The purpose of this workshop is to facilitate the formation of a Reporting Requirements Manual and Administrative Costs Working Group as envisioned in the April 28, 2000 Assigned Commissioner Ruling (ACR) Regarding Standardization Of Reporting Requirements And Utility Administrative Costs For Low-Income Assistance Programs. It is not the intent of Energy Division to manage the Working Group or record the Working Group's proposals. Once formed the working group will propose modifications to the low-income assistance component of the Reporting Requirements Manual (RRM) to be used during the program year 2002 planning cycle and will be used by the utilities for reporting in their May 1, 2001 Annual Reports.

Interested participants should review the April 28, 2000 ACR for a full listing of the scope intended to be covered by the Working Group. A copy of the April 28, 2000 ACR is available on the library page of the Low Income Advisory Board's website at <http://www.liab.org> or a copy can be obtained by contacting Mike Rosauer of the Energy Division (phone 415-703-2579, e-mail fly@cpuc.ca.gov). Interested participants should be prepared to establish a schedule for completing the report envisioned by the April 28, 2000 ACR. The Energy Division requests that a utility member of the interested

participants agree to facilitate the Working Group and prepare the Working Group report that is due October 1, 2000.

The workshop is open to the public and is wheelchair accessible. Any questions about the meeting should be directed to Mike Rosauer of the CPUC Energy Division (phone 415-703-2579, e-mail fly@cpuc.ca.gov.)

----------------------------------	--

The Commission will conduct a workshop where persons interested in discovery practice at the Commission will have an opportunity to discuss their views on proposed changes or additions to the Commission's discovery rules in formal Commission proceedings. Prior to the workshop, it would be useful if interested persons have reviewed a conceptual discussion on this topic, as well as the cover letter to that discussion, which are both on the Commission's web site at http://www.cpuc.ca.gov/divisions/alj/alj_div_home.htm.

In addition to attending the workshop, persons may comment in writing no later than July 6, 2000, on the scope of the issues set forth in the conceptual discussion and whether they are sufficiently inclusive. At the workshop, interested persons will have a further opportunity to discuss their views on these issues and hear the concerns of others. The Commission is seeking these comments before considering a possible rulemaking to revise the Commission's discovery rules applicable in formal Commission proceedings.

There is currently no docket number to this matter. The service requirements for written

comments are set forth in the conceptual discussion. For further information contact Administrative Law Judge Janet A. Econome at (415) 703-1494.

own motion, into whether existing standards and policies of the Commission regarding drinking water quality adequately protect the public health and safety with respect to contaminants such as Volatile Organic Compounds, Perchlorate, MTBEs, and whether those standards and policies are being uniformly complied with by Commission regulated utilities.

Summary: THIS IS AN AUGMENTED NOTICE OF AN EX PARTE COMMUNICATION WHICH WAS FILED ON 6/26/00 AND APPEARED IN THE CALENDAR OF 6/28/00. On June 19, 2000, Evelyn Elsesser, counsel for Aerojet-General Corporation, Huffey Corporation, and Wynn Oil Company (Responding Parties), met with Geoffrey Dryvynsyde, advisor to Cmmr. Lynch, in San Francisco. Also present were: Barry Goode, counsel to Wynn Oil Company, and James Meeder, counsel to parties engaged in the related appellate action. Elsesser expressed the Responding Parties' views that the proposed decision (PD) could be further strengthened with clearer and more specific findings regarding the scope of the data examined in the Commission's review; the extent to which compliance with Department of Health Services (DHS) standards ensures that the water served by the utilities is not "harmful or dangerous" to health under General Order No. 103; the conclusions that may be drawn from the review of the 25 years of utility reporting data for periods during which there were no DHS standards in place; and the extent to which exceedances may occur without health impacts to the public. Elsesser suggested that further proceedings should be undertaken to examine the potential health impacts of the water utilities over the past 25 year. Goode suggested that, as drafted, the PD would cause confusion regarding the Commission's jurisdiction over water quality. Meeder emphasized his concerns about provisions of the PD pertaining to the potential liability of the water utilities, in particular, the PD's decision to leave open the question of whether a water utility could be held liable despite full compliance with Commission standards. Elsesser urged the Commission to accept further comments with the aim of further refining the analysis and supporting the proposed findings. Elsesser further urged the Commission to ensure that it fully exercises its jurisdiction in this proceeding.
