Subject: 2023 Escalation Year - Region 1

PURPOSE

This advice letter submittal seeks to implement Escalation Year 2023 water rates, as authorized by the California Public Utilities Commission (Commission), for the Bay Point, Clearlake, Los Osos, Simi Valley and Santa Maria CSAs. GSWC's request is being made pursuant to Decision No. 23-06-024, dated June 29, 2023, for GSWC's General Rate Case Application (Application No. 20-07-012). Specifically, Ordering Paragraph No. 1 of Decision No. 23-06-024 states,

> *1. The Joint Motion of Golden State Water Company and the Public Advocates Office for the Adoption of a Settlement Agreement, filed November 23, 2021, is granted; and the Settlement Agreement attached to this decision as Appendix A is approved and adopted.*

Ordering Paragraph No. 6 states,

> *6. For escalation years 2023 and 2024, Golden State Water Company (GSW) must file Tier 1 advice letters in conformance with General Order 96-B proposing new revenue requirements and corresponding revised tariff schedules for each ratemaking area in this proceeding. The advice letters must follow the escalation procedures set forth in the Revised Rate Case Plan for Class A Water Utilities adopted in Decision 07-05-062 and must include supporting workpapers. GSW must file for rate reduction if the escalation procedures result in a rate reduction due to negative rate base growth, inflation factors, or customer growth. The revised tariffs shall be effective as of January 1, 2023, and January 1, 2024, respectively and apply to services rendered on and after their effective dates. The proposed revised revenue requirements and rates must be reviewed by the Commission's Water Division. The Water Division must*

inform the Commission if it finds that the revised rates do not conform to the Revised Rate Case Plan, this decision, or other Commission decisions, and if so, reject the filing.

COMPLIANCE

GSWC is filing this advice letter to implement rates for Escalation Year 2023. GSWC is authorized to increase rates in its Bay Point CSA by $220,042 or 3.18%, Clearlake CSA by $126,429 or 4.69%, Los Osos CSA by $206,118 or 4.46%, Santa Maria CSA by $601,296 or 3.67% and Simi Valley CSA by $171,587 or 1.07%. Accordingly, GSWC has computed the 2023 Escalation Year using the escalation methodology set forth in the Revised Rate Case Plan, the escalation factors as of May 2023 as published by the Public Advocates Office Energy Cost of Service Branch, and the May 2023 CPI-U.

RATE OF RETURN

The table below lists the Recorded, Authorized, Adjusted Authorized, and Pro-forma rates of return in GSWC's Region 1 CSAs for twelve months ending September 2022. The pro forma rate of return is calculated in accordance with the escalation procedures set forth in the Revised Rate Case Plan for Class A Water Utilities adopted in Decision 07-05-062.

	Rate of Return			
CSA	**Recorded**	**Authorized**	**Adjusted Authorized**	**Pro-Forma**
Bay Point	6.79%	7.91%	8.17%	7.94%
Clearlake	5.18%	7.91%	8.04%	8.07%
Los Osos	5.70%	7.91%	8.39%	8.32%
Santa Maria	7.63%	7.91%	8.25%	7.76%
Simi Valley	8.52%	7.91%	8.48%	9.82%

As shown above, the Pro-forma rate of return is higher than the Authorized rate of return. As
such, GSWC adjusted its proposed 2023 water rate increase, accordingly.

Detailed workpapers supporting the proposed rate calculations are being supplied to the Commission Staff.

TEMPORARY SURCHARGES AND SURCREDITS

In compliance with D.23-06-024, GSWC will be implementing the temporary surcharges and surcredits, as shown in Appendix I in the Settlement Agreement, on the effective of the 2023 Escalation rates.

For the Santa Maria CSA only: GSWC is authorized to implement a one-time surcredit to disburse the remaining proceeds from the 123-TCP Contamination.

TIER DESIGNATION

This advice letter is submitted with a Tier 1 designation.

EFFECTIVE DATE

As directed, the effective date of these revised tariffs shall be July 31, 2023.

CUSTOMER NOTICE

This is a Tier 1 advice letter that does not require customer notification, as provided in Water Industry Rule 7.3.1 of General Order 96-B. GSWC will include a bill message on the customer's bill after the increase goes into effect to inform customers of this rate increase.

RESPONSE OR PROTEST

Anyone may submit a response or protest for this Advice Letter (AL). When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

A **response** supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A **protest** objects to the AL in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

1. The utility did not properly serve or give notice of the AL;
2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or
5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

WD must receive a response or protest via email (**or** postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

The addresses for submitting a response or protest are:

Email Address:	**Mailing Address:**
Water.Division@cpuc.ca.gov	CA Public Utilities Commission Water Division 505 Van Ness Avenue San Francisco, CA 94102

On the same day the response or protest is submitted to WD, the respondent or protestant shall send a copy of the protest to Golden State Water Company at:

Email Address:	**Mailing Address:**
regulatoryaffairs@gswater.com	Golden State Water Company Ronald Moore 630 East Foothill Blvd. San Dimas, CA 91773

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform WD, within the 20 day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

REPLIES

The utility shall reply to each protest and may reply to any response. Any reply must be received by WD within five business days after the end of the protest period, and shall be served on the same day on each person who filed the protest or response to the AL.

The actions requested in this advice letter are not now the subject of any formal filings with the California Public Utilities Commission, including a formal complaint, nor action in any court of law.

No individuals or utilities have requested notification of filing of tariffs. Distribution of this advice letter is being made to the attached service list in accordance with General Order No. 96-B.

Sincerely,

/s/ Ronald Moore

5. Applicants requesting a new service connection, a new water meter or an increase in the size of their existing service connection and/or existing water meter resulting in increased demand within the Santa Maria Customer Service Area, as defined on the Service Area Maps, must provide a source of supplemental water to offset the increased water demand, pursuant to the Court adopted Stipulation in Santa Maria Valley Water Conservation District v. City of Santa Maria, et al. (and related actions), Lead Case No. CV 770214, Superior Court of the State of California, County of Santa Clara, in January 2008, and Commission Decision No. 13-05-011. Where and when available, applicants may remit payment to a third party public agency a water resource demand offset fee in lieu of providing a source of supplemental water, provided such fee fully offsets the cost, and results in the dedication to GSWC, of a source of supplemental water sufficient to meet the water demands of the service requested.

   The condition will not apply if one (1) the applicant is not an existing Golden State Water Company customer and provides Golden Stater Water Company with a final Can and Will Serve Letter and/or recorded land use entitlement demonstrating a prior obligation to serve the parcel with water service, or two (2) the applicant is an existing customer (with an existing connection, water meter, and service agreement) and all of the following criteria are satisfied:

   a. The new dwelling is authorized under applicable state and/or local Accessory Dwelling Unit ("ADU") regulations, as they may be amended from time to time.

   b. The new dwelling (and/or request land use entitlement) only requires a ministerial land use permit or other form of land use entitlement.

   c. The applicant currently has one (1) service line/connection of 1-inch or less.

   d. Water service to both the existing dwelling structure and the proposed ADU can be provided with one (1), 1-inch service line/connection or less.
