Request

By AL 47-W, ABWC requests permission to increase its revenues (based on increase to the present monthly quantity rate and service charge) by 7.0%, the Consumer Price Index (CPI) for 2021. The projected increase by this advice letter will result in additional revenues of \$32,273 or .07% will not result in a rate of return at 4.72% which exceeds the rate of return of over existing revenues.

The average customer with a ¾" service connection will see a proposed estimated increase in the charge from \$702.82 to \$786.46.

Background

The last GRC was approved by Resolution No. W-4850, November 9, 2010 that authorized a \$126,460 or 36.03% increase. The increase was based upon a 23% rate of margin, not including income taxes and city franchise tax.

The present rates became effective pursuant to Advise letter No. 41-W that requested a Rate Base Offset, which became effective August 29, 2019. Resolution W-5201 authorized producing additional revenues of \$33,805, or 8.45% increase. A rate of return of 10.43%.

AL47-W is filed pursuant to Ordering Paragraphs No.1 of **Decision 92-03-093** and **Resolution W-4493**, which authorized Class C and D water and sewer utilities to file a CPE increase once a year by AL. The increase is to be passed on to the utility's customers in their quantity and service charges.
