Division of Water and Audits

**Subject: Spreckels Water Company (WTD 215-W), a Class D Water Company,
Submission of General Rate Case Application for Test Year 2025**

PURPOSE

Spreckels Water Company (SWC) hereby submits this **Tier 3** Advice Letter (AL) for approval of its General Rate Case (GRC) application for Test Year 2025. As required, SWC has attached the following tariff sheets (Attachment 1), its Rate Change Workpapers for Class D Water Utilities (Workpapers – Attachment 2) and all relevant information to respond to the Standard Data Request (Attachments 3-4).

<u>New Sheet No.</u>	<u>Title of Sheet</u>	<u>Cancelling Sheet No.</u>
337-W	Table of Contents	334-W
335-W	Schedule No. 1 General Metered Service	327-W
336-W	Schedule No. 4 Private Fire Protection Service	328-W

REQUEST

For the test year 2025, SWC requests approval of a Ratebase of \$2,682,307, an authorized Rate of Return of 11.0% and a Revenue Requirement of \$973,202.

While this represents a revenue requirement increase of approximately 27.1% over SWC's current authorized revenue requirement, SWC's current authorized revenue requirement has remained largely unchanged since the California Public Utilities Commission's (Commission) review and approval of SWC's prior GRC application in 2019.¹

¹ AL 24, approved in Commission Resolution (Res.) W-5194.

BACKGROUND

SWC is owned by Tanimura & Antle Supply Company (TASCO), a subsidiary of Tanimura & Antle, Inc., a California Corporation providing agricultural services and products in the Salinas area. The Commission authorized TASCO's acquisition of SWC on September 6, 2007, pursuant to Decision (D.) 07-09-005.² SWC's customers' existing water rates were not modified or increased as a result of TASCO's acquisition.

In 2011, SWC filed its first GRC application in almost 19 years.³ Up until that time, many of SWC's water customers had been receiving unlimited amounts of unmetered water. After completing its review of SWC's 2011 GRC application, the Commission authorized a revenue increase of \$126,196, implemented over a two-year period, beginning in 2012.⁴ The Commission also ordered SWC to discontinue flat rate service and to bill all of its customers on a metered basis "consistent with the Commission and State of California's policies to advance metering of unmetered connections and to charge for the actual volume of metered water delivered."⁵

Except for two small Commission approved CPI-based rate increases, SWC's rates remained relatively unchanged for the next 7 years until SWC filed its next GRC in 2018, seeking to recover SWC's increased costs of operation and the approximately \$3.5 Million in necessary capital expenditures that SWC had made in the interim. After the Commission's review of SWC's 2018 GRC, the Commission, in Resolution W-5194, approved all of SWC's capital expenditures and authorized a revenue increase of \$195,611, implemented over a two year period, beginning in 2019.⁶

Since filing the 2018 GRC application, SWC has not sought to increase its customers' water rates, other than one small Commission authorized CPI-based increase in 2021.⁷ However, SWC's operating costs have continued to increase, in particular, for maintenance costs and electric charges for water pumping. As a result, SWC is requesting Commission approval of a revenue requirement sufficient to recover those increased costs.

Using data from SWC's recent 2023 Annual Report and Commission provided forms and formulas, SWC requests that the Commission approve a new revenue requirement of \$973,202 and authorize SWC to recover the new revenue requirement in rates, beginning on January 1, 2025.⁸

⁸ *Note: following the directions contained in the Commission's Standard Practice for Processing Informal General Rate Cases of Small Water and Sewer Utilities, No. U-09-SM, Appendix A, p.A-4, SWC's revenue requirement request does not include the calculation of depreciation accrual, which will*

In SWC's prior GRC applications, SWC waived its right to seek recovery of its insurance costs, employee labor costs, office and management salaries and employee pensions and benefits in order to help ameliorate the rate changes resulting from the Commission's approval of SWC's revenue requirement request. For the same reason, SWC again waives its right to seek recovery of those costs in this GRC application.

For all these reasons, SWC's request for a Revenue Requirement of \$973,202 is reasonable and necessary to: (1) permit SWC to recover the reasonable and prudent plant investments it has made since its last GRC application for test year 2018; (2) provide SWC a reasonable opportunity to earn its authorized Rate of Return; (3) implement accurate cost-based rates; and (4) send SWC's customers appropriate and necessary water conservation signals.

STANDARD DATA REQUEST RESPONSES⁹

2. Copies of purchased water bills for the last twelve months: Not applicable. Spreckels does not purchase water from another entity.
3. Employee salary records (or wage rates and hours worked) and job descriptions for all employees: Not applicable. Spreckels is not seeking recovery of employee costs.

be determined by the Commission's staff as part of its review of this GRC application. In general, the inclusion of depreciation reserve will reduce the amount of SWC's requested revenue requirement and the resulting rate change.

8. Any changes to rate structures you wish to propose in this case: None.
