### GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q     **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A     **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS    **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A    Removed from the SB 960 category requirements.

## SUBSCRIPTION INFORMATION

### *Subscription Notice for Draft Agenda Items*

In compliance with Public Utilities Code Section 311.5, parties who wish to subscribe to receive draft agenda items may do so by writing to the Public Utilities Commission; Attention: Poly Arca, Room 1003; 505 Van Ness Avenue; San Francisco, CA 94102; or by calling (415) 703-1798. The cost for a one-year subscription to the entire public agenda package (which excludes Executive Session materials) is \$1,000. You may also order a partial agenda package (energy agenda items only or telecommunication agenda items only) at the cost of \$500 per year. The package you receive via mail will include only those agenda items available at the time of the agenda distribution date, which is usually 10 to 12 days prior to the Commission meeting. If agenda items (including revisions) are not ready on the distribution date, they will be made available at no charge in the lobby outside the Commission Auditorium at 9:00 a.m. on the morning of the Commission meeting, but not earlier.

In addition, the Commission will make draft agenda items available for viewing and photocopying (at 20 cents per page) at the Commission's Central Files Office (Room 2002), 505 Van Ness Avenue, San Francisco, and in the Los Angeles, San Diego, and the following field offices: El Centro, Eureka, Sacramento and San Bernardino. Since the agenda package will be mailed to these locations, it will be available at these locations a day or two after the distribution date. These locations will not receive agenda items that are not ready on the distribution date.

If an agenda item is held over to a subsequent Commission meeting, that agenda item and any revisions to that agenda item that were available on the morning of the initial Commission meeting (as well as any further available revisions) will be mailed in the Escutia package for the subsequent Commission meeting; the item and its revisions will also be available for viewing and photocopying in the Commission's Central Files Office and field offices as set forth above.

6/26/98            A97-11-004            Pacific Gas and Electric Company, to identify cost savings for revenue cycle services provided by other entities and to propose credits for end-use customers in such circumstances

**Summary:** On June 23, 1998, Sabrina Miller, Senior Regulatory Representative for Pacific Gas and Electric Company (PG&E), met with Robert Lane, advisor to Cmmr. Knight, in San Francisco. Also present was Jana Corey, Director, Regulatory Relations, PG&E. Miller stated that PG&E continues to support the original proposed decision (PD) allowing PG&E to provide a check to the end-user customer for billing credits. Miller argued that the revised PD was not specific about how PG&E would be required to allow an Energy

Service Provider (ESP), using consolidated billing, to identify the credits provided by PG&E and bill the customer accordingly. Miller stated that shifting the policy direction to applying credits to ESPs reflects a fundamental change in the relationship among the utilities, ESPs, and customers. Miller suggested that the issue of who should get the credits should have been addressed in the original scoping memo much earlier in order to implement a solution by 1999. Miller further stated that if the revised PD is voted out, PG&E would only be able to implement the decision by sending checks to ESPs. Corey stated that PG&E testified that sending credits to ESPs would require PG&E to do a significant amount of work on PG&E's current billing system, and that modifying the systems accordingly would have a substantial effect on other direct access systems work.

**Summary:** On June 25, 1998, Mona Petrochko of Enron, met with Cmmr. Bilas. Also present was Margaret Rostker, counsel for Enron. Petrochko described the difficulties power marketers face if the proposed decision (PD) is adopted, allowing Pacific Gas and Electric Company to issue advance lump sum checks for revenue cycle services directly to end-use customers instead of the agreed upon display of credits on end-user bills. Rostker noted the interference with commercial contracts the PD would cause if adopted.

Biennial Resource Plan Update (BRPU) Settlements.

**Summary: LATE FILED.** On June 16, 1998, Steven A. Kern, President of Kenetech Windpower, Inc. (KWI), James Eisen, former general counsel to KWI, and Alan Pedlar, bankruptcy counsel to KWI, attended a meeting with Cmmr. Conlon, James Hendry, adv. to Cmmr. The purpose of the meeting was to discuss the status of BRPU settlement negotiations between SDG&E and U.S. Gen and between SDG&E and KWI. De Rosa described the frustration of U.S. Gen and KWI with the progress to date regarding settlement with SDG&E, contrasting the status of the SDG&E BRPU settlements with the status of the Southern California Edison Company BRPU settlements. Tierney responded that SDG&E was not prepared to arbitrate or mediate the remaining disputes. Tierney promised a prompt response to KWI's latest settlement proposal, but indicated that, even if a settlement were achieved promptly, it would not be possible to combine such settlement with the presently pending application.
