

855 MAINTENANCE OF PRESSURE LIMITING AND PRESSURE REGULATING STATIONS
INCLUDING RELIEF VALVES

Form 62-6271 "Regulator Installation Data Sheet" and Form 62-6321 "Regulator Maintenance and Operating Data" are used generally within the Company. Equipment cards, however, including this same type data are also used. Several larger divisions use check-off list forms to schedule and followup inspections, tests and preventive maintenance work.

Standard Practice 461-1 "Gas Station Equipment: Marking of Piping and Safety Devices" and the procedure pertinent to the routine inspection of our major pipeline pressure limiting stations are also attached.
