	A96-08-072	San Diego Gas & Electric Company, to estimate transition costs and establish a transition cost balancing account; prepared direct testimony attached.

Summary: On November 14, 1997, Robert Finkelstein, staff attorney for The Utility Reform Network (TURN), met with Cmmr. Duque, in San Francisco. Also present were: Michelle Cooke, advisor to Cmmr. Conlon, and representatives of Pacific Gas and Electric Company, San Diego Gas and Electric Company, Southern California Edison, and nearly all of the active parties in Phase 2 of this proceeding. (Augmentation, consisting of these parties' names and positions, required.) Finkelstein stated that TURN and the Utility Consumers Action Network (UCAN) support the proposed decision (PD) of ALJ Minkin and although they had minor concerns they would not object should the Commission adopt the PD unchanged. Finkelstein stated that the reduced return was not linked to accelerated

depreciation or any other single element of the transition ratemaking, but rather the general reduction in business risk that resulted from the promise that accelerated recovery of uneconomic investments would be made available to the utilities, and therefore the PD's implementation of the reduced rate of return should be adopted. Finkelstein stated that TURN and UCAN's support the PD's treatment of SONGS output. Lastly Finkelstein stated that Edison's claim of undue penalty to its shareholders from taking powerplant land used for non-utility purposes out of rate base pending further study must be weighed against the fact that Edison's customers have paid a rate of return on that non-utility property for an unspecified period, and urged that PD's adoption on this issue.
