PURPOSE

This advice letter submittal seeks to implement Escalation Year 2024 water rates, as authorized by the California Public Utilities Commission ("Commission"), for the Region 3 CSAs. GSWC's request is pursuant to Decision No. 23-06-024, dated June 29, 2023 for GSWC's General Rate Case Application (Application No. 20-07-012). Specifically, Ordering Paragraph No. 6 of Decision No. 23-06-024 states,

> *6. For escalation years 2023 and 2024, Golden State Water Company (GSW) must file Tier 1 advice letters in conformance with General Order 96-B proposing new revenue requirements and corresponding revised tariff schedules for each ratemaking area in this proceeding. The advice letters must follow the escalation procedures set forth in the Revised Rate Case Plan for Class A Water Utilities adopted in Decision 07-05-062 and must include supporting workpapers. GSW must file for rate reduction if the escalation procedures result in a rate reduction due to negative rate base growth, inflation factors, or customer growth. The revised tariffs shall be effective as of January 1, 2023, and January 1, 2024, respectively and apply to services rendered on and after their effective dates. The proposed revised revenue requirements and rates must be reviewed by the Commission's Water Division. The Water Division must inform the Commission if it finds that the revised rates do not conform to the Revised Rate Case Plan, this decision, or other Commission decisions, and if so, reject the filing.*

COMPLIANCE

GSWC is filing this advice letter to implement rates for Escalation Year 2024. GSWC is authorized to increase rates in its Region 3 CSAs by $8,011,951 or 5.9%. Accordingly, GSWC has computed the 2024 Escalation Year increase using the escalation methodology set forth in the Revised Rate Case Plan, the escalation factors as of October 2023, as published by the Public Advocates Office Water Branch, and the September 2023 CPI-U.

As authorized, the rates implemented in this advice letter include the authorized Cost of Capital rate adjustment for 2024, pursuant to D.23-06-025 and approved in GSWC Advice Letter No. 1910-W.

RATE OF RETURN

The following summary lists the Recorded, Authorized, Adjusted Authorized, and Pro-forma rates of return in GSWC's Region 3 CSAs for twelve months ending September 2023. The pro forma rate of return is calculated in accordance with guidelines provided by the Water Division.

Recorded	9.85%
Pro forma	7.81%
Authorized	7.45%
Adjusted Authorized	7.65%

As shown above, the Pro-forma rate of return is higher than the Authorized rate of return. As such, GSWC adjusted its proposed 2024 water rate increase, accordingly.

Detailed workpapers supporting the proposed rate calculations are being supplied to the Commission Staff.

TIER DESIGNATION

This advice letter is submitted with a Tier 1 designation.

EFFECTIVE DATE

As directed, the effective date of these tariffs shall be January 1, 2024.

NOTICE

Customer Notice: This is a Tier 1 advice letter that does not require customer notification, as provided in Water Industry Rule 7.3.1 of General Order 96-B. GSWC will include a bill message on each customer's first bill after the increase goes into effect to inform its Region 3 customers of this rate increase.

RESPONSE OR PROTEST

Anyone may submit a response or protest for this Advice Letter (AL). When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

A **response** supports the filing and may contain information that proves useful to the Commission in evaluating the advice letter. A **protest** objects to the AL in whole or in part and must set forth the specific grounds on which it is based. These grounds are:

1. The utility did not properly serve or give notice of the AL;
2. The relief requested in the AL would violate statute or Commission order, or is not authorized by statute or Commission order on which the utility relies;
3. The analysis, calculations, or data in the AL contain material error or omissions;
4. The relief requested in the AL is pending before the Commission in a formal proceeding; or

5. The relief requested in the AL requires consideration in a formal hearing, or is otherwise inappropriate for the AL process; or
6. The relief requested in the AL is unjust, unreasonable, or discriminatory, provided that such a protest may not be made where it would require re-litigating a prior order of the Commission.

A protest may not rely on policy objections to an AL where the relief requested in the AL follows rules or directions established by statute or Commission order applicable to the utility. A protest shall provide citations or proofs where available to allow staff to properly consider the protest.

The Water Division must receive a response or protest via email (**or** postal mail) within 20 days of the date the AL is filed. When submitting a response or protest, **please include the utility name and advice letter number in the subject line.**

The addresses for submitting a response or protest are:

Email Address:	**Mailing Address:**
Water.Division@cpuc.ca.gov	CA Public Utilities Commission Division of Water and Audits 505 Van Ness Avenue San Francisco, CA 94102

On the same day the response or protest is submitted to the Water Division, the respondent or protestant shall send a copy of the protest to Golden State Water Company at:

Email Address:	**Mailing Address:**
regulatoryaffairs@gswater.com	Golden State Water Company Ronald Moore 630 East Foothill Blvd. San Dimas, CA 91773

Cities and counties that need Board of Supervisors or Board of Commissioners approval to protest should inform the Water Division, within the 20-day protest period, so that a late filed protest can be entertained. The informing document should include an estimate of the date the proposed protest might be voted on.

REPLIES

The utility shall reply to each protest and may reply to any response. Any reply must be received by the Water Division within five business days after the end of the protest period, and shall be served on the same day on each person who filed the protest or response to the AL.

The actions requested in this advice letter are not now the subject of any formal filings with the California Public Utilities Commission, including a formal complaint, nor action in any court of law.

No individuals or utilities have requested notification of filing of tariffs. Distribution of this advice letter is being made to the attached service list in accordance with General Order No. 96-B.

Sincerely,

/s/ Ronald Moore

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.

2. Pursuant to Decision 23-06-024 a surcharge of $0.080 per Ccf will be applied to all metered customer bills excluding customers that are receiving the CAP credit. This surcharge will offset the CAP credits and CAP administrative program costs recorded in the CAP Balancing Account.

3. As authorized by Rule 9.1.e. for customers with more than one meter on a single service line, the customer's service Charge rate is based on a factor multiplied by the service charge applicable to the nearest standard meter size of the Combined meters as determined by the equivalent diameter methodology.

4. Non-residential Sprinkler rates can be added as needed utilizing the multiplication factors identified in Appendix F of D. 17-03-001, applied to the 5/8" meter charge.

5. As authorized by the California Public Utilities Commission in D.23-06-024, an amount of $0.015 per Ccf is to be added to the quantity rate for a period of 12-months, beginning on the effective date of Advice Letter No. 1903-W. The surcharge will amortize the cumulative balance recorded in the Tangible Property Regulation Collateral Consequences Memorandum Account as of September 30, 2020.

6. As authorized by the California Public Utilities Commission in D.23-06-024, an amount of $0.055 per Ccf is to be added to the quantity rate for a period of 12-months, beginning on the effective date of Advice Letter No. 1903-W. The surcharge will amortize the cumulative balance recorded in the Basin Pumping Rights Litigation Memorandum Account as of September 30, 2020.

7. As authorized by the California Public Utilities Commission in D.23-06-024, an amount of $0.0007 per Ccf is to be added to the quantity rate for a period of six months, beginning on the effective date of Advice Letter No. 1903-W. The surcharge will amortize the cumulative balance recorded in the School Lead Testing Memorandum Account as of September 30, 2020.

8. As authorized by the California Public Utilities Commission in D.23-06-024, an amount of $0.00145 per Ccf is to be added to the quantity rate for a period of six months, beginning on the effective date of Advice Letter No. 1903-W. The service charge is a readiness-to-serve charge which is applicable to all metered service and to which is added the charge for water used computed at the Quantity Rates.

SPECIAL CONDITIONS

1. All bills are subject to the reimbursement fee set forth on Schedule No. UF.

2. The charges included in the above rates will be such that no cost or subsidy will be borne by the existing or future other customers in the Region 3 service area.

3. Subject to the Recycled and Potable Water Service Agreement dated May 3, 2006 and signed May 15, 2006 between the utility and Forest Lawn and attached to Advice Letter No. 1217-W.

4. Water Service Fee: Following the Effective Date of Advice Letter 1217-W, Forest Lawn shall pay a monthly fee to GSWC as payment towards the Fixed Costs ("Water Service Fee"), which shall be determined as follows:

   Water Service Fee. The Agreement attached to Advice Letter No. 1217-W contains as Exhibit A, a schedule of Fixed Costs supporting the rates specified in GSWC's Tariff Schedule R3-1 as of January 1, 2006. If the Effective Date occurs while Fixed Costs remain the same, Forest Lawn will pay an initial monthly Water Service Fee of two thousand, four, hundred forty-six dollars ($2,446) for GSWC's maintaining a potable water connection for use by the Cemetery for irrigation purposes, which the Parties agree is an accurate determination of Forest Lawn's proportional share of said Fixed Costs.

   Periodic Adjustments. The amount of the Water Service Fee shall be adjusted, as necessary, concurrently with the effective date of each future change in GSWC's CPUC-approved tariff Schedule No. R3-1 or successor tariff to reflect the Cemetery's then proportional share of Fixed Costs. The methodology for said adjustments shall be the same as that set forth in Exhibit A to the Agreement attached to Advice Letter No. 1217-W.

Memorial Park - Covina Hills

SPECIAL CONDITIONS

5. Quantity Fee for Recycled Water. GSWC shall not assess a quantity fee for the quantity of recycled water used by the Cemetery for irrigation purposes.

6. Potable Water Quantity Fee. Should the Cemetery use potable water supplied by GSWC for irrigation purposes following commencement of the use of recycled water for such purposes, GSWC shall charge Forest Lawn and Forest Lawn shall pay to GSWC a fee per hundred cubic feet of potable water served to the Cemetery ("Potable Water Quantity Fee"), which shall reimburse GSWC for the variable costs of supplying potable water supplies to the Cemetery for irrigation purposes. The Potable Water Quantity Fee shall initially be equal to forty-nine percent (49%) ("Variable Cost Percentage") of GSWC's generally applicable water quantity fee pursuant to GSWC's tariff schedule R3-1 or successor tariff. The initial Variable Cost Percentage is set forth in Advice Letter No. 1217-W.

7. The Variable Cost Percentage shall be adjusted, as necessary, concurrently with the effective date of each future change in GSWC's CPUC-approved tariff schedule R3-1 or successor tariff. The methodology for said Variable Cost Percentage adjustment shall be the same as that set forth in Exhibit B to the Agreement attached to Advice Letter No. 1217-W.

8. Meter Service Cost. Forest Lawn shall reimburse GSWC for any and all actual costs incurred by GSWC in replacing the meters associated with providing potable water to the Cemetery for irrigation purposes, when such replacement is, in GSWC's sole determination, necessary.

9. Potable Water Supplies during Drought Period Conditions; Rationing. The Parties acknowledge that the substitution of recycled water for a significant portion of the Cemetery's irrigation needs will result in a lower historical baseline of potable water service to the Cemetery in the future. GSWC agrees that should it employ a rationing program during drought periods, which sets water supply allocations based upon historical baseline water use, Forest Lawn will be assigned an effective annual baseline use equal to its actual annual use of recycled and table water during any baseline period.
