2. Failure to file the report on time may subject a utility to the penalties and sanctions provided by the Public Utilities Code.
3. The Declaration on Page 70 must be signed by an authorized officer, partner, or owner.
4. The report must be prepared in accordance with the CPUC Excel annual report template. The Excel file and a PDF of the file is to be submitted to the Commission.
5. The report must be filled in, and every question answered. LEAVE NO SCHEDULE BLANK. Insert the words "none" or "not applicable" or "n/a" when appropriate.
6. Certain balance sheet and income statement accounts refer to supplemental schedules. Complete the supplemental schedules FIRST. Auto-filled and summed boxes are Excel locked and identified by a light coloring of the box. Uncolored boxes can be manually filled. Complete the statements by filling in the uncolored boxes where appropriate.
7. Some schedules provide for a "balance at beginning of year." The amount shown should agree with the "balance at end of year" as shown in the report for the previous year. If there is a difference, it should be explained by footnote.
8. When there is insufficient space in a schedule to permit a complete statement of the requested information, insert sheets should be prepared and identified by the number of the schedule to which it refers. Be certain that the inserts are securely attached to the report. If inserts are needed, prepare all inserts in one separate electronic file in Microsoft Excel format and file it with the electronic file of this report.
9. This report must cover the calendar year from January 1, 2019, through December 31, 2019. Fiscal year reports will not be accepted.

Liberty Park Water recognizes water use efficiency as an integral component of its current and future water strategy for the service area. Liberty has pursued conservation programs in an effort to ensure future water supplies for our customers, and to prepare for future or current dry periods. Following is a description of the conservation programs offered in 2019.

Liberty Park Water has a Conservation Coordinator to develop and implement conservation programs that fulfill Liberty Park Water's requirements as a signatory to the California Water Use Efficiency Partnership (CalWEP)'s Memorandum of Understanding. The Conservation Coordinator and supporting staff are responsible for water conservation activities. The cost of employees' time spent on conservation activities is funded through rates charged to all customers.

Liberty Park Water's Public Information Programs include conservation information distributed through bill inserts, newsletters, brochures, website, community speakers and special events. Pamphlets on water conservation are available in the lobby of the office where customers pay their bill, they can view conservation tips from our website, and they can speak with their Conservation Coordinator. Information is also provided through Central Basin Municipal Water District (CBMWD), the Metropolitan Water District of Southern California (MWD), and the American Water Works Association (AWWA). Consumption information for the same month from the previous year is provided on the customer's bill. The cost of our program for 2019 was $\$ 15,056$.

Free water conservation devices such as kitchen/bathroom aerators, shower timers, garden hose nozzles, soil moisture sensors and leak detection tablets are offered to customers in our office and during community events, and Water Awareness Month. The cost of this program for 2019 was $\$ 7,149$

Liberty Park Water provides educational workshops, resources, and training on irrigation principles and California friendly landscaping, and leak detection. In 2019, Liberty partnered with the Water Replenishment District's free Eco Gardener series. We were able to offer three customized workshops at no cost to our customers or to Liberty. Additionally, we offered a free Rainwater Harvesting workshop by partnering with Rain Barrels Intl.

School Education Programs promote water conservation and other resource efficiencies to students at school facilities. CBMWD provides conservation education programs. These programs are offered to all schools in Liberty Park Water's service area. In 2019, Liberty partnered with the Norwalk-La Mirada Unified School District to offer conservation resources and education during their annual Read Across America week.

## Schedule E- 3 <br> Description of Water Conservation Programs (continued)

Liberty Park Water offers rebates to our residential customers through the SoCal WaterSmart Rebate Program. This program offered through CBMWD, in partnership with Liberty and MWD, provides incentives to residential customers who purchase and install WaterSense approved devices. The regional program has been offered to our customers since 2009. It has also been offered to our Commercial, Industrial and Institutional (CII) customers. The program offers rebates for weather based irrigation controllers, rotating nozzles, rain barrels, soil moisture sensor systems, high-efficiency clothes washers, cisterns, high-efficiency toilets and waterless urinals. Liberty paid a total of \$24,933 in supplemental funding for 316 devices in the program in 2019.

Liberty Park Water continues to partner with the Southern California Gas Company and their Energy Saving Assistance Program (EAS). This program is offered to Liberty's qualified CARW customers. The program replaces existing high water wasting clothes washers with the delivery and installation of a new High Efficiency Clothes Washer (HECW). Additionally, this program installs low-flow showerheads, faucet aerators, and thermostatic shower value (TSV), thermostatic tub spouts in qualifying homes. In 2019, there were 100 participants. The cost of the program was \$29,683.

The CARW Toilet Direct Install Program is offered to our CARW qualifying customers and implemented with a diversity supplier vendor, EcoTech Services, Inc. The program offers the installation of up to two UHET toilets at no cost to qualified Low Income Customers with existing water wasting toilets of 3 gallons per flush or higher. The program was promoted through direct mail postcards, customer service representatives, website advertisements, and at events. The toilets that are offered are WaterSense approved 0.8 GPF Ultra High Efficiency Toilets manufactured by Niagara Conservation. We currently offer two types of toilets (round and elongated) to allow for comfort and bathroom size. In 2019, we successfully installed 114 toilets. The cost for this program was $\$ 46,055$.

Liberty Park Water internal Toilet Direct Program with a diversity supplier vendor, EcoTech Services, Inc., offers immediate response to customer demands and allows us to target our residential customers that may not otherwise have the means to participate in a rebate. The program was promoted through a direct mail postcard that targeted customers that have not participated in our previous toilet programs. The toilets offered are WaterSense approved 0.8 GPF Ultra High Efficiency Toilets manufactured by Niagara Conservation. We currently offer two types of toilets (round and elongated) to allow for comfort and bathroom size. In 2019, we successfully delivered 300 toilets. The cost of the program was \$69,885 .

The Residential/Outdoor Surveys Program provides comprehensive indoor and outdoor surveys for single family and multi-family customers to assess water use and provide a customized report and program suggestions to cut down usage. The top customers with highest water use were targeted. Liberty Park Water entered into an agreement with Valley Soil, Inc. to provide this service to a much broader range of customers than we could if this service was provided internally. We provided 68 surveys in 2019, and the total cost for this program was \$11,995.

Liberty Park Water's School Incentives Program targets schools within its services area and identifies water efficiency potential; it also provides retrofits with water saving devices. In 2015, Liberty Park Water entered into an agreement with EcoTech Services, Inc. to repair broken sprinklers, rotors, and install weather base irrigation systems at schools in our service area. In 2018, Liberty Park Water and EcoTech Services identified 10,000 square feet of turfgrass at Albert Baxter Elementary School that were not being utilized for recreation or other purposes but were being maintained and watered. We partnered with the school and replaced 10,000 square feet with a native, mediterranean, and meadow demonstration garden with educational signage. This project had multiple benefits, in addition to water savings, it created an opportunity to educate both students and the local community. In 2019, Liberty Park Water paid for an additional cost to include educational bilingual signage for the garden. Total project cost was $\$ 500$.

The Customized CII Incentive Program offers a free water use survey to CII customers. Customized incentives for water-saving measures that are not funded under Metropolitan Water District's (MWD) SoCal Watersmart program. The Excelsior Hotel in Artesia, Ca was eligible for retrofit of existing toilets using 3.5 gallons or higher. In previous years, we replaced 80 of these models with ultra-high efficiency toilets. In 2019, we offered installation and delivery of an additional 74 toilets to replace existing toilets with 0.8 gallons per flush ultra-high efficiency models. Total project cost was $\$ 18,500$.

Liberty Park Water entered into an agreement with Central Basin Municipal Water District (CBMWD) and Metropolitan Water District of Southern California (MWD) to utilize funding from the Member Agency Administered Project. Liberty Park Water requested to receive a $\$ 40$ per toilet credit for each toilet distributed to a participant in the Toilet Direct or Toilet Installation programs. In 2019, we received \$6,600 in funding from Metropolitan's partnership program. In 2019, we received credits from previous years activity in addition to 2019 activity due to processing time at partnering agencies.

# 2019 Annual Report to CPUC To the California Public Utilities Commission 

## Liberty Park Water's Excess Capacity Activities <br> (formally called "Non-Tariffed Products \& Services" or "NTP\&S")

## I. Overview

- Revenue sharing under new rules: Rule X.C defines how revenues from unregulated activities are to be allocated between shareholders and ratepayers, depending on whether the activities are designated as "active" or "passive".
$\checkmark$ Active vs. passive activities: The Commission has designated certain activities as active or passive as reflected in the "NTP\&S Designation Chart" at the end of the rules. Ten percent ( $10 \%$ ) of gross revenues from activities classified as active must be shared with ratepayers, while thirty percent (30\%) of gross revenues from passive activities must be shared with ratepayers.
$\checkmark 100 \%$ revenue sharing for first $\$ 100,000$ : The $10 \% / 30 \%$ revenue sharing is applied to active and passive NTP\&S activities only after the first $\$ 100,000$ of the year's NTP\&S revenues are fully allocated (100\%) to benefit ratepayers.
$\checkmark$ Liberty Park Water's activities: Liberty Park Water's NTP\&S activities are all active (requiring 10\% sharing).
- Cost allocation under new rules: Rule X.D defines how costs associated with NTP\&S activities must be allocated between regulated and unregulated accounts, generally requiring that "all incremental investments, costs, and taxes due to [NTP\&S] shall be absorbed by shareholders, i.e, not recovered through tariffed rates."
$\checkmark$ Liberty Park Water's cost allocations: Charges for NTP\&S activity consist of clearly identifiable incremental direct costs that are directly charged to unregulated accounts.
