Advice Letter No. 2465

CALIFORNIA WATER SERVICE COMPANY (U 60 W)

To The Public Utilities Commission of the State of California:

California Water Service Company (“Cal Water”) hereby respectfully requests authority to make changes to the tariff schedules listed in **Attachment 1** for the Dominguez, East Los Angeles, Hermosa-Redondo, Antelope Valley (Los Angeles County Region), Palos Verdes (Los Angeles County Region), and Westlake tariff areas. ***Please note that this advice letter will only be distributed electronically to the Water Division and the attached service lists.***

Summary

This filing proposes revenue increases to reflect the higher costs associated with purchased water and pump taxes in ratemaking areas detailed below. Cal Water requests an effective date of January 1, 2023, for this Tier 1 advice letter.

District	Revenue Increase (in \$)	Revenue Increase (in %)
Dominguez	\$1,266,637	1.6%
East Los Angeles	\$454,202	1.1%
Hermosa-Redondo	\$924,299	2.6%
Los Angeles County Region	\$1,729,940	3.1%
Westlake	\$771,695	3.4%

Discussion

The basis for the revenue increases in the table above is described for each ratemaking area below.

Dominguez:

Purchased water for the Dominguez District is obtained from the West Basin Municipal Water District (West Basin). Effective January 1, 2023, West Basin will increase its potable water rates by \$87 per acre-foot.

East Los Angeles:

Purchased water for the East Los Angeles District is obtained from the Central Basin Municipal Water District (Central Basin). Effective January 1, 2023, Central Basin will increase its quantity rates for Tier 1 from \$1,313 to \$1,379 per acre-foot. In addition, the Water Replenishment District

CALIFORNIA WATER SERVICE COMPANY

Page 3

of Southern California increased its pump tax rate from \$394 per acre-foot to \$411 per acre-foot, effective July 1, 2022.

Hermosa-Redondo:

Purchased water for the Hermosa-Redondo District is obtained from West Basin. Effective January 1, 2023, West Basin will increase its quantity rates from \$1,488 per acre-foot to \$1,587 per acre-foot, and its recycled water rates from \$1,294 per acre-foot to \$1,520 per acre-foot. In addition, the Water Replenishment District of Southern California increased its pump tax rate from \$394 per acre-foot to \$411 per acre-foot effective, July 1, 2022.

Los Angeles County Region:

Purchased water for the Palos Verdes area (a sub-region of the Los Angeles County Region), is obtained from West Basin. Starting January 1, 2023, West Basin will increase its potable water rates from \$1,488 per acre-foot to \$1,587 per acre-foot.

Note that, in D.20-12-007, the Commission authorized a tariff split so that Antelope Valley customers would not have to fund the Palos Verdes Peninsula Water Reliability Project (PVPWRP) filed in Advice Letter 2387. Accordingly, Antelope Valley and Palos Verdes customers have returned to having different rates.

Westlake:

Purchased water for the Westlake District is obtained from the Calleguas Municipal Water District (Calleguas) and the Triunfo Water & Sanitation District (Triunfo). Effective January 1, 2023, Calleguas will increase its potable water quantity rates for Tier 1 from \$1,561 to \$1,632 per acre-foot. Because Triunfo recycled water rates are equal to 80% of the Calleguas potable water rates, water purchased from Triunfo will be \$1,306 per acre-foot.

Allocation of Revenue Increase:

Current rates are calculated based on a Commission-approved allocation of revenue collected from consumption-based rates versus fixed monthly service charges. Because the costs of purchased water and groundwater replenishment include variable and fixed charges in nature, in the Settlement Agreement adopted in D.20-12-007, Cal Water and Cal Advocates agreed that all revenue increases between rate cases should be reflected in both the quantity rates and service charges of Cal Water customers so that the authorized revenue allocation percentages are maintained. The rates proposed in this advice letter maintain the appropriate allocations.

Typical Residential Bill Impact:

The table below shows the monthly bill impact of these increases for the typical residential customer (based on median 2020 usage). The typical bill increases are based on incremental changes in rates calculated for purchased water and pump tax offset revenue increases only.

Tariff Area	Recorded Usage (2020 - Median in CCF)	Typical Bill at Current Rates	Typical Bill with PWO Incremental changes	Increase (in \$s)	Increase (in %)
Dominguez	9	\$53.98	\$54.89	\$0.91	1.7%
East Los Angeles	10	\$68.10	\$69.13	\$1.03	1.5%
Hermosa-Redondo	9	\$54.76	\$56.21	\$1.45	2.6%
Los Angeles County Region-AV	10	\$71.03	\$73.17	\$2.14	3.0%
Los Angeles County Region-PV	15	\$107.74	\$110.92	\$3.18	3.0%
Westlake	14	\$88.33	\$91.33	\$3.00	3.4%

Revisions to Tariffs:

This filing seeks to remove a paragraph from the Special Conditions section of Hermosa-Redondo District's Recycled Metered Service tariff pertaining to recycled water contracts because the provision is no longer applicable. This filing also removes the Preliminary Statement M table for the five ratemaking areas addressed in this advice letter because the WRAM/MCBA mechanism will no longer be in effect on January 1, 2023.

Requested Effective Date

Under General Order 96-B, Water Industry Rule 7.3.1, as modified by Resolution W-4664, this is a Tier 1 advice letter. Cal Water requests that the rates proposed in this advice letter become effective on **January 1, 2023**.

Notice

Customer Notice – A legal notice of this advice letter is being published in a newspaper of local circulation consistent with GO 96-B, Water Industry Rule 3.1. A copy of the order for newspaper publication, and verification from an officer of the utility that the advice letter has been properly and timely noticed, are attached.

Service List – In accordance with General Order 96-B, General Rule 4.3 and 7.2 and Water Industry Rule 4.1, a copy of this advice letter will be transmitted electronically on **November 17, 2022**, to competing and adjacent utilities and other utilities or interested parties having requested such notification, including the Local Agency Formation Commission (LAFCO). ***Please note that this advice letter will only be distributed electronically to the Water Division and the attached service lists.***

Response or Protest

Anyone may respond to or protest this advice letter. A response supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A protest objects to the advice letter in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

- (1) The utility did not properly serve or give notice of the advice letter;
- (2) The relief requested in the advice letter would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;

- (3) The analysis, calculations, or data in the advice letter contain material error or omissions;
- (4) The relief requested in the advice letter is pending before the Commission in a formal proceeding; or
- (5) The relief requested in the advice letter requires consideration in a formal hearing, or is otherwise inappropriate for the advice letter process; or
- (6) The relief requested in the advice letter is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.)

A protest shall provide citations or proofs where available to allow staff to properly consider the protest. A response or protest must be made in writing and must be received by the Water Division within 20 days of the date this advice letter is filed. Please submit the response or protest by email or mail to:

water.division@cpuc.ca.gov, or
Tariff Unit, Water Division, 3rd floor
California Public Utilities Commission,
505 Van Ness Avenue, San Francisco, CA 94102

On the same date the response or protest is submitted to the Water Division, the respondent or protestant shall send a copy by e-mail or mail to us at:

cwsrates@calwater.com, or
Natalie Wales
California Water Service Company
1720 North First Street,
San Jose, California 95112

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division, within the 20-day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

The advice letter process does not provide for any responses, protests, or comments, except for the utility's reply, after the 20-day comment period.

Replies:

The utility shall reply to each protest and may reply to any response. Each reply must be received by the Water Division within 5 business days after the end of the protest period and shall be served on the same day to the person who filed the protest or response. If you have not received

RESIDENTIAL METERED SERVICE

SPECIAL CONDITIONS (continued)

- 2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).
- 3. **Fire sprinkler rates:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.
- 4. **Water Expense Increase:** Beginning on January 1, 2023, rates in this area will reflect a 1.6% revenue increase (as compared to the revenue approved in Advice Letter 2454) due to higher charges imposed by the West Basin Municipal Water District and the Water Replenishment District of Southern California. This caused quantity rates to go up by the following amounts: \$0.0563/CCF for Tier 1 usage, \$0.0704/CCF for Tier 2 usage, and \$0.1057/CCF for Tier 3 usage. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code, and will be trued up at a later time. Monthly service charges also went up, with the charge for a 5/8 x 3/4-inch meter increasing by \$0.40.

SPECIAL CONDITIONS (continued)

2. All bills are subject to the following tariff schedules: **Schedule UF** (CPUC reimbursement fee) and applicable surcharges and surcredits on **Schedule RSF** (Rate Support Fund), **Schedule CAP** (Customer Assistance Program), and **Schedule AS** (Additional Surcharges and Surcredits).

3. **Fire sprinkler rate:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.

4. **Water Expense Increase:** Beginning on January 1, 2023 rates in this area will reflect a 1.1% revenue increase (as compared to the revenue approved in Advice Letter 2437) due to higher charges imposed by the Central Basin Municipal Water District and the Water Replenishment District of Southern California. This caused quantity rates to go up by the following amounts: \$0.0741/CCF for Tier 1 usage, and \$0.0926/ CCF for Tier 2 usage. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code, and will be trued up at a later time. Monthly service charges also went up, with the charge for a 5/8 x 3/4-inch meter increasing by \$0.26.

3. **Fire sprinkler rate:** A single-family residence with a meter size that has a “fire sprinkler” rate (listed above) is eligible for that rate if: (a) the customer is paying for service where a residential fire sprinkler system is required/requested to be installed by local fire or building codes; (b) a smaller meter would be large enough to provide adequate service in the absence of the additional demand needed to supply water to the system; (c) the sprinkler system is served through the meter providing residential water service; and (d) the customer requests the “fire sprinkler” rate. The Company may seek verification that the above criteria are met. This service will be considered a general metered service, and not a fire service, so the rules and conditions for general metered service shall apply.
4. **Water Expense Increase:** Beginning on January 1, 2023, rates in this area will reflect a 3.1% revenue increase (as compared to the revenue approved in Advice Letter 2437) due to higher charges imposed by the West Basin Municipal Water District. This caused quantity rates to go up by the following amounts: \$0.1294/CCF for Tier 1 usage, \$0.1617/CCF for Tier 2 usage, and \$0.2426/CCF for Tier 3 usage. Amounts collected from these quantity rate increases will be tracked in a balancing account, as required by Section 792.5 of the Public Utilities Code, and will be trued up at a later time. Monthly service charges also went up, with the charge for a 5/8 x 3/4-inch meter increasing by \$0.85.

Dominguez NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning in January 2023, the water bills of California Water Service (Cal Water) customers in the Dominguez District will reflect a pass-through of higher wholesale water charges by the West Basin Municipal Water District, and higher groundwater replenishment charges from the Water Replenishment District of Southern California. The California Public Utilities Commission (CPUC) has determined that expenses for wholesale water are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 17, 2022, Cal Water will file Advice Letter 2465 to request authority to increase its annual revenue in the Dominguez District by \$1,266,637, or 1.6%. Pending the CPUC's review of Cal Water's calculations, the increase will be effective on January 1, 2023. With the increase, a typical monthly bill for a Dominguez residential customer with a 5/8" x 3/4" meter who uses 9 CCF of water (which is 900 cubic feet, or approximately 6,732 gallons) per month will increase by \$0.91, or 1.7%.

A copy of Advice Letter 2465 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Rancho Dominguez (Dominguez) District from the drop-down menu), and may also be obtained from the company's local offices by calling (310) 257-1400. You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

Cal Water offers many programs to help you manage your water bill including a customer assistance program (CAP, formerly the low-income ratepayer assistance program or LIRA), water conserving appliance rebates, and other conservation programs. Please visit our website at www.calwater.com to take advantage of these opportunities.

Protests and Responses. Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the Commission in its evaluation. A protest objects to the filing in whole or in part and must set forth the specific grounds on

which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the Commission in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

The response or protest must be made in writing and received by the Commission's Water Division by December 7, 2022, the end of the comment period. The response or protest should be sent to the CPUC (by email to water.division@cpuc.ca.gov, or by mail to the Tariff Unit, Water Division, 3rd Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102) and to Cal Water (by email to cwsrates@calwater.com, or by mail to the Rates Department, California Water Service Company, 1720 N. 1st Street, San Jose, CA 95112).

NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning in January 2023, the water bills of California Water Service (Cal Water) customers in the Antelope Valley area (a sub-region of the Los Angeles County Region) will reflect a pass-through of higher wholesale water charges by the West Basin Municipal Water District. The California Public Utilities Commission (CPUC) has determined that expenses for wholesale water are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 17, 2022, Cal Water will file Advice Letter 2465 to request authority to increase its annual revenue in the Los Angeles County Region by \$1,729,940, or 3.1%. Pending the CPUC's review of Cal Water's calculations, the increase will be effective on January 1, 2023. With the increase, a typical monthly bill for an Antelope Valley residential customer with a 5/8" x 3/4" meter who uses 10 CCF of water (which is 1,000 cubic feet, or approximately 7,480 gallons) per month will increase by \$2.14, or 3.0%.

A copy of Advice Letter 2465 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Antelope Valley (Los Angeles County Region) District from the drop-down menu), and may also be obtained from the company's local offices by calling (661) 943-9001 (Antelope Valley). Los Angeles County Region: Palos Verdes
NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning in January 2023, the water bills of California Water Service (Cal Water) customers in the Palos Verdes area (a sub-region of the Los Angeles County Region) will reflect a pass-through of higher wholesale water charges by the West Basin Municipal Water District. The California Public Utilities Commission (CPUC) has determined that expenses for wholesale water are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 17, 2022, Cal Water will file Advice Letter 2465 to request authority to increase its annual revenue in the Los Angeles County Region by \$1,729,940, or 3.1%. Pending the CPUC's review of Cal Water's calculations, the increase will be effective on January 1, 2023. With the increase, a typical monthly bill for a Palos Verdes residential customer with a 5/8" x 3/4" meter who uses 15 CCF of water (which is 1,500 cubic feet, or approximately 11,220 gallons) per month will increase by \$3.18, or 3.0%.

A copy of Advice Letter 2465 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Rancho Dominguez (Palos Verdes - LAR) District from the drop-down menu), and may also be obtained from the company's local offices by calling (310) 257-1400 (Rancho Dominguez). You may also contact the company's headquarters by mailing the Rates Department at 1720 North First Street, San Jose, California 95112-4598, or by calling (408) 367-8200 and asking for the Rates Department.

Cal Water offers many programs to help you manage your water bill including a customer assistance program (CAP, formerly the low-income ratepayer assistance program or LIRA), water conserving appliance rebates, and other conservation programs. Please visit our website at www.calwater.com to take advantage of these opportunities.

Protests and Responses. Anyone may respond to or protest this filing. A response supports the filing and may contain information that proves useful to the Commission in its evaluation. A protest objects to the filing in whole or in part and must

set forth the specific grounds on which it is based, and shall provide citations or proof where available to allow Commission staff to properly consider the protest. The grounds for protests are:

1. The utility did not properly serve or give notice of the filing.
2. The relief requested in the filing would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies.
3. The analysis, calculations, or data in the filing contains material error or omissions.
4. The relief requested in the filing is pending before the Commission in a formal proceeding, or
5. The relief requested in the filing requires consideration in a formal hearing, or is otherwise inappropriate for the filing process, or
6. The relief requested in the filing is unjust, unreasonable, or discriminatory (provided that such a protest may not be made where it would require relitigating a prior order of the Commission).

A response or protest must be made in writing and received by the Commission's Water Division by December 7, 2022, the end of the comment period. The response or protest should be sent to the CPUC (by email to water.division@cpuc.ca.gov, or by mail to the Tariff Unit, Water Division, 3rd Floor, CPUC, 505 Van Ness Avenue, San Francisco, CA 94102) and to Cal Water (by email to cwsrates@calwater.com, or by mail to the Rates Department, California Water Service Company, 1720 N. 1st Street, San Jose, CA 95112).

Westlake NOTICE OF PROPOSED RATE CHANGE BEFORE THE CALIFORNIA PUBLIC UTILITIES COMMISSION (CPUC)

Beginning in January 2023, the water bills of California Water Service (Cal Water) customers in the Westlake District will reflect a pass-through of higher wholesale water charges by the Calleguas Municipal Water District. The California Public Utilities Commission (CPUC) has determined that expenses for wholesale water are not under the company's control, and that a pass-through of those costs to customers is just and reasonable if properly calculated.

On or around November 17, 2022, Cal Water will file Advice Letter 2465 to request authority to increase its annual revenue in the Westlake District by \$771,695, or 3.4%. Pending the CPUC's review of Cal Water's calculations, the increase will be effective on January 1, 2023. With the increase, a typical monthly bill for a Westlake residential customer with a 5/8" x 3/4" meter who uses 14 CCF of water (which is 1,400 cubic feet, or approximately 10,472 gallons) per month will increase by \$3.00, or 3.4%.

A copy of Advice Letter 2465 will be available on the internet at <https://www.calwater.com/rates-advice-letters/> (please select the Westlake District from the drop-down menu), and may also be obtained from the company's local offices by calling (805) 497-2757. DECLARATION OF GREG A. MILLEMAN
REGARDING PROPER AND TIMELY SERVICE OF ADVICE LETTER

I, Greg A. Milleman, declare and state:

1. I am the Vice President, Rates and Regulatory Affairs, of California Water Service Company (U 60 W) ("Cal Water").
2. Cal Water is filing Advice Letter 2465 on November 17, 2022, requesting a revenue increase in the Dominguez, East Los Angeles, Hermosa Redondo, Los Angeles County Region, and Westlake ratemaking areas to reflect increases in purchased water and pump tax costs.
3. Customer notices of the filing of this advice letter are being provided through the publication of a legal notice in a newspaper of general circulation. This advice letter includes a copy of the publication orders that identifies the name of the publication, the date of publication, and a copy of the notice itself.
4. This newspaper publication meets the requirements of the California Public Utilities Commission's ("Commission's) General Order 96-B ("GO 96-B"), Water Industry Rule 3.1.
5. With the first customer bill reflecting the requested revenue increase, Cal Water will inform customers of the rate increase, and its impact on a typical residential customer's bill in both dollar and percentage terms.
6. This customer bill notice meets the requirements of the Commission's GO 96-B, Water Industry Rule 3.2.

I declare under penalty of perjury under the laws of the State of California that the foregoing is true and correct.

Executed on November 15, 2022, in San Jose, California.
