#### INSTRUCTIONS

1. One completed copy of this report (two copies if three received) must be filed NOT LATER THAN MARCH 31, 2018, following the year covered by the report, with:

CALIFORNIA PUBLIC UTILITIES COMMISSION WATER DIVISION
ATTN: KAYODE KAJOPAIYE
505 VAN NESS AVENUE, ROOM 3105
SAN FRANCISCO, CALIFORNIA 94102-3298
kok@cpuc.ca.gov

- 2. Failure to file the report on time may subject a utility to the penalties and sanctions provided by the Public Utilities Code.
- 3. The Oath, on the last page, must be signed by an officer, partner or owner.
- 4. The report must be prepared in ink or by the use of a typewriter. Computer generated report forms may be substituted.
- 5. The report must be filled in, and every question answered. LEAVE NO SCHEDULE BLANK. Insert the words "none" or "not applicable" or "n/a" when appropriate.
- 6. Certain balance sheet and income statement accounts refer to supplemental schedules. The totals of the details in the latter must agree with the balances of the accounts to which they refer.
- 7. Some schedules provide for a "balance at beginning of year." The amount shown should agree with the "balance at end of year" as shown in the report for the previous year. If there is a difference it should be explained by footnote.
- 8. When there is insufficient space in a schedule to permit a complete statement of the requested information, insert sheets should be prepared and identified by the number of the schedule to which it refers. Be certain that the inserts are securely attached to the report. If inserts are needed, prepare all inserts in one separate electronic file in Microsoft Excel format and file it with the electronic file of this report.
- 9. This report must cover a calander year, from January 1, 2017 through December 31, 2017. Fiscal year reports will not be accepted.
- 10 Your company's external auditor information, such as external auditor's name, phone number, and address must be included in Page 12, Item 12, of this report.

#### **INSTRUCTIONS**

#### FOR PREPARATION OF

#### **SELECTED FINANCIAL DATA SHEET**

#### FOR CLASS A, B, C AND D, WATER UTILITIES

To prepare the attached data sheets, refer to the Balance Sheet, Income Statement and supporting detail schedules in the annual report for the required data.

Please follow the instructions below:

- 1. Common plant allocated to water should be indicated with water plant figures in Net Plant Investment.
- 2. The capitalization section for those reporting on both <u>California Only</u> and <u>Total System Forms</u> should be identical and completed with <u>Total Company Data</u>. Be sure that Advances for Construction include California water data only.
- 3. Complete the operation section with California water revenues and expenses, but if necessary, remove interdepartmental revenues and expenses.
- 4. All other utility and nonutility revenues and expenses are netted on Line No. 38.

### SCHEDULE A-31 Account 228 - Accrued and Prepaid Taxes

- 1. This schedule is intended to give particulars of the combined prepaid and accrued tax accounts and to show the total taxes charged to operations and other accounts during the year. Do not include gasoline and other sales taxes which have been charged to the accounts to which the material on which the tax was levied was charged.
- 2. Taxes, paid during the year and charged direct to final accounts, that is, not charged to prepaid or accrued taxes, should be included in the schedule. Enter the amounts both in columns (d) and (e). The balancing of the schedule is not affected by the inclusion of these taxes.
- 3. Taxes charged during the year, column (d), include taxes charged to operations and other accounts through (a) accruals credited to taxes accrued, (b) amounts credited to prepaid taxes for proportions of prepaid taxes chargeable to current year, and (c) taxes paid and charged direct to operations or accounts other than accrued and prepaid tax accounts.
- 4. If any tax covers more than 1 year, the required information of all columns should be show separately for each year.

- 5. Enter all adjustments of the accrued and prepaid tax accounts in column (f) and explain each adjustment. Designate debit adjustments by parentheses.
- See schedule entitled "TAXES CHARGED DURING YEAR," page 32, for a distribution of taxes charged, column (d) according to utility departments and accounts.
- 7. Do not include in this schedule entries with respect to deferred income taxes or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority.

### SCHEDULE A-35 Account 265 - Contributions in Aid of Construction

Instructions for Preparation of Schedule of Contributions in Aid of Construction

- <sup>1</sup> The credit balance in the account other than that portion of the balance relating to nondepreciable property (column d), to property retired prior to January 1, 1995 (column e), and to the estimated amount of depreciation accrued to January 1, 1955 (column f), shall be written off through charges to this account and credits to Account 250 Reserve for Depreciation of Utility Plant over a period equal to the estimated service life of the property involved. Upon retirement of depreciable property for which a depreciation reserve has been created through charges to this account, the cost thereof shall be credited to the appropriate plant account and concurrently charged to Account 250, If the property is retired prior to the service life originally estimated, the balance in this account with respect to the retired property shall be transferred to the depreciation reserve account.
- <sup>2</sup> That portion of the balance applicable to nondepreciable property shall remain unchanged until the property is sold or otherwise retired. Upon retirement, the cost of such nondepreciable property acquired by donation or through use of donated funds shall be credited to the appropriate plant account and charged to this account to clear the credit balance carried herein.
- <sup>3</sup> That portion of the balance representing donations on property retired prior to Janaury 1, 1955 (column e), and the amount of depreciation accrued to January 1, 1955, on property in service (column f), shall not be transferred from this account or otherwise disposed of without first receiving written authorization from the Commission.

- 1. This schedule is intended to give the account distribution of total taxes charged to operations and other final accounts during the year.
- 2.Do not include gasoline and other sales taxes which have been charged to accounts to which the material on which the tax was levied was charged. If the actual or estimated amounts of such taxes are known, they should be shown as a footnote and designated whether estimated or actual amounts.
- 3.The accounts to which taxes charged were distributed should be shown in columns (c) to (f). Show both the utility department and number of account charged except for taxes capitalized.
- 4. For any tax which it was necessary to apportion to more than one utility department or account, state in a footnote the basis of apportioning such tax.
- 5. The total taxes charged as shown in column (b) should agree with the amounts shown by column (d) of schedule entitled "Accrued and Prepaid Taxes," page 24.
- 6.Do not include in this schedule entries with respect to deferred income taxes, or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority.

#### Reconciliation of Reported Net Income With Taxable Income for Federal Taxes

- 1. Report hereunder a reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. The reconciliation shall be submitted even though there is no taxable income for the year. Descriptions should clearly indicate the nature of each reconciling amount.
- 2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net in-
- come as if a separate return were to be filed, indicating, however, inter-company amounts to be eliminated in such consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, assignment, or sharing of the consolidated tax among the group members
- 3. Show taxable year if other than calendar year from-----to-----

### Schedule E- 2 Description of Low-Income Rate Assistance Program(s)

For all low income rate assistance programs offered by water utility, provide detailed responses to the following items:

Brief description of each low-income rate assistance program provided, by district. This shall include but is not limited to the percent of discount, the dollar amount of discount, what rate is discounted (service charge, quantity, or total bill), qualifying income level, dollar rate increase to remaining customers to pay for this program.

The California Alternative Rates for Water (CARW) program consists of a \$8.38 per month service charge discount to customers who meet the income eligibility requirements as established by the Commission (published on the Commission's website at cpuc.ca.gov/static/energy/care.htm). Customers must submit an application and eligibility declaration form to participate in the CARW program.

2 Participation rate for Year 2017 (as a percent of total customers served).

Participation in the CARW program at 2017 year end was 3,502 customers which represents approximately 18.74% of all residential customers.

Detail of balancing or memorandum account authorized to record expenses incurred and revenues collected for low-income rate assistance program.

A CARW revenue reallocation balancing account was established to track the difference between the low-income discounts provided to qualifying customers and the recorded revenues generated by the \$0.69 surcharge to offset the low-income discounts provided to qualifying customers. (See Schedule E-1)

#### Schedule E- 3

#### **Description of Water Conservation Program(s)**

For all water conservation programs offered by water utility, provide detailed responses to the following items:

- 1. Brief description of each water conservation program provided, by district. This description shall include but not be limited to the type of program offered (such as provision of low-flow plumbing fixtures, leak detection, leak repair, written water conservation tips, or other similar programs to its customers) and length of time it was offered.
- 2. Discuss how each water conservation assistance program is funded, for example, through rates charged to all customers, rates charged to customer receiving water conservation assistance, shareholder contribution, community funding, government funding, or other funding method. Explain why this type of funding was used.
- Cost of each program.
- The degree of participation in each district by customer group.

LUAV recognizes water use efficiency as an integral component of its current and future water strategy for the service area. LUAV has pursued conservation in an effort to reduce demand and stretch existing water supplies. The following is a description of the conservation programs offered by LUAV in 2017.

Unless otherwise indicated, the conservation activities are funded through rates charged to all customers. This type of funding is generally used to encourage conservation in a manner similar to tiered rates and to avoid undue refinement in the accounting and ratemaking processes. Additionally, unless otherwise specified, participation is not applicable, immaterial or unknown. Costs of conservation activities identified as being funded through the Mojave Water Agency (MWA) are paid by LUAV's customers indirectly as part of the cost of fees paid to the agency.

#### Single Family Landscape Survey

Water use surveys are available at no cost to residential, institutional and governmental customers. LUAV employees have received special training in the area of water surveys. The survey team completes a customer data form to analyze the customer's water use and estimate water savings. There were 367 surveys performed in 2017 at a total cost of \$24,523.

#### **Drip Irrigation Kit Program**

LUAV offered a Drip Irrigation Kit program in 2017 to encourage customers to retrofit their current bubbler/spray sprinkler system to a drip irrigation system. Workshops were offered to educate LUAV customers on the benefits and water savings associated with drip systems. Sixty-five LUAV customers attended the workshops each receiving one kit for their participation. Total cost of program to LUAV was \$1,463.

#### **Smart Irrigation Controller Program**

LUAV offered a Smart Irrigation Controller program in 2017 to encourage customers to reduce irrigation usage by installing high efficiency controller. Workshops were offered to educate LUAV customers on the benefits and water savings associated with controllers. Twenty-five LUAV customers attended the workshops each receiving one controller for their participation. Total cost of program to LUAV was \$2,028.

#### **Garden Hose Timer Program**

LUAV offered garden hose timers to elderly and disabled customers who manually watered their landscaping. Customers were recognized through water surveys and were provided one garden hose time per household. A total of sixteen timers were provided during 2017 at a total cost of \$462

#### Single-Family & Multi- Family High Efficiency Toilet Distribution

LUAV offered a program designed to retrofit high consumption toilets with newer high efficiency toilets in single-family and multifamily homes built before 1992. LUAV purchased 601 UHET toilets from Niagra Company for an in-house toilet ditribution program. The program was free of charge to the customer. The program was promoted through fliers, customer service representatives, social media, mailers, and website advertisements. UHETs use only .8 gallons per flush, compared to older models which use anywhere from 3 - 7 gallons per flush. This program was offered to LUAV customers from 2011 through 2017. The cost for the program in 2017 was \$83,988.

## Schedule E- 3 Description of Water Conservation Program(s) Hot Water Recirculating Pump Rebate Program

LUAV offeres a rebate program of \$75 per customer towards the purchase of a hot water recirculating pump. Upon installation, the customer provides LUAV the original pump reciept and proof of pump installation at which point a \$75 rebate is issued to the customer. Twelve customers participated in this program during 2017 at a total cost to LUAV of \$900.

#### **Public Information & Outreach**

LUAV has a full-time Water Conservation Coordinator to implement Best Management Practices for water conservation activities and programs. The Water Conservation Coordinator and supporting staff are responsible for the water conservation activities that LUAV is involved in. The recorded cost was \$123,499 in 2017.

Public Information Programs recognize the continued need to maintain and increase the community's awareness of water and the need to use it wisely. Providing current water conservation information is a key part of LUAV's activities. Pamphlets on water conservation are available in the lobby of the company office where customers pay their bills. LUAV provides a website and Facebook page containing conservation information and suggestions on how to reduce water usage. Consumption information for the same month from the previous year is provided on the customer's bill to help customers understand year to year usage. At the Desert Communities Water Awareness Expo and Spring Conservation Fair, an extensive display of low water-use trees, shrubs and plants is maintained that illustrate the aesthetic appeal of water efficient landscaping. The total operational costs for these programs (including labor at special events, community events, workshop booths, etc.) were \$32,986 in 2017.

#### **Cash for Grass Turf Removal Incentive Program**

LUAV participates in the Mojave Water Agency's (MWA) Landscape Conservation Program. This program's purpose is to educate landowners about water efficient landscapes. The program developed and produced a handbook entitled "A Guide to High Desert Landscaping", which LUAV distributes to interested customers at no charge. The handbook was specifically designed for the high desert environment, as a guide to designing, planting and maintaining attractive and water efficient native plant landscapes. This program also promotes water conservation by providing tips and incentives to help a customer to reduce their consumption and cost of water. The incentives offered are Large Scale Cash for Grass which pays \$1.00 per square foot of lawn removed by a customer. During 2017 118,459 square feet of lawn was removed at a total payout of \$118,459. This program is administered and funded by MWA.

#### Yucca Loma Elementary School Conservation Garden Co-Op with Mojave Water Agency

LUAV participated in a strategtic partnership program with Mojave Water Agency's (MWA). This program's purpose is to educate students, teachers, and the community about water efficient gardening and its advantages. All bounties are harvested by the students/staff/volunteers and distrubuted to low-income families. The garden also doubles as a venue for conservation workshops. LUAV portion of this program in 2017 was \$15,317.

Liberty Utilities Apple Valley has several programs and incentives available to its low-income customers including the following: (1) California Alternative Rates For Water or CARW Program, (2) Water Use Surveys, (3) Multi-Family/Single-Family Home UHET Distribution Program, (4) Drip Irrigation Kits, (5) Cash For Grass, (6) Smart Irrigation Controllers, (7) Garden Hose Timers, and (8) Hot Water Recirculating Pumps. As described above, these programs are promoted through bill inserts, social media, company website, mailers, and office lobby material. Additionally, these programs are promoted at all conservation and outreach events where LUAV is a participant. At these events, LUAV is able to inform customers of the programs designed to help customers with limited income.

#### 2014 Water Conservation Memorandum Account

Liberty Utilities Apple Valley received authorization to create and implement the 2014 Water Conservation Memorandum Account ("2014 WCMA") to track incremental expenses incurred by LUAV to activate the Rule 14.1 voluntary conservation, Schedule 14.1 mandatory rationing and other activities associated with the Governor's Drought Emergency Declaration. In 2015, LUAV launched a drought campaign to notify customers of the mandatory drought reduction, water restrictions, tiered rates and new conservation surcharges. Customers were notified by mailers, public meetings, community events, customer service representatives, main office lobby, social media, posters on bus shelters, radio ads, truck wraps, restaurant table tents, drought workshops, and our website. The total amount captured in the "2014 WCMA" for 2017 was \$2,823 to employee a temporary conservation representative whose duties were to assist with customer outreach. Please see 2014 WCMA Expenses tab for details.

## Annual Report of Liberty Utilities (Apple Valley Ranchos Water) Corp. To the California Public Utilities Commission

#### ATTACHMENT A

### Report on Excess Capacity Activities (Non-Tariffed Products & Services or NTP&S)

The Commission's rules governing excess capacity activities (formally called "non-tariffed products and services" or "NTP&S") became effective on June 30, 2011 (see Rule X contained in Appendix A of D.12-01-042). Consistent with Rule X.E of the new rules, Liberty Utilities (Apple Valley Ranchos Water) Corp. ("Liberty Apple Valley Ranchos Water") provides the following information regarding its NTP&S projects in Calendar Year 2017 in this Attachment:

### 2017 Annual Report to CPUC (May 2018) To the California Public Utilities Commission

### Liberty Apple Valley Ranchos Water's Excess Capacity Activities (formally called "Non-Tariffed Products & Services" or "NTP&S")

#### I. Overview

- Revenue sharing under new rules: Rule X.C defines how revenues from unregulated activities are to be allocated between shareholders and ratepayers, depending on whether the activities are designated as "active" or "passive".
  - Active vs. passive activities: The Commission has designated certain activities as active or passive as reflected in the "NTP&S Designation Chart" at the end of the rules. Ten percent (10%) of gross revenues from activities classified as active must be shared with ratepayers, while thirty percent (30%) of gross revenues from passive activities must be shared with ratepayers.
  - ✓ 100% revenue sharing for first \$100,000: The 10%/30% revenue sharing is applied to active and passive NTP&S activities only after the first \$100,000 of the year's NTP&S revenues are fully allocated (100%) to benefit ratepayers.
  - Liberty Apple Valley Ranchos Water's activities: With the exception of the "Marketing Contract" with HomeServe USA, Liberty Apple Valley Ranchos Water's NTP&S activities are all active (requiring 10% sharing).
- Cost allocation under new rules: Rule X.D defines how costs associated with NTP&S activities must be allocated between regulated and unregulated accounts, generally requiring that "all incremental investments, costs, and taxes due to [NTP&S] shall be absorbed by shareholders, i.e, not recovered through tariffed rates."
  - Liberty Apple Valley Ranchos Water's cost allocations: Charges for NTP&S activity consist of clearly identifiable incremental direct costs that are directly charged to unregulated accounts.

### 2017 Annual Report to CPUC (May 2018) To the California Public Utilities Commission

#### **II. Descriptions of Excess Capacity Activities**
