Excess Capacity and Non-Tariffed Services

NOTE: In D.00-07-018, D.03-04-028, and D. 04-12-023, the CPUC set forth rules and requirements regarding water utilities provision of non-tariffed services using excess capacity. These decisions require water utilities to: 1) file an advice letter requesting Commission approval of that service, 2) provide information regarding non-tariffed goods/services in each companies Annual Report to the Commission.

Based on the information and filings required in D.00-07-018, D.03-04-028, and D.04-12-023, provide the following information by each individual non-tariffed good and service provided in 2017:

	Applies to All Non-Tariffed Goods/Services that require Approval by Advice Letter

SCHEDULE B-4 Account 507 - Taxes Charged During Year

1. This schedule is intended to give the account distribution of total taxes charged to operations and other final accounts during the year.

2. Do not include gasoline and other sales taxes which have been charged to accounts to which the material on which the tax was levied was charged. If the actual or estimated amounts of such taxes are known, they should be shown as a footnote and designated whether estimated or actual amounts.

3. The accounts to which taxes charged were distributed should be shown in columns (c) to (f). Show both the utility department and number of account charged except for taxes capitalized.

4. For any tax which it was necessary to apportion to more than one utility department or account, state in a footnote the basis of apportioning such tax.

5. The total taxes charged as shown in column (b) should agree with the amounts shown by column (d) of schedule entitled "Accrued and Prepaid Taxes," page 40.

6. Do not include in this schedule entries with respect to deferred income taxes, or taxes collected through payroll deductions or otherwise pending transmittal of such taxes to the taxing authority.

Schedule E- 2 Description of Low-Income Rate Assistance Program(s)

1. Brief description of each low-income rate assistance program provided by district

APPLICABILITY

Applicable to individually metered and flat rate residential customers, qualified non-profit group living facilities, qualified agricultural employee housing facilities, and migrant farm worker housing centers where the customer meets all the special conditions of this schedule.

TERRITORY

All Class A service areas of California Water Service Company

METERED SINGLE-FAMILY RESIDENTIAL RATES

Quantity Rates:

Customers are charged per 100 cubic feet of water delivered at the metered rates as reflected in applicable rate schedule for single-family residential service.

Service Charges:

Eligible customers receive a monthly LIRA credit equal to 50% of the 5/8" x 3/4" service charge for single-family residential service, prorated based on the days of service if service is not provided for a full month. The maximum monthly credit is \$48.

FLAT RATE RESIDENTIAL RATES

Customers are charged the flat rate reflected in the applicable rate schedule for residential flat rate service.

Eligible customers receive a monthly LIRA credit equal to 50% of the 5/8"x3/4" service charge for single-family residential service, prorated based on the days of service if service is not provided for a full month. The maximum monthly credit is \$48.

QUALIFIED NON-PROFIT GROUP LIVING FACILITIES, QUALIFIED AGRICULTURAL EMPLOYEE HOUSING FACILITIES, MIGRANT FARM WORKER HOUSING CENTERS

Quantity Rates:

Customers are charged per 100 cubic feet of water delivered at the metered rates as reflected in the applicable rate schedule.

Service Charges:

Eligible customers receive a monthly LIRA credit of \$20, prorated based on the days of service if service is not provided for a full month. The maximum monthly credit per qualifying sub-metered customers is \$20.

Schedule E- 2 Description of Low-Income Rate Assistance Program(s)

Schedule E- 3 Description of Water Conservation Program(s)

For all water conservation programs offered by water utility, provide detailed responses to the following items:
(1) Brief description of each water conservation program provided, by district. This description shall include but not be limited to the type of program offered (such as provision of low-flow plumbing fixtures, leak detection, leak repair, written water conservation tips, or other similar programs to its customers) and length of time it was offered. See E-3 (4)

(2) Discuss how each water conservation assistance program is funded, for example, through rates charged to all customers, rates charged to customer receiving water conservation assistance, shareholder contribution, community funding, government funding, or other funding method. Explain why this type of funding was used. See E-3 (4)

(3) Cost of each program. See Page 68-71

(4) The degree of participation in each district by customer group.

Response: D.11-05-004 requires that data regarding conservation programs be provided as part of Schedule E-3 of the Annual Report. Specific program information is provided in California Water Service Company's Conservation Budget and Measurement & Evaluation Report covering the 2018 conservation program. Program descriptions are included on pages 3-5 of the Report and Table 1 (below) includes the page numbers where the estimated conservation savings report can be found for each service area.

Annual Report of California Water Service Company to the California Public Utilities Commission

ATTACHMENT B

Report on Excess Capacity Activities (Non-Tariffed Products & Services or NTP&S)

The Commission's rules governing excess capacity activities (formally called "nontariffed products and services" or "NTP&S") became effective on June 30, 2011 (see Rule X contained in Appendix A of D.12-01-042). Consistent with Rule X.E of the new rules, California Water Service Company ("Cal Water") provides the following information regarding its NTP&S projects in Calendar Year 2018 in this Attachment:

Cal Water's Excess Capacity Activities (formally called "Non-Tariffed Products & Services" or "NTP&S")

II. Overview

- > Revenue sharing under new rules: Rule X.C defines how revenues from unregulated activities are to be allocated between shareholders and ratepayers, depending on whether the activities are designated as "active" or "passive."
 - Active vs. passive activities: The Commission has designated certain activities as active or passive as reflected in the "NTP&S Designation Chart" at the end of the rules. Ten percent (10%) of gross revenues from activities classified as "active" must be shared with ratepayers, while thirty percent (30%) of gross revenues from "passive" activities must be shared with ratepayers.
 - **100% revenue sharing for first \$100,000**: The 10%/30% revenue sharing is applied to active and passive NTP&S activities only after the first \$100,000 of the year's NTP&S revenues are fully allocated (100%) to benefit ratepayers.
 - **Cal Water's activities**: With the exception of Cal Water's lease of space for cellular antennas, which are designated as "passive" (requiring 30% sharing), Cal Water's NTP&S activities are all "active" (requiring 10% sharing).
- > Cost allocation under new rules: Rule X.D defines how costs associated with NTP&S activities must be allocated between regulated and unregulated accounts, generally requiring that "all incremental investments, costs, and taxes due to [NTP&S] shall be absorbed by shareholders, i.e., not recovered through tariffed rates."
 - Cal Water's cost allocations: Charges for an NTP&S activity consist of fully-loaded labor costs (payroll hours plus related benefits costs) and non-labor costs (such as materials, postage, etc.). For both kinds of costs, clearly identifiable incremental costs (direct costs) are directly charged to unregulated accounts. In addition, incremental indirect costs are estimated for each activity, and allocated to unregulated accounts.

III. Descriptions of Excess Capacity Activities

1) Antenna Leases (Multiple Cal Water Districts)

- Service: Antenna leases (approximately 95 agreements with mobile carriers)
- Description: These antenna leases allow cellular service providers to install their antennas on Cal Water properties without interference to normal day-to-day operations. Cal Water has antenna leases in several districts.
- Allocations: The expenses Cal Water incurs to ensure equipment is safe and properly installed have been directly charged to unregulated accounts, and 30% of gross revenues have been allocated to ratepayers. This approach is consistent with Cal Water's standardized NTP&S revenue sharing and cost allocation methodologies.

2) Bakersfield, City of (Bakersfield District)

- Service: Operation, maintenance, and billing contract for water system (approximately 40,000 customers), including a treatment plant that serves the City of Bakersfield as well as Cal Water's regulated customers.
- Description: In the Bakersfield area, both Cal Water and the City of Bakersfield own water systems that serve the population. This contract with the City of Bakersfield requires that Cal Water provides all qualified, trained and, if required, licensed and certified personnel, direct supervision, fully equipped vehicles, proper tools, equipment, fuels and various supplies to operate and maintain the City's system. Operation of the system includes treatment of water, transmission/distribution, repair of leaks, meter maintenance, meter reading, customer billing, and 24/7 oncall response.
- Allocations: Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

3) Chico, City of (Chico District)

- Service: Billing for sewer system (approximately 18,400 customers)
- Description: The City of Chico owns and operates a sewer system. The City calculates sewer charges based upon water consumption, and Cal Water includes the sewer charges as a line item on the regulated water bills of its customers and processes payments.
- Allocations: Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

4) Commerce, City of (East Los Angeles District)

Service:	Operation, maintenance, & billing for leased water system (approximately 1,200 customers)
Description:	Pursuant to an agreement with the City of Commerce, Cal Water performs all customary utility practices for Commerce residents that it would provide to regulated customers.
Allocations:	Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

5) Crane Ridge Mutual Water Company (Livermore District)

Service:	Operation, maintenance & billing for water system (approximately 25 customers)
Description:	Cal Water operates and maintains a small water system owned by the Crane Ridge Mutual Water Company.
Allocations:	Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

6) Desalter Project (Rancho Dominguez)

- Service: Land leased to third party
- Description: This contract is an agreement between West Basin Municipal Water District and Cal Water's Dominguez District. West Basin constructed a desalination project on land leased from the Dominguez District (formerly the Dominguez Water Corporation). West Basin installed a reverse osmosis unit to treat two wells with brackish water content. Cal Water operates the project, obtains water from the project, and receives monthly lease amounts from West Basin.
- Allocations: Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

7) Foothill Estates (Salinas District)

- Service: Operation and maintenance of water system
- Description: Cal Water operates and provides limited maintenance for a water system owned by land developer Foothill Estates. No billing services are provided.

Allocations: Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

8) Great Oaks Water Company (Customer Support Services)

- Service: Lab services
- Description: Cal Water furnishes the personnel, services, and equipment necessary to provide drinking water testing and analysis for Great Oaks Water Company using methods approved by Department of Health Services for bacteriological samples from Great Oaks' distribution systems.
- Allocations: Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

9) Hawthorne, City of (Rancho Dominguez District)

- Service: Operation, maintenance & billing for leased water system, and billing for sewer services (approximately 6,000 customers)
- Description: Cal Water leases the City of Hawthorne's water system and groundwater and furnishes water service to the City's customers. Cal Water performs all customary utility practices that it would provide to regulated customers and in mutual agreement with the City of Hawthorne.

In addition, the City of Hawthorne owns a sewer system. Cal Water includes the City's sewer charges as a line item on the regulated water bills of its customers, and processes payments.

Allocations: Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

10) Home Service USA Corp (General Office)

- Service: Billing services
- Description: Cal Water provides billing services to Home Service USA Corp (also known as Home Emergency Insurance Solutions), which provides emergency home warranty repair services, for customers of Home Service USA that are also customers of Cal Water by adding Home Service charges as line items on regulated water bills.
- Allocations: Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

11) King City (King City District)

Service:	Billing for sewer system (approximately 2,400 customers)
Description:	Cal Water bills the monthly sewer service charge for the City of King as an additional separate line on the monthly water bill of Cal Water's regulated customers, and processes payments. Water consumption data is used to calculate monthly sewer charges as directed by the City of King.
Allocations:	Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

12) Mountain Mesa Water Company (Kern River Valley District)

Service:	Operation, maintenance & billing for water system (approximately 370 customers)
Description:	For the water system owned by Mountain Mesa Water Company, Cal Water performed the following services: operations, billing and collections, customer service, accounts payable and accounts receivable. The contract ended 9/2/2018.
Allocations:	Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

13) Riverkern Mutual Water Company (Kern River Valley District)

- Service: Operation and maintenance for water system
- Description: Cal Water operates and maintains a water system owned by Riverkern Mutual Water Company. No billing services are provided.
- Allocations: Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

14) Stockton, City of (Stockton District)

Service:Daily reports on customer consumptionDescriptionCal Water used to provide billing for various City services. Cal Water now provides
daily reports on customer consumption to the City.Allocations:Cal Water applied its standardized NTP&S revenue sharing and cost allocation
methodologies consistent with the Commission's rules.

15) Tejon-Castac Water District (Bakersfield District)

Service:	Operation, maintenance, and billing for water and wastewater systems (approximately 14 customers)
Description:	For the water and wastewater systems owned by the Tejon-Castac Water District, Cal Water performs the following services: operations, billing and collections, customer service, accounts payable and accounts receivable.
Allocations:	Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the new rules.

16) West Basin Municipal Water District (Hermosa-Redondo District)

- Service: Operation and maintenance of recycled water system
- Description: The West Basin Municipal Water District owns recycled water distribution systems. Cal Water provides labor, materials, transportation and equipment necessary to perform basic operation and maintenance of the systems. The services include being available to inspect, operate, test maintain and repair the distribution system, on a 24-hour day, 7-day a week basis. Cal Water annually recommends and informs West Basin if capital improvements are needed, and performs any emergency services needed to protect health, safety, and property. Cal Water is also responsible for regulatory compliance work. No billing services are provided.
- Allocations: Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

17) Willows, City of (Willows District)

Service:	Billing for sewer system (approximately 235 customers)						
	• · · · · · · · · · · · · · · · · · · ·				_		

- Description: Cal Water bills the monthly sewer service charge for the City of Willows as a separate line on the monthly water bill of Cal Water's regulated customers, and processes customer payments.
- Allocations: Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

18) Dixon, City of (Dixon District)

Service:	Temporary operation and maintenance of the City's water system.
Description:	The initial contract began on 11/14/17. An updated contract began on 7/1/2018 for a period of 6 months. Additional 6-month extensions allowed up to a total of 2 years.
Allocations:	Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

19) Tesoro Viejo Master Mutual (Selma District)

Service:	Operation, maintenance, and billing for water, wastewater, recycled water, storm water, and agricultural water systems.
Description:	This is a mixed-use master-planned community that is approved for up to 5,190 residential units and approximately 3 million sq. ft. of commercial and retail space, as well as parks, schools, and light industrial operations. Construction is ongoing, with homes anticipated to be ready for occupancy early in 2019.
	In addition to operations and maintenance services, Cal Water will provide customer service and oversee the installation of various capital improvements.
Allocations:	Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the new rules.

20) Visalia City of (Visalia District)

Service:	Reports on customer consumption
Description	Cal Water used to provide billing for various City services. Cal Water now provides reports on customer consumption to the City.
Allocations:	Cal Water applied its standardized NTP&S revenue sharing and cost allocation methodologies consistent with the Commission's rules.

IV. Regulated Assets Used in NTP&S Projects

Cal Water's non-tariffed products and services ("NTP&S) projects generally fall within the below categories. For each category, the regulated assets used for the projects are identified. All of the activities involve the asset of personnel labor. The personnel time spent on unregulated activities is provided separately.

A) Antenna Leases

Antennas for mobile communications are usually mounted on elevated water tanks, co-located on utility poles with Cal Water communications facilities, or installed on the grounds of tank sites. No other regulated assets are generally used in antenna lease contracts. Cal Water employees perform visual inspections of new and modified installations, but all other activities (permitting, installation, maintenance, and security) are performed by antenna owners.

B) Operation and Maintenance ("O&M") Contracts

Under these contracts, Cal Water fully operates and maintains an unregulated water and/or sewer system through a service contract, or through a lease of the system. Some of these O&M contracts include billing and meter-reading services, and some do not. For contracts including billing and meter-reading, see the regulated assets described under the section for "Billing and Meter-Reading Contracts."

The regulated assets used for O&M contracts include:

- General office equipment and buildings for operations and customer service
- Customer service computer systems automated systems that direct customer inquiries
- Mainframe and distributed computing hardware and software for facilities monitoring and controls, communications, corporate support
- Heavy machinery, miscellaneous machinery
- · Warehousing facilities
- Field instrumentation tools, sampling equipment, chemicals
- Miscellaneous mechanical hand and power tools
- Vehicles, fleet management system
- · Landline and mobile communications equipment

C) Billing and Meter-Reading Contracts

Under these contracts, Cal Water provides meter-reading and billing for unregulated services that may include water service, sewer service, refuse (trash) service, and other city services.

For the billing of unregulated services provided in Cal Water's regulated territory, billing activities consist of adding line item charges to regulated bills, and collecting and processing payments. For billing in unregulated systems that Cal Water operates and maintains, billing activities consist of the calculation, preparation, and mailing of bills, as well as the collection and processing of payments. In both situations, excess capacity contracts for billing and meter-reading include the use of the following regulated assets:

- General office equipment and buildings for customer service, bill preparation, and payment
 processing
- · Customer service computer systems automated systems that direct customer inquiries

- Vehicles
- · Landline and mobile communications equipment
- Hand-held meter-reading devices
- RMS Billing System computer system that maintains customer information
- · Printing machines machines that print utility bill statements
- · Bill insertion machines machines for inserting customer bills into mailing envelopes
- · Cash remittance equipment sorts and opens payment envelopes, extracts payments

D) Lab Services Contracts

Cal Water provides water quality testing laboratory services to third parties. These contracts include the use of the following regulated assets:

- General office equipment
- Laboratory
- Lab equipment, chemicals

In addition to laboratory services, Cal Water also conducts field inspections and sampling for some contracts, which include the use of the following regulated assets:

- · Field instrumentation tools, sampling equipment
- Vehicles

E) Home Service USA Contract

For the contract with Home Service USA, Cal Water uses the billing-related regulated assets discussed above under "Billing and Meter-Reading Contracts" to add line item charges for Home Service products to regulated bills.

V. District Office and CSS Labor Engaged in NTP&S Projects

District Office Labor Allocated to Unregulated Accounts for 2018 (based on 2017)

Assumptions:

1	Average District hourly salary is \$63 (including benefits)
2	Information is based on Office Supervision salaries and Office Salary Staff that do not direct charge (GL account
	771001)
3	Allocation is based on FTE hours times hourly salary
4	Allocation applies to contracts that are 30% or above of a Full Time Equivalent (FTE)
	52 per month
	624 per year
5	Allocation will apply to contracts where 30% or more of the total office staff hours supports unregulated work.
6	Allocations are based upon estimations by District Manager and/or Customer Service Manager.
