A credit from Schedule 14.1 premium allocation charges is included within the Los Osos and Santa Maria balances.

This request is pursuant to Decision (“D.”) 12-04-048 authorizing GSWC to amortize its WRAM&MCBA account balances annually. D.12-04-048 Ordering Paragraph 5:

5. *Applicants must submit their annual requests for amortization of net Water Revenue Adjustment Mechanism/Modified Cost Balancing Account balances by a Tier 1 Advice Letter on or before March 31<sup>st</sup>.*

## **Background**

### Region 3

For Region 3, the Commission issued D.08-08-030 on August 25, 2008 authorizing the settlement agreements between GSWC and DRA on WRAM and Conservation Rate Design issues for Region 3 pursuant to Ordering Paragraph 1 from D.08-08-030:

1. *The following settlement agreements are approved and adopted:*
  - *Golden State Water Company (GSWC)/Division of Ratepayer Advocates (DRA) on conservation rate design trial program and amendment to settlement except the interim rate design for Region I.*

The purpose and method of tracking WRAM and MCBA is outlined in the D.08-08-030 Settlement Agreement Section V. MECHANISMS FOR DECOUPLING SALES AND REVENUE:

- A. *The goals of the decoupling mechanisms in the Pilot Program are as follows:*
  - a. *Sever the relationship between sales and revenue to remove any disincentive for GSWC to implement conservation rates and conservation programs.*
  - b. *Ensure cost savings resulting from conservation are passed on to ratepayers.*
  - c. *Reduce overall water consumption by GSWC ratepayers.*
- B. *Decoupling for GSWC will be accomplished through both of the following mechanisms:*
  1. *A Water Revenue Adjustment Mechanism (WRAM) for each ratemaking area.*
  2. *A Modified Cost Balancing Account (MCBA) for each ratemaking area. MCBAs will replace existing cost balancing accounts for purchased power, purchased water, and pump tax.*
  3. *In accordance with established Commission practice, the WRAM and MCBA accounts will accrue interest at the 90-day commercial paper rate.*

The Settlement Agreement Section VI. WATER REVENUE ADJUSTMENT MECHANISM (WRAM) states:

- B. *The WRAM will track the differences between Adopted Revenue and Actual Revenue, excluding:*
  1. *Fire service revenue;*
  2. *Unmetered Service revenue;*
  3. *Other non-general metered service revenue*

Therefore, non-general<sup>3</sup> metered water services are excluded from the allocation of the refund of the combined Region 3 WRAM over collection of \$6,456,254.

Per the Settlement Agreement Section VII. MODIFIED COST BALANCING ACCOUNT (MCBA), the activation of MCBA will replace current supply cost balancing accounts. Section VII.C states:

---

<sup>3</sup> GSWC R3 non-general metered tariff schedules include: R3-CM-7ML, R3-CMH-3M, R3-SD-3, R3-OC-3M, Calipatria Prison, Malone Well, Pomona College, R3-DEM-2H, R3-3 and R3-RCW

C. *An MCBA will replace each of the current balancing accounts, now referred to as Supply Cost Balancing Accounts:*

1. *GSWC currently has a Supply Cost Balancing Account for purchased water, purchased power, and pump taxes.*
2. *The Supply Cost Balancing Account tracks cost changes attributable to changes in unit price, but not changes in the amount of consumption.*
3. *MCBAs track changes in price and quantity.*

The net MCBA under collection of \$3,321,284 is to be recovered from all Region 3 metered customers with the exception of Malone well, Pomona College, Forest Lawn (R3-3), Claremont Limited Irrigation (R3-CMP-3M) and flat rate customers in Morongo (R3-DEM-2H). These customers will not receive any surcharge or sur-credit.

#### Region 1

For Region 1, the Commission issued D.09-05-005 on May 8, 2009, authorizing the settlement agreements between GSWC and DRA on WRAM and Conservation Rate Design issues pursuant to Ordering Paragraph 1 from D.09-05-005:

1. *The Settlement Agreement, as modified by updated conservation rates set forth in Table 1 and Table 2 herein, is approved and adopted.*

The purpose and method of tracking WRAM and MCBA is outlined in the D.09-05-005 Settlement Agreement Section V. MECHANISMS FOR DECOUPLING SALES AND REVENUE:

- A. *The goals of the decoupling mechanisms in the Pilot Program are as follows:*
  - a. *Sever the relationship between sales and revenue to remove any disincentive for GSWC to implement conservation rates and conservation programs.*
  - b. *Ensure cost savings resulting from conservation are passed on to ratepayers.*
  - c. *Reduce overall water consumption by GSWC ratepayers.*
- B. *Decoupling of GSWC will be accomplished through both the following mechanisms:*
  - a. *A WRAM for each ratemaking area in Region 1 except Clearlake.*
  - b. *An MCBA for each ratemaking area in Region 1 except Clearlake. MCBAs will replace existing cost balancing accounts for purchased power, purchased water, and pump tax.*

- C. Together, these decoupling mechanisms will ensure recovery of the adopted fixed costs recovered through the quantity charge and the actual variable costs for purchased water, purchased power, and pump taxes. The fixed costs not included in these accounts will be recovered through the service charge, which is a monthly charge that customers pay regardless of consumption.*
- D. In accordance with established Commission practice, the WRAM and MCBA accounts will accrue interest at the 90-day commercial paper rate.*

The net WRAM balance is allocated to all customers on the general metered<sup>4</sup> rate schedule. The Settlement Agreement Section VI. WATER REVENUE ADJUSTMENT MECHANISM (WRAM) states:

- A. For each ratemaking area in Region 1, except Clearlake, the WRAM will track the differences between the total quantity charge revenues authorized by the Commission (“Total Adopted Quantity Revenues”) and the total revenues actually recovered through the quantity charge based on actual sales (“Total Actual Quantity Revenues”), excluding:*
- 1. Fire service revenue;*
  - 2. Unmetered Service revenue;*
  - 3. Other non-general metered service revenue.*

Non-general metered<sup>5</sup> water services are excluded from the allocation of the net WRAM balance; however, we are including WRAM allocation to tariff LO-RCW. Tariff LO-RCW was added to the system on September 6, 2018 pursuant to Advice Letter 1752-W. Although tariff LO-RCW is a non-general metered tariff, there is currently one customer on the LO-RCW tariff that was transferred from general metered tariff LO-1-NR in 2021 and therefore, should benefit from the WRAM&MCBA sur-credit.

Per the Settlement Agreement Section VII. MODIFIED COST BALANCING ACCOUNT (MCBA), the activation of MCBA will replace current supply cost balancing accounts. The Settlement Agreement Section VII.C states:

- C. An MCBA will replace each of the current balancing accounts, now referred to as Supply Cost Balancing Accounts.*
- 1. GSWC currently has a Supply Cost Balancing Account for purchased water, purchased power, and pump taxes.*
  - 2. The Supply Cost Balancing Account tracks cost changes attributable to changes in unit price, but not changes in the amount of consumption.*
  - 3. MCBA's track changes in price and quantity.*

Amortization Periods

On April 30, 2012, the Commission issued D.12-04-048, which amongst other things, changed the amortization period of the Water Revenue Adjustment Mechanism. D.12-04-48 Ordering Paragraph 3:

3. *We adopt the amortization schedule set forth in Appendix A with a cap on total net Water Revenue Adjustment Mechanism/Modified Cost Balancing Account (WRAM/MCBA) surcharges of 10% of the last authorized revenue requirement. The cap shall be effective the first test year of each applicant’s pending or next General Rate Case, as follows:*

*-Golden State and Park: Advice Letter filing on March 2014*

*-Cal Water: Advice Letter filings on March 2015*

*-Apple Valley: Advice Letter filing on March 2016*

*WRAM/MCBA account balances incurred prior to the first test year referenced above continue to be amortized under the adopted amortization schedule without being subject to surcharge cap.*

D.12-04-048 Appendix A:

| WRAM/MCBA under-collections as a % of the district’s last authorized revenue requirement | Amortization Period                    |   |  |

Decision 12-04-048 also permits:

*“...applicants to include any under-amortized or over-amortized amounts from ongoing surcharges or surcredits in their annual Tier 1 Advice Letter submissions. Those ongoing surcharges or surcredits may run until the end of their originally intended amortization terms, provided that the ceiling on annual Advice Letter amortization, discussed earlier, is not exceeded.”<sup>6</sup>*

In regards to under or over collections, D.12-04-048 Conclusion of Law 7 states:

*“It is reasonable to require that net WRAM&MCBA over-collections be amortized through a surcredit on a customer’s service charges and that all under-collections be amortized through a surcharge on the volumetric rate.”<sup>7</sup>*

The net WRAM&MCBA balance is an over collection of \$622,869 or -4.1% in Arden Cordova, \$169,277 or -2.7% in Bay Point, \$96,923 or -2.4% in Los Osos, \$790,743 or -5.2% in Santa Maria, \$1,240,091 or -8.1% in Simi Valley, and \$3,134,970 or -2.3% in Region 3 of the current adopted annual revenue. Pursuant to Decision D.12-04-084, the balance should be refunded through a surcredit on a customer’s service charge.

In Santa Maria, the net WRAM&MCBA balance is an over collection of \$790,743 or -5.2%. However, the over collection of \$790,743 is a net balance of an over collection of \$1,048,311 in WRAM (and Schedule 14.1) and under collection of \$257,568 in MCBA. As stated above, WRAM does not apply to non-general meters. The general metered customers will receive a one-time surcredit to the service charge to amortize the net over collection in WRAM&MCBA and the non-general<sup>8</sup> metered customers will receive a 12-month surcharge in the volumetric rate to amortize the under collection in MCBA.

In Region 3, the net WRAM&MCBA balance is an over collection of \$3,134,970 or -2.3%. However, the over collection of \$3,134,970 is a net balance of an over collection of \$6,456,254 in WRAM and under collection of \$3,321,284 in MCBA. As stated above, WRAM does not apply to non-general meters. The general metered customers will receive a 6-month surcredit to the service charge to amortize the net over collection in WRAM&MCBA and the non-general<sup>9</sup> metered customer will receive a 12-month surcharge in the volumetric rate to amortize the under collection in MCBA.

A **response** supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A **protest** objects to the AL in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

Water Division must receive a response or protest via email (**or** postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**
