Decision No. 01-03-067 and the dispute between the Parties with respect to the statement, computation and payment for electricity sold and delivered pursuant to the PPAs during the period from January 1 through January 18, 2001.

9. Further Assurances. QF and PG&E shall take all necessary action to implement the terms and conditions contemplated herein, including but not limited to executing the amendments contemplated in Section 1 and preparing any documentation and taking any actions necessary to implement Section 2 and approving, executing and delivering this Agreement.

10. Descriptive Headings. The descriptive headings of this Agreement are inserted for convenience of reference only and do not constitute a part of this Agreement. All references to sections, attachments, or exhibits are to the sections, attachments or exhibits of this Agreement.

11. Expenses. Each Party shall pay its own expenses, professional fees and other costs connected with or associated with the negotiation and execution of this Agreement. In the event any Party breaches this Agreement, the breaching Party shall pay all costs and expenses (including attorneys' fees and expenses) incurred by the other Party or Parties in connection with or arising out of such breach.

12. Governing Law. This Agreement is made and entered into in the State of California, and shall in all respects be interpreted and governed under the laws of California, without regard to principles of conflicts of law.

13. Entire Agreement. This Agreement, and all attachments hereto, sets forth the entire agreement between the Parties relating to the acceptance by QF of the CPUC five-year fixed energy price option, assumption by PG&E of the PPAs and the payment of the Cure Amount and supercedes and replaces any prior understanding, correspondence, commitments or agreement, whether oral or written concerning the subject matters of this Agreement. Any modification or amendment to this Agreement must be in writing and must be signed and dated by the Parties, and must explicitly state that it is intended to be an amendment to or modification of this Agreement.

14. Binding Agreement. This Agreement shall be binding upon and inure to the benefit of the successors and assigns of the Parties hereto.

15. Construction of Agreement. Counsel for the respective Parties have reviewed and participated in the drafting of this Agreement. Consequently, the principle of construction of contracts that ambiguities shall be resolved against the drafter shall not be used or applied in the interpretation of this Agreement.

16. Representations. Each Party hereby represents and warrants to each of the other Parties that (a) the execution of this Agreement has been duly authorized by all necessary corporate, shareholder and similar actions; (b) this Agreement has been duly executed and delivered and constitutes the legal valid and binding obligation of such Party, enforceable against such Party is in accordance with its terms; and (c) the execution and delivery of this Agreement and the performance by such Party of its obligations hereunder do not and will not conflict with, contravene or breach, and law, judgment, order or material contract applicable to or binding on such Party or any of its properties or assets.

17. Execution by Counterparts. This Agreement may be executed in separate counterparts, each of which when executed shall be an original, but all of which, taken together, shall constitute one and the same instrument.

18. Bankruptcy Court Approval. This Agreement is subject to Bankruptcy Court approval. If such approval has not been given by August 31, 2001, this Agreement shall be deemed a nullity.

IN WITNESS WHEREOF, this Agreement has been duly executed by or on behalf of the Madera-Chowchilla Water and Power Authority and PG&E as of the Effective Date.

- These energy prices are derived solely for purposes of implementing the five-year fixed energy price (5.37 cents/kwh) option in CPUC Decision (D.) 01-06-015. These prices will be reallocated annually using appropriate TOU calendar hours.
- SRAC TF Base values reflect the seasonal allocation factors currently specified in PG&E's SRAC Transition Formula, as adopted by the CPUC in D.96-12-028. Seasonal values reflect the Base SRAC energy prices adopted in D.96-12-028. The annual average value shown derives from weighting the seasonal values by TOU period hours.
- TOU factors allocate the fixed annual energy price for seasons, and seasonal values for time-of-use periods. Seasonal TOU factors are derived from the ratio of the seasonal SRAC TF Base values to the average annual value shown. Intra-seasonal TOU factors are as adopted in D.96-12-028 (as corrected in CPUC D.97-01-027). Off-peak period values are calculated using seasonal period hours for the applicable year, per the following:

Period A (May 1 - October 31)	Period B (November 1 - April 30)
[Total Summer hours - (1.065 * Summer Peak hours) - (1.022 * Summer Partial Peak hours) - (0.946 * Summer Super Off-Peak hours)] / Summer Off-Peak hours	[Total Winter hours - (1.032 * Winter Partial-Peak hours) - (0.950 * Winter Super Off-Peak hours)] / Winter Off-Peak hours.

- TOU energy price is the product of the starting energy value and the TOU factor. Energy prices shown do not include applicable line loss adjustments. Line loss adjustments will be determined in accordance with CPUC D.01-01-007.
