Advice Letter No. 2443

To The Public Utilities Commission of the State of California:

California Water Service Company (“Cal Water”) respectfully submits this Tier 2 advice letter and hereby transmits for filing the following changes in its tariff schedules applicable to the Bay Area Region (formerly the Bayshore and Redwood Valley Districts):

Rate Schedule	New/Revised CPUC Sheet No.		Title of Sheet	Cancelling CPUC Sheet No.

Summary

This advice letter requests approval for a rate increase for the costs associated with design and construction of a storage tank at Station 115 in San Carlos (Project # 060861). The requested effective date is April 15, 2022.

Background

The Commission adopted a Settlement Agreement which resolved Cal Water’s 2018 General Rate Case in D.20-12-007. Attachment 8 of that Settlement Agreement identifies certain rate base offset projects whose costs may be recovered through a Tier 2 advice letter after the projects are used and useful. While Water Industry Rule 7.3.3(8) categorizes a rate base offset as a Tier 3 advice letter, Settlement Agreement section 12.B. specifies that a rate base offset can be filed as a Tier 2 advice letter if:

- (i) The rate base offset was previously approved by the Commission in a decision or resolution;
- (ii) The project scope is consistent with what the Commission approved; and
- (iii) The Commission approval included a budget cap and the rate base offset request is at or below the budget cap.

Discussion

In the 2018 GRC, Cal Water proposed several projects to maintain reliable and uninterrupted water supply. Specifically, in Project ID 060861, Cal Water designed and built a storage tank at Station 115 in San Carlos to improve operational efficiency and supply reliability.

While the total cost of Project ID 060861 was \$2,468,657, Cal Water only requests revenue recovery of the adopted cost cap of \$1,089,507 for this carryover advice letter project, as identified in Attachment 8 to the Settlement Agreement.¹ If approved, this would result in an annual revenue increase of \$142,946, or 0.15%. A residential customer using 7 CCF would see an approximate increase of \$0.10, or 0.15%, in their monthly water bill. The details relating to the calculations for the above amounts are contained in the work papers.

Requested Effective Date

Cal Water requests that the proposed tariffs in this advice letter become effective **April 15, 2022**.

Notice

Customer Notice – A legal notice of this advice letter is being published in a newspaper of local circulation consistent with GO 96-B, Water Industry Rule 3.1. **A copy of the order for newspaper publication, and verification from an officer of the utility that the advice letter has been properly and timely noticed, are attached.** However, individual customer notice of this advice letter is not required under General Order 96-B, Water Industry Rule 3.1, because the requested rate increase is less than 10% of the district's revenue requirement. If the rate increase is approved, Cal Water will provide a bill message identifying the reason for the rate increase in the first bill that includes the rate increase.

Service List: In accordance with General Order 96-B, General Rules 4.3 and 7.2, and Water Industry Rule 4.1, a copy of this advice letter will be transmitted electronically on February 11, 2022, to competing and adjacent utilities and other utilities or interested parties having requested such notification, including the Local Agency Formation Commission (LAFCO). *Please note that this advice letter will only be distributed electronically.*

Response or Protest

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

¹ This cost cap reflects total allowed costs (direct and indirect costs) for the project. See Settlement Agreement page 100, which states, "Carryover projects treated as advice letter projects for the 2018 GRC period are listed with a total cost cap that includes all relevant cost components," i.e., direct costs, overhead costs, and IDC/AFUDC. See also Settlement Agreement page 100, footnote 2, which states: "The final cost caps for Carryover advice letter projects will not be updated to reflect either an overhead allocation or an IDC/AFUDC rate."

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing or by electronic mail and must be received by the Water Division within 20 days of the date this advice letter is filed. The address for mailing or emailing a protest is:

Tariff Unit, Water Division, 3rd Floor
California Public Utilities Commission
505 Van Ness Avenue, San Francisco, CA 94102
water.division@cpuc.ca.gov

On the same date the response or protest is submitted to the Water Division, the respondent or protestant shall send a copy by mail or e-mail to:

Natalie Wales
California Water Service Company
1720 North First Street
San Jose, CA 95112
cwsrates@calwater.com

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division, within the 20-day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

The advice letter process does not provide for any responses, protests, or comments, except for the utility's reply, after the 20-day comment period.

Replies:

The utility shall reply to each protest and may reply to any response. Each reply must be received by the Water Division within 5 business days after the end of the protest period and shall be

CALIFORNIA WATER SERVICE COMPANY

Schedule No. BAR-1-R
Bay Area Region
RESIDENTIAL METERED SERVICE

Page 1

Note: On January 1, 2017, the rates of the Bayshore District and the Redwood Valley District were consolidated. The resulting district is the "Bay Area Region."

APPLICABILITY:

Applicable to all metered water service provided to single-family residential customers.

TERRITORY (see special conditions for area details):

- Bayshore Service Area
- Redwood Valley - Coast Springs Service Area
- Redwood Valley - Lucerne Service Area
- Redwood Valley - Unified Service Area

RATES

1 CCF is 100 cubic feet (approximately 748 gallons) (T)

Quantity Rates:

For 1 - 7 CCF, per CCF	\$6.1787	(I)
For 8 to 10 CCF, per CCF	\$7.7219	(I)
For over 10 CCF, per CCF	\$11.5798	(I)

Service Charge:

Per Meter Per Month

For	5/8 x 3/4 - inch meter	\$22.04	(I)
For	3/4 - inch meter	\$33.06	
For	Fire Sprinkler w/1-inch meter	\$22.92	
For	1 - inch meter	\$55.10	
For	1-1/2 - inch meter	\$110.20	
For	2 - inch meter	\$176.32	
For	3 - inch meter	\$330.60	
For	4 - inch meter	\$551.00	
For	6 - inch meter	\$1,102.00	
For	8 - inch meter	\$1,763.20	
For	10 - inch meter	\$2,534.60	
For	12 - inch meter	\$3,636.60	
For	14 - inch meter	\$4,959.00	(I)

The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the quantity rates.

Notice to Bay Area Region Customers Regarding Rate Increases for Pre-Authorized Infrastructure Improvements

On February 11, 2022, California Water Service (Cal Water) will file Advice Letter 2443 with the California Public Utilities Commission (CPUC) seeking permission to change rates in its Bay Area Region for costs associated with the design and construction of a storage tank at Station 115 in San Carlos (Project # 060861). In the advice letter, Cal Water requests additional revenue of \$142,946, or 0.15% of currently authorized revenue. If approved, effective April 15, 2022, the water bill of a Bay Area Region residential customer with 7 Ccf (approximately 5,236 gallons) of monthly water usage would increase by approximately \$0.10, or 0.15%. Although previously authorized by the CPUC in Decision 20-12-007 as part of the utility's triennial rate review process, the project's cost could only be recovered through a rate increase after it was completed.

A copy of Advice Letter 2443 is available on the internet at <https://www.calwater.com/rates-advice-letters/> (from the dropdown menu, select either Bayshore (Bay Area Region) or Redwood Valley (Bay Area Region)). Copies may also be obtained from the company's local offices by calling (650) 568-7800 for Bayshore (707) 274-6624 for Redwood Valley. You may also contact the company's headquarters at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

Cal Water offers many programs to help you manage your water bill including a Customer Assistance Program (CAP), (formerly, low-income ratepayer assistance program (LIRA)), water conserving appliance rebates, and other conservation programs. Please visit our website at www.calwater.com to take advantage of these opportunities.

Protest and Responses
Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the CPUC in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on

which it is based and shall provide citations or proof where available to allow staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or CPUC order or is not authorized by statute or CPUC order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the CPUC in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the CPUC).

A response or protest must be made in writing and received by the Commission's Water Division via mail or email within 20 days of the date the advice letter was filed. The response or protest should be either emailed to water.division@cpuc.ca.gov or mailed to Tariff Unit, Water Division, 3rd Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102. On the same date the response or protest is sent to the Water Division, it must also be either emailed to cwsrates@calwater.com or mailed to Rates Department, California Water Service, 1720 North First Street, San Jose, CA 95112.

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division within the 20-day protest period so that a late-filed protest can be considered. The informing document should include an estimated date on which the proposed protest may be voted. If you have not received a reply to your protest within 10 business days, contact Cal Water at (408) 367-8200 and ask for the Rates Department.

Notice to Bay Area Region Customers Regarding Rate Increases for Pre- Authorized Infrastructure Improvements

On February 11, 2022, California Water Service (Cal Water) will file Advice Letter 2443 with the California Public Utilities Commission (CPUC) seeking permission to change rates in its Bay Area Region for costs associated with the design and construction of a storage tank at Station 115 in San Carlos (Project # 060861).

In the advice letter, Cal Water requests additional revenue of \$142,946, or 0.15% of currently authorized revenue. If approved, effective April 15, 2022, the water bill of a Bay Area Region residential customer with 7 Ccf (approximately 5,236 gallons) of monthly water usage would increase by approximately \$0.10, or 0.15%. Although previously authorized by the CPUC in Decision 20-12-007 as part of the utility's triennial rate review process, the project's cost could only be recovered through a rate increase after it was completed.

A copy of Advice Letter 2443 is available on the internet at <https://www.calwater.com/rates-advice-letters/> (from the dropdown menu, select either Bayshore (Bay Area Region) or Redwood Valley (Bay Area Region)). Copies may also be obtained from the company's local offices by calling (650) 558-7800 for Bayshore or (707) 274-6624 for Redwood Valley. You may also contact the company's headquarters at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

Cal Water offers many programs to help you manage your water bill including a Customer Assistance Program (CAP), (formerly, low-income ratepayer assistance program (LIRA)), water conserving appliance rebates, and other conservation programs. Please visit our website at www.calwater.com to take advantage of these opportunities.

Protest and Responses

Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the CPUC in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on which it is based and shall provide citations or proof where available to allow staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or CPUC order or is not authorized by statute or CPUC order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the CPUC in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the CPUC).

A response or protest must be made in writing and received by the Commission's Water Division via mail or email within 20 days of the date the advice letter was filed. The response or protest should be either emailed to water.division@cpuc.ca.gov or mailed to Tariff Unit, Water Division, 3rd Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102. On the same date the response or protest is sent to the Water Division, it must also be either emailed to cwsrates@calwater.com or mailed to Rates Department, California Water Service, 1720 North First Street, San Jose, CA 95112.

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division within the 20-day protest period so that a late-filed protest can be considered. The informing document should include an estimated date on which the proposed protest may be voted.

If you have not received a reply to your protest within 10 business days, contact Cal Water at (408) 367-8200 and ask for the Rates Department.

THE PRESS DEMOCRAT

**DECLARATION OF GREG A. MILLEMAN
REGARDING PROPER AND TIMELY SERVICE OF ADVICE LETTER**

I, Greg A. Milleman, declare and state:

1. I am the Vice President, California Rates, of California Water Service Company (U 60 W) ("Cal Water").

Cal Water is filing Advice Letter 2443 on February 11, 2022 requesting a revenue increase in the Bay Area Region to design and build a storage tank at Station 115 in San Carlos to improve operational efficiency and supply reliability.

2. Customer notice of the filing of this advice letter is being provided through the publication of a legal notice in a newspaper of general circulation. This advice letter includes a copy of the publication order that identifies the name of the publication, the date of publication, and a copy of the notice itself.

3. This newspaper publication meets the requirements of the California Public Utilities Commission's ("Commission's) General Order 96-B ("GO 96-B"), Water Industry Rule 3.1.

4. With the first customer bill reflecting the requested revenue increase, Cal Water will inform customers of the rate increase, and its impact on a typical residential customer's bill in both dollar and percentage terms.

5. This customer bill notice meets the requirements of the Commission's GO 96-B, Water Industry Rule 3.2.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Executed on February 11 2022, in San Jose, California.

/s/
