3. The Declaration on Page 70 must be signed by an authorized officer, partner, or owner.
4. The report must be prepared in accordance with the CPUC Excel annual report template. The Excel file and a PDF of the file is to be submitted to the Commission.
5. The report must be filled in, and every question answered. LEAVE NO SCHEDULE BLANK. Insert the words "none" or "not applicable" or "n/a" when appropriate.
6. Certain balance sheet and income statement accounts refer to supplemental schedules. Complete the supplemental schedules FIRST. Auto-filled and summed boxes are Excel locked and identified by a light coloring of the box. Uncolored boxes can be manually filled. Complete the statements by filling in the uncolored boxes where appropriate.
7. Some schedules provide for a "balance at beginning of year." The amount shown should agree with the "balance at end of year" as shown in the report for the previous year. If there is a difference, it should be explained by footnote.
8. When there is insufficient space in a schedule to permit a complete statement of the requested information, insert sheets should be prepared and identified by the number of the schedule to which it refers. Be certain that the inserts are securely attached to the report. If inserts are needed, prepare all inserts in one separate electronic file in Microsoft Excel format and file it with the electronic file of this report.
9. This report must cover the calendar year from January 1, 2021, through December 31, 2021. Fiscal year reports will not be accepted.

LUPW recognizes water use efficiency as an integral component of its current and future water strategy for the service area. LUPW has pursued conservation in an effort to reduce demand and stretch existing water supplies. The following is a description of the conservation programs offered by LUPW in 2021.

## Single Family, HOA, \& Large Landscape Survey

The Residential/Outdoor Surveys Program provides comprehensive indoor and outdoor surveys for single family and multifamily customers to assess water use and provide a customized report and program suggestions to cut down usage. The top customers with highest water use were targeted. Liberty Park Water entered into an agreement with Valley Soil, Inc. to provide this service to a much broader range of customers than we could if this service was provided internally. This program was adapted to virtual surveys for a good portion of 2020 due to the global pandemic and continued to offer virtual throughout 2021, with an option for in person with safety protocols. Consumption information was provided to the contractor and the survey was conducted via video chat for customers. Water Wise Consulting, Inc performed 62 residential surveys in 2021 at a total cost of \$9,850.

## Single-Family \& Multi- Family High Efficiency Toilet Direct Delivery

LUPW offered a program designed to retrofit high consumption toilets with newer high efficiency toilets in single-family and multifamily homes built before 1992. The program was promoted through bill inserts, customer service representatives, social media, mailers, and website advertisements. UHETs use only 0.8 gallons per flush, compared to older models which use anywhere from 1.6-7 gallons per flush. Free installation in this program was offered to all CAP qualifying LUPW customers from 2013 through 2020, and all LUPW customers in 2021 \& 2022. Liberty Utilities contracted with Eco Tech Services, Inc. and in 2021, the Direct Toilet Program included 163 toilets for a total cost of $\$ 44,568$. The program was at no cost to the customer.

## Smart Irrigation Controller Program

Liberty Park Water offered a Smart Irrigation Controller Pilot Program in 2021 to encourage customers to reduce irrigation usage by installing high efficiency controllers. This program targeted high-consumption residential users in an effort to educate them on the benefits and water savings. Total cost of program to LUPW was $\$ 1,025$.

## No Cost Conservation Kits

No Cost Conservation Kits are available to all Liberty Park Water customers and provided when applying on-line, calling office requesting a kit and during water surveys. This program was implemented during the Covid pandemic to continue providing our customers the tools to continue conserving. A third party contractor was hired to assemble and ship kits directly to the customer. A total of 120 kits were purchased in 2021, at a total cost of \$7,155.

## Public Information \& Outreach

Public Information Program recognize the continued need to maintain and increase the community's awareness of water and the need to use it wisely. Liberty Park Water uses a wide array of media outlets in an effort to inform customers on drought status, efficiency programs, and water efficiency tips. This education is free to our customers and offered in the form of bill inserts, online video library, and workshops. Due to the pandemic, we adapted our workshops to be conducted virtually and offered online. The total costs for these programs were $\$ 48,854$ in 2021.

## SoCal Gas Partnership

## Schedule E- 3

## Description of Water Conservation Program(s)

Liberty Park Water continues to partner with the Southern California Gas Company and their Energy Saving Assistance Program (EAS). This program is offered to Liberty's qualified CARW customers. The program replaces existing high water wasting clothes washers with the delivery and installation of a new High Efficiency Clothes Washer (HECW). Additionally, this program installs low-flow showerheads, faucet aerators, and thermostatic shower value (TSV), thermostatic tub spouts in qualifying homes. In 2021, there were 54 participants and the cost of the program was $\$ 18,148$.

## Low Income Programs

Liberty Utilities Park Water has several programs and incentives available to its low-income customers including the following: (1) California Alternative Rates For Water or CAP Program, (2) Water Use Surveys, (3) Multi-Family/Single-Family Home UHET Distribution Program, (4) Smart Irrigation Controllers, (5) Garden Hose Timers, (6) Partnership with SoCal Gas Energy Savings Assistance Program, and (7) Partnership with Metropolitan Water District's SoCalWaterSmart Rebate Program. As described above, these programs are promoted through social media, company website, news letters, and mailers. Additionally, these programs are promoted at all virtual conservation and outreach events where LUPW is a participant. At these events, LUPW is able to inform customers of the programs designed to help customers with limited income.

## Rebate Program

Liberty Park Water offers rebates to our residential customers through the SoCal WaterSmart Rebate Program. This program offered through CBMWD, in partnership with Liberty and MWD, provides incentives to residential customers who purchase and install WaterSense approved devices. The regional program has been offered to our customers since 2009. It has also been offered to our Commercial, Industrial and Institutional (CII) customers. The program offers rebates for weather based irrigation controllers, rotating nozzles, rain barrels, soil moisture sensor systems, high-efficiency clothes washers, cisterns, high-efficiency toilets and waterless urinals. Liberty did not pay any supplemental funding for this program in 2020, but instead offered a turnkey rebate to customers unable to afford or participate in the SoCal WaterSmart Rebate Program. We offered rainbarrels at a discounted price of $\$ 20$ each for qualifying customers.

## 2021 Annual Report to CPUC

To the California Public Utilities Commission

## Liberty Park Water's Excess Capacity Activities (formally called "Non-Tariffed Products \& Services" or "NTP\&S")

## I. Overview

- Revenue sharing under new rules: Rule X.C defines how revenues from unregulated activities are to be allocated between shareholders and ratepayers, depending on whether the activities are designated as "active" or "passive".
$\checkmark$ Active vs. passive activities: The Commission has designated certain activities as active or passive as reflected in the "NTP\&S Designation Chart" at the end of the rules. Ten percent ( $10 \%$ ) of gross revenues from activities classified as active must be shared with ratepayers, while thirty percent (30\%) of gross revenues from passive activities must be shared with ratepayers.
$\checkmark 100 \%$ revenue sharing for first $\$ 100,000$ : The $10 \% / 30 \%$ revenue sharing is applied to active and passive NTP\&S activities only after the first \$100,000 of the year's NTP\&S revenues are fully allocated (100\%) to benefit ratepayers.
$\checkmark$ Liberty Park Water's activities: Liberty Park Water's NTP\&S activities are all active (requiring 10\% sharing).
- Cost allocation under new rules: Rule X.D defines how costs associated with NTP\&S activities must be allocated between regulated and unregulated accounts, generally requiring that "all incremental investments, costs, and taxes due to [NTP\&S] shall be absorbed by shareholders, i.e, not recovered through tariffed rates."
$\checkmark$
Liberty Park Water's cost allocations: Charges for NTP\&S activity consist of clearly identifiable incremental direct costs that are directly charged to unregulated accounts.
