Note 1: Pursuant to Alisal Water Corporation's last GRC, D.12-05-003 and Alisal's Advice Letter No. 157 (Rate Base Offset), Alisal's total operating revenues should have been \$8,597,831. However, due to the requirements of Senate Bill X7-7 (SBX7-7) and California Governor's Order No. B-37-16, "Making Water Conservation a California Way of Life", which require a minimum 20% water usage reduction in average per-connection water usage as compared to the 10-year average water usage per connection from 2001 to 2010, Alisal's successful compliance with those governmental requirements has resulted in a reduction of potable water sold of 333,871 CCF, or 17.26% as compared with its last GRC adopted quantities for potable water sales (1,934,600 ccf). Alisal's highly successful conservation efforts have come at a significant financial cost to Alisal, resulting in a reduction of \$831,539 in Alisal's 2024 total operating revenues that Alisal was authorized to collect pursuant to its last GRC and Advice Letter No. 157. From the time the conservation regulations took effect through the end of 2024, the financial loss to Alisal has been a cumulative total of <\$9,017,459>. This loss in Alisal's operating revenue is due to the highly successful ongoing conservation efforts that have been made in response to the required water usage reduction goals (a cumulative total of 3,620,597 ccf of water has been saved by Alisal and its customers for the State of California).

Excess Capacity and Non-Tariffed Services

NOTE: In D.00-07-018, D.03-04-028, and D. 04-12-023, the CPUC set forth rules and requirements regarding water utilities provision of non-tariffed services using excess capacity. These decisions require water utilities to: 1) file an advice letter requesting Commission approval of that service, 2) provide information regarding non-tariffed goods/services in each companies Annual Report to the Commission.

Based on the information and filings required in D.00-07-018, D.03-04-028, and D.04-12-023, provide the following information by each individual non-tariffed good and service provided in 2024:

Note 2: Per the direction of the UAFCB Staff in "Management Letter and Audit Report" dated September 13, 2018 and UAB summary of finding sent on October 2, 2024, Alisal Water Corporation has reported "Demand Notes" and outstanding "attorney fees" as Long Term Debt. Alisal Water Corporation does not agree with the reporting of Demand Notes as Long Term Debt and believes that Demand Notes are to be reported as Short Term Debt per the CPUC's USOA account 232. Alisal Water Corporation believes that the method of recording Demand Notes directed by UAFCB Staff may be in contradiction to previous Commission Decisions and/ or Resolutions. Additionally, Alisal Water Corporation does not agree with reporting of outstanding attorney invoices as Long Term Debt and believes that outstanding attorney invoices should be reported in accounts payable USOA account 231. Alisal Water Corporation believes that the method of reporting outstanding attorney invoices by UAB Staff may be in contradiction to PU Code 818, as attorney's invoices for legal services are not "notes, conditional sales contracts or other evidences of indebtedness payable more than one year from the date of issue." These invoices were paid in 2024.

Note 3: Per the direction of the UAFCB Staff in "Management Letter and Audit Report" dated September 13, 2018 and UAB summary of finding sent on October 2, 2024, Alisal Water Corporation has reported "Demand Notes" and outstanding "attorney fees" as Long Term Debt. Alisal Water Corporation does not agree with the reporting of Demand Notes as Long Term Debt and believes that Demand Notes are to be reported as Short Term Debt per the CPUC's USOA account 232. Alisal Water Corporation believes that the method of recording Demand Notes directed by UAFCB Staff may be in contradiction to previous Commission Decisions and/ or Resolutions. Additionally, Alisal Water Corporation does not agree with reporting of outstanding attorney invoices as Long Term Debt and believes that outstanding attorney invoices should be reported in accounts payable USOA account 231. Alisal Water Corporation believes that the method of reporting outstanding attorney invoices by UAB Staff may be in contradiction to PU Code 818, as attorney's invoices for legal services are not "notes, conditional sales contracts or other evidences of indebtedness payable more than one year from the date of issue " These invoices have heen paid in 2024

Note 5: Per the direction of the UAFCB Staff in its "Management Letter and Audit Report" dated September 13, 2018, Alisal Water Corporation has reported "Non Potable Water Sales" and "Water Revenue Accrual" as "Other Metered Revenues". Alisal Water Corporation reported these items separately in previous Annual Reports to provide additional details of water sales. A breakdown of Other Metered Revenues is summarized below:

Total	\$ 1,086,408
Non Potable Water Sales (per Tariff Schedule No.1-NP)	 23,401
Water Revenue Accrual	(26,388)
Surcharges	772,087
Institutional Sales (Schools)	311,431
Industrial Water Sales	\$ 5,878

Note 6: Other water revenue included reconnecting service fees (\$6,420), collection of the CPUC User Reimbursement fee (\$66,824) and Late Charge Income (\$223,061) as requested by the UAB during a recent Audit.

Note 7: Pursuant to Alisal Water Corporation's last GRC, D.12-05-003 and Alisal's Advice Letter No. 157 (Rate Base Offset), Alisal's total operating revenues should have been \$8,597,831. However, due to the requirements of Senate Bill X7-7 (SBX7-7) and California Governor's Order No. B-37-16, "Making Water Conservation a California Way of Life", which require a minimum 20% water usage reduction in average per-connection water usage as compared to the 10-year average water usage per connection from 2001 to 2010, Alisal's successful compliance with those governmental requirements has resulted in a reduction of potable water sold of 333,871 CCF, or 17.26% as compared with its last GRC adopted quantities for potable water sales (1,934,600 ccf). Alisal's highly successful conservation efforts have come at a significant financial cost to Alisal, resulting in a reduction of \$831,539 in Alisal's 2024 total operating revenues that Alisal was authorized to collect pursuant to its last GRC and Advice Letter No. 157. From the time the conservation regulations took effect through the end of 2024, the financial loss to Alisal has been a cumulative total of <\$9,017,459>. This loss in Alisal's operating revenue is due to the highly successful ongoing conservation efforts that have been made in response to the required water usage reduction goals (a cumulative total of 3,620,597 ccf of water has been saved by Alisal and its customers for the State of California).
