	A96-12-011	San Diego Gas and Electric Company, for authority to unbundle rates and products, and
	A96-12-019	Southern California Edison Company, proposing the functional separation of cost components for energy, transmission and ancillary services, distribution, public benefit programs and nuclear decommissioning, to be effective 1/1/98 in conformance with D95-12-036 as modified by D96-01-009, the 6/21/96 ruling of assigned Commissioner Duque, D96-10-074, and AB 1890.

Summary: On November 17, 1997, Bruce Foster, Vice President, Regulatory Policy and Affairs for Southern California Edison Company (Edison), met with Cmmr. Conlon, in San Francisco. Also present were: James Hendry and John Scadding, advisors to Cmmr. Conlon; Michael Hoover, Edison's Manager of Regulatory Policy and Affairs; and Catherine Hackney, Edison's Manager of Public Affairs. Foster stated the necessity of delaying Commission action on ALJ Malcolm's opinion on Edison's Petition so that an alternate proposed decision could be put forth approving Edison's petition in three key areas: allocation of franchise fees, allocation of load dispatching costs, and disposition of the project development costs of the Devers to the Palo Verde Transmission Line (DPV2). Foster stated that although D97-08-056 allocated one-third of Edison's franchise fees to

generation, franchise fees having nothing to do with generation. Foster stated that by denying Edison's request for the full recovery of \$14.4 million for load dispatching activities, the Commission appears to expect Edison to provide ongoing services for the ISO without providing Edison a method to recover the majority of the costs necessary to fulfill those obligations. Foster stated that the FERC will not determine what costs should be considered distribution costs as the ALJ's opinion itself notes. Foster stated that the ALJ's opinion incorrectly rejects Edison's proposal to recover \$6.7 million through a one-time adjustment in the 1997 ERAM account, and incorrectly argues that DPV2 costs should be recovered through transmission rates and that Edison's proposal would result in the recovery of transmission costs through CTC.

Summary: On November 17, 1997, Bruce Williams, Principal Regulatory Project Administrator and Lisa J. Hubbard, State Regulatory Affairs Director both for San Diego Gas and Electric Company (SDG&E) attended an All-Party Meeting with Cmmrs. Knight, Bilas; Dorothy Duda and Robert Lane, advs. To Cmmr. Knight; and Julie Halligan, adv. to Cmmr. Bilas. The meeting was held at the Commission's offices in San Francisco. Attendees list is attached to this notice. Williams identified three areas of the proposed decision which SDG&E believes should be changed. The first area concerns the implementation date for the reduced rate of return for fossil generating assets. The second area concerns the recovery of must-run going-forward costs during the first 90 days of 1998. The third issue concerns the accounting mechanics for the must-run and non-must-run memorandum accounts ordered in the proposed decision.
