Park recognizes water use efficiency as an integral component of its current and future water strategy for the service area. Park has aggressively pursued conservation in an effort to reduce demand and stretch existing water supplies. Following is a description of the conservation programs offered by Park.

Park has a full-time Conservation Coordinator to develop and implement conservation programs that fulfill Park's requirements as a signatory to the California Urban Water Conservation Council (Council) Memorandum of Understanding. The Conservation Coordinator and supporting staff are responsible for Park's water conservation activities. The cost of employees' time spent on conservation activities is funded through rates charged to all customers.

Park Water Company is a signatory member of the Council's Memorandum of Understanding. Park has been a member of the Council since 2006. The cost of membership was \$3,406 in 2014.

Park's Public Information Programs include conservation information distributed through bill inserts, newsletters, brochures, website, community speakers and special events. Pamphlets on water conservation are available in the lobby of the office where customers pay their bill. In addition, customers can view conservation tips from our website and from a slide show in the office lobby. Information is also provided through Central Basin Municipal Water District (CBMWD), the Metropolitan Water District of Southern California (MWD), and the American Water Works Association (AWWA). Consumption information for the same month from the previous year is provided on the customer's bill. We also provide free water audits for customers who wish to learn how to save water both outside and inside the home. Funding is made available through rates charged to all customers.

Free water conservation devices such as kitchen/bathroom aerators, shower timers, toilet flappers, garden hose nozzles, soil moisture sensors and leak detection tablets are offered to customers in our office and during community events, local fairs and Water Awareness Month. Approximately 2,200 devices were distributed in 2014.

In 2014, Park hosted an inaugural "Conservation Celebration" event in Downey, which included the unveiling of a conservation garden and featured tours of a beautiful, low-maintenance, water-wise garden. The garden includes a variety of CA Friendly shrubs, succulents, perennials, ground cover and trees that can be installed in a residential environment. Park has a high volume of customers that come to our office to pay their water bills, and the garden gives us the opportunity to reach out to those customers that may not otherwise attend our community events. Park offers on-site tours and workshops to encourage our customers to remove water wasting turf and install drought tolerant plants. We have designed an informational panel and individual plants signs to educate our customers of the plants that were installed in the garden. Park has published a Sustainable Garden brochure offering valuable information on drought tolerant plants to encourage water efficient gardening. The cost for the event and brochures was \$26,641.

Schedule E- 3 Description of Water Conservation Programs

School Education Programs promote water conservation and other resource efficiencies to students at school facilities. CBMWD provides conservation education programs such as "Think Earth It's Magic" for grades K-5 and "Water Squad Investigations" for grades 4-12. These programs are offered to all schools in Park Water's service area.

Park offers rebates to our residential customers through the SoCal WaterSmart Rebate Program. This program offered through CBMWD, in partnership with Park and MWD, provides incentives to residential customers who purchase and install WaterSense approved devices. The regional program has been offered to our customers since 2009. Park paid a total of \$18,422 in supplemental funding for 86 devices and 7,510 square feet of turf removed in the program in 2014.

Park entered into a partnership with the Southern California Gas Company and their Energy Saving Assistance Program (EAS). This program is offered to Park's qualified CARW customers. The program replaces existing high water wasting clothes washers with the delivery and installation of a new High Efficiency Clothes Washer (HECW). In 2014, there were 238 participants. The cost of the program was \$47,600.

The CARW Toilet Direct Install Program with a diversity supplier vendor, EcoTech Services, Inc. offers the installation of up to two UHET toilets at no cost to qualified Low Income Customers with existing water wasting toilets of 3 - 7 gallons per flush. The program was promoted through direct mail postcards, customer service representatives, and website advertisements. The toilets that are offered are WaterSense approved 0.8 GPF Ultra High Efficiency Toilets manufactured by Niagara Conservation. The cost for this program was \$69,518 for 257 toilets retrofitted in 2014.

Parks' internal Toilet Direct Program with a diversity supplier vendor, EcoTech Services, Inc., offers immediate response to customer demands and allows us to target our residential customers that may not otherwise have the means to participate in a rebate or distribution program. The program was promoted through a direct mail postcard that targeted customers that have not participated in our previous toilet programs. The toilets offered are WaterSense approved 0.8 GPF Ultra High Efficiency Toilets manufactured by Niagara Conservation. We currently offer two types of toilets (round and elongated) to allow for comfort and bathroom size. Park entered into an agreement with CBMWD and MWD to receive a \$50 rebate for each participant in the program. In 2014, we successfully delivered 599 toilets. The cost of the program was \$123,160 before the CBMWD/MWD rebate of \$30,000 in 2014.

The Multi-Family Retrofit Program replaced a total of 478 water wasting toilets at three multi-family apartment buildings that used anywhere from 3 - 7 gallons per flush. The toilets that were offered are WaterSense approved 0.8 GPF Ultra High Efficiency Toilets manufactured by Niagara Conservation. This program has been offered to our customers since 2009. The total cost for this program was \$92,689 in 2014.

Parks' School Audit program targets schools within its services area and identifies water efficiency potential and retrofit with water saving devices. In 2014 Park entered into an agreement with EcoTech Services, Inc. to conduct an audit at Whaley Middle School in our Compton service area. The cost for the audit was \$2,500.

The Save-A-Buck Regional Rebate Program for Commercial, Industrial and Institutional (CII) customers, offered through CBMWD, in partnership with Park and MWD, provides rebates for WaterSense devices. The program offers rebates for commercial clothes washers, water brooms, cooling tower conductivity controllers, pre-rinse kitchen spray nozzles, x-ray machine recirculating devices, high-efficiency toilets and waterless urinals. The CII Rebate Program provides a total of 17.8%-20.3% median and 17.9%-29.2% mean in savings. The regional program has been offered to our customers since 2009. We did not have any customers participate in 2014.

Park Water Company

Affiliate Transaction Report

2014

During 2012, an equity interest in Western Water Holdings, LLC (WWH), the parent of Park Water Company (Park) which in turn is the parent of Apple Valley Ranchos Water Company (AVR), was granted to selected individuals of Park and its subsidiaries.

This resulted in the following:

1. A 2012 tax liability to the individuals receiving an equity interest. WWH offered loans to the individuals to pay their tax liability and several accepted. Park loaned money to WWH to make these loans. Park is charging WWH interest on the loans.
2. To the employer of those individuals the grant results in an expense and a taxable event.

The transaction between WWH and Park/AVR associated with the items above are as follows:

1. WWH owes Park \$245,555.19 for the loan referenced in #1 above. The loan will be extinguished as principal is repaid or before.
2. Park recorded equity to reflect the equity interest granted these individuals. The books of Park for each of 2014 and 2013 reflected non-utility expense, for the vested portion, of \$163,301.00 and \$124,090.60 respectively, for item #2 above. As such, cost recovery will not be requested in the related GRC.

The off-setting entries between WWH and Park/AVR are recorded in intercompany accounts.

In addition, payroll including burdens was recharged in 2014 by Park to WWH in the amount of \$1,218.05 for accounting and administrative services rendered.
