GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A Removed from the SB 960 category requirements.

SUBSCRIPTION INFORMATION

Subscription Notice for Draft Agenda Items

In compliance with Public Utilities Code Section 311.5, parties who wish to subscribe to receive draft agenda items may do so by writing to the Public Utilities Commission; Attention: Poly Arca, Room 1003; 505 Van Ness Avenue; San Francisco, CA 94102; or by calling (415) 703-1798. The cost for a one-year subscription to the entire public agenda package (which excludes Executive Session materials) is \$1,000. You may also order a partial agenda package (energy agenda items only or telecommunication agenda items only) at the cost of \$500 per year. The package you receive via mail will include only those agenda items available at the time of the agenda distribution date, which is usually 10 to 12 days prior to the Commission meeting. If agenda items (including revisions) are not ready on the distribution date, they will be made available at no charge in the lobby outside the Commission Auditorium at 9:00 a.m. on the morning of the Commission meeting, but not earlier.

Since the agenda package will be mailed to these locations, it will be available at these locations a day or two after the distribution date. 	I95-04-044	Investigation on the Commission's own motion into
		competition for local exchange service.

Summary: Summary:. THIS IS AN AUGMENTED NOTICE OF AN EX PARTE COMMUNICATION WHICH WAS FILED ON 6/9/98 AND APPEARED IN THE CALENDAR OF 6/15/98

On June 4, 1998, Karen Notsund, Western Region Director, for Teleport Communications Group (“TCG”), met with Jose Jimenez, advisor to Cmmr. Conlon, in San Francisco. Also participated via telephone Karen Potkul, Director for Legal and Regulatory Affairs, for Nextlink Communications, Inc. (Nextlink). Referring to TCG’s and Nextlink’s opposition to MediaOne Telecommunications of California, Inc.’s (MediaOne), emergency motion for immediate allocation of NXX codes, Notsund stated that TCG’s concerns that if MediaOne’s and other similar requests were granted, soon no codes would be left prior to implementation of area code relief in the particular NPA’s. Potkul explained that Nextlink had not asked for “me too” treatment because it did not believe this was an appropriate manner to allocate NXX codes.

6/23/98	A98-05-004	Pacific Gas and Electric Company, to establish the eligibility and seek recovery of certain electric industry restructuring implementation costs as provided for in Public Utilities Code Section 376.
	A98-05-006	San Diego Gas & Electric Company, for (1) a determination of eligibility for recovery under Public Utilities Code section 376 of certain cost categories and activities, (2) a finding of reasonableness of the costs incurred through 12/31/97, (3) approval of an audit methodology for verifying the eligibility of section 376 costs for recovery from 1998 through 2001, and (4) approval of a section 376 balancing account mechanism to recover eligible costs.
	A98-05-015	Southern California Edison Company, to address restructuring implementation costs pursuant to Public Utilities Code section 376, in compliance with Ordering Paragraph 18 of D97-11-074.

Summary: LATE FILED. On June 15, 1998, John Hughes, Southern California Edison Company (Edison) Regulatory Affairs Manager, met with Julie Halligan, advisor to Cmmr. Bilas, in San Francisco. Hughes stated that Edison’s estimates of restructuring implementation costs are already in nominal dollars. Hughes also stated that the methodology Edison used to develop escalation factors is consistent with that approved by the Commission. Hughes noted that because of various differences among Edison, Pacific Gas and Electric Company, and San Diego Gas & Electric Company, it would not be appropriate to apply a “one size fits all” approach by requiring each utility to use identical escalation rates.

6/25/98 A96-10-038 Pacific Enterprises, Enova Corporation, Mineral Energy Company, B Mineral Energy Sub, and G Mineral energy Sub, for approval of a plan of merger of Pacific Enterprises, and Enova Corporation with and into B Mineral Energy Sub (Newco Pacific Sub) and G Mineral Energy Sub (Newco Enova Sub), the wholly-owned subsidiaries of a newly created holding company, Mineral Energy Company.

Summary: On June 25, 1998, Lisa Urick, an attorney for Southern California Gas Company (SoCalGas), met with ALJ Barnett in San Francisco. SoCalGas' response (attached to the notice) to a letter submitted to Cmmrs. Neeper and Duque by Williams Gas Pipelines on June 17, 1998, was discussed. Urick stated that the auction protocol proposed by SoCalGas is consistent with D98-03-073, is very similar to the procedure used by the electric utilities for divestiture of their generation assets, and would maximize the value of the options, which the Commission has recognized would inure to the benefit of SoCalGas' shareholders.

Summary: On June 24, 1998, Sarah Smith, Southern California Edison (Edison) Company representative, left a phone message for David Gamson, advisor to Cmmr. Neeper. On the same date, June 24, 1998, Sarah Smith spoke to David Gamson. A letter (attached to the notice) addressed to Paul Clanon on April 21, 1998, was mentioned. Smith stated that she would provide a copy of the letter to David Gamson. Smith argued that the Energy Division misunderstands Edison's request in its advice letter 1298-E for a transmission revenue requirement reclassification memorandum account (TRRRMA). Smith explained that it is not Edison's intention to establish the rate credit approach, and that, rather, the TRRRMA, consistent with D97-05-056, will provide Edison only the opportunity, not the guarantee, of recovery, of distribution related costs, when and if they are deemed non-transmission cost

by the Federal Energy Regulatory Commission (FERC). Smith also explained that, to address retroactive ratemaking concerns, Edison requested the opportunity to record amounts in the TRRRMA beginning with the start of Direct Access. Smith stated that without the TRRRMA, Edison is at risk that its transmission revenue requirement is in place subject to refund, until such time as the FERC makes its final determination of the categorization of the cost in question.

6/29/98 A97-03-004 Pacific Bell, for approval of rate reductions to offset the explicit subsidy support ordered in D96-10-066.

Summary: On June 25, 1998, Rick Witherington, AT&T Communications of California, Inc. (AT&T) Government Affairs Vice President, met with Jose Jimenez, adv. to Cmmr. Conlon; Bob Lane and Dorothy Duda, adv. to Cmmr. Knight; Ann Watson, adv. to Cmmr. Duque; Fassil Fenikile, adv. to Cmmr. Neeper; and Lester Wong, adv. to Cmmr. Bilas in five separate meetings in San Francisco. William Harrelson, Regulatory Attorney for MCI Communications (MCI) was also present. A key point raised was that Switched Access prices remain the only rates that fully meet the Commission's criteria for permanent reduction as an offset to the recently created explicit Universal Service subsidy mechanism. Witherington and Harrelson said that the Proposed Decision errs in reducing Pacific Bell's IntraLATA toll rates while maintaining Switched Access rates at above-cost levels. They stated that market competition is the most effective mechanism for distributing benefits to end-users customers for competitive services. An outline of points and several charts contrasting the price, cost, and contribution were provided and are attached to the notice.

Summary: On June 24, 1998, Michael Hoover, Manager of Regulatory Policy and Affairs of Southern California Edison Company (SCE) met with Cmmr. Neeper in San Francisco. Bruce Foster, Vice President of Regulatory Policy and Affairs of SCE, and David Gamson, adv. to Cmmr. Neeper were also present. Hoover said that SCE intends to comply with the credit methodology the Commission establishes. However, SCE has been operating under the impression that in D97-05-039 the Commission established that credits would go to end-use customers, and has been modifying its systems to work with that directive. Hoover pointed out that if the Commission overturns its prior decision and requires that credits be paid directly to Energy Service Providers, there will need to be further system modifications and will not be able to implement by January 1, 1999, and that will result in increased costs.
