Advice Letter No. 2449

To The Public Utilities Commission of the State of California:

California Water Service Company (“Cal Water”) hereby transmits for filing the changes in its tariff schedules shown on **Attachment 1**.

Consistent with the Commission’s guidelines during the COVID-19 pandemic, this advice letter is only being distributed electronically to the Water Division and the attached service lists.

Summary

Cal Water requests to update the income guidelines listed in the application forms for residential CAP customers, as well as replace “LIRA” references to “CAP” on miscellaneous tariffs.

Discussion

Eligibility Increase for CAP: The energy utilities have a low-income rate discount called California Alternate Rates for Energy (“CARE”) while Cal Water has a low-income rate discount called Customer Assistance Program (“CAP”). Both programs use the same income guidelines to qualify customers for rate discount programs.

On May 5, 2011, the Commission issued Decision 11-05-020 which adopted guidelines for water and energy utilities with overlapping service territories to share low-income customer information in order to increase the participation rate.

Ordering Paragraph 11 states:

Each water utility with a low-income assistance program shall file a Tier 1 advice letter to update California Alternate Rates for Energy guidelines within 30 days after the Commission’s Energy Division sends its notice to establish the California Alternate Rates for Energy income guidelines.

Each year, the CPUC updates the information which goes into effect on June 1 and covering a period from June 1st to the following May 31st. Per the March 11, 2022 notice from the Commission’s Energy Division the new eligibility guidelines are as follows:

Household Size	1-2	3	4	5	6	7	8	Each Additional Person
Income Eligibility Upper Limit	\$36,620	\$46,060	\$55,500	\$64,940	\$74,380	\$83,820	\$93,260	\$9,440

English and Spanish versions of the residential CAP application form with the updated eligibility limits are provided with this advice letter.

Transition to “CAP:” On August 27, 2020, the Commission issued Decision 20-08-047 which requires Cal Water to rename its current low-income water assistance program. Ordering Paragraph 4 states:

Water utilities with low-income programs shall describe their programs in filings and public outreach with the name “Customer Assistance Program.” Water utilities may use the CAP acronym where appropriate.

Cal Water’s low-income rate discount program, previously called the Low-Income Rate Assistance (“LIRA”) program, is now referred to as the “Customer Assistance Program” (“CAP”). Since D.20-08-047, Cal Water has been updating the references to “LIRA” on a tariff page as other changes are made on the same page. Cal Water completes this transition by updating the last known tariff pages that include the legacy term.

Requested Effective Date

Cal Water requests that the proposed tariffs in this advice letter become effective June 1, 2022.

Notice

Customer Notice – Individual customer notice of this advice letter is not required under General Order 96-B, Water Industry Rule 3.1, because it is a Tier 1 compliance filing under Water Industry Rule 7.3.1(3).

Service Lists – In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be transmitted electronically on **April 27, 2022** to competing and adjacent utilities and other utilities or interested parties having requested such notification, including the Local Agency Formation Commission (LAFCO). ***Please note that, consistent with the Commission’s guidelines during the COVID-19 pandemic, this advice letter is only being distributed electronically to the Water Division and the attached service lists.***

Response or Protest

Anyone may respond to or protest this advice letter. When submitting a response or protest, please include the utility name and advice letter number in the subject line. A response

supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided such a protest may not be made where it would require relitigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing or by electronic mail and must be received by the Water Division within 20 days of the date this advice letter is filed. The address for mailing or delivering a protest is:

Tariff Unit, Water Division, 3rd floor
California Public Utilities Commission,
505 Van Ness Avenue, San Francisco, CA 94102
water.division@cpuc.ca.gov

On the same date the response or protest is submitted to the Water Division, the respondent or protestant shall send a copy by mail (or e-mail) to Cal Water at the following address:

Natalie Wales
California Water Service Company
1720 North First Street,
San Jose, California 95112
E-mail: cwsrates@calwater.com

Cities and counties requiring Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division within the 20-day protest period so a late-filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on. The advice letter process does not provide for any responses, protests or comments, except for the utility's reply, after the 20-day comment period.

Replies: The utility shall reply to each protest and may reply to any response. Each reply must be received by the Water Division within 5 business days after the end of the protest period
