GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A Removed from the SB 960 category requirements.

SUBSCRIPTION INFORMATION

Subscription Notice for Draft Agenda Items

In compliance with Public Utilities Code Section 311.5, parties who wish to subscribe to receive draft agenda items may do so by writing to the Public Utilities Commission; Attention: Poly Arca, Room 1003; 505 Van Ness Avenue; San Francisco, CA 94102; or by calling (415) 703-1798. The cost for a one-year subscription to the entire public agenda package (which excludes Executive Session materials) is \$1,000. You may also order a partial agenda package (energy agenda items only or telecommunication agenda items only) at the cost of \$500 per year. The package you receive via mail will include only those agenda items available at the time of the agenda distribution date, which is usually 10 to 12 days prior to the Commission meeting. If agenda items (including revisions) are not ready on the distribution date, they will be made available at no charge in the lobby outside the Commission Auditorium at 9:00 a.m. on the morning of the Commission meeting, but not earlier.

In addition, the Commission will make draft agenda items available for viewing and photocopying (at 20 cents per page) at the Commission's Central Files Office (Room 2002), 505 Van Ness Avenue, San Francisco, and in the Los Angeles, San Diego, and the following field offices: El Centro, Eureka, Sacramento and San Bernardino. Since the agenda package will be mailed to these locations, it will be available at these locations a day or two after the distribution date. These locations will not receive agenda items that are not ready on the distribution date.

If an agenda item is held over to a subsequent Commission meeting, that agenda item and any revisions to that agenda item that were available on the morning of the initial Commission meeting (as well as any further available revisions) will be mailed in the Escutia package for the subsequent Commission meeting; the item and its revisions will also be available for viewing and photocopying in the Commission's Central Files Office and field offices as set forth above.

| 6/30/98 | A97-11-004 | Pacific Gas and Electric Company, to identify cost savings for revenue cycle services provided by other entities and to propose credits for end-use customers in such circumstances. |
|---------|------------|--|

Summary: On June 25, 1998, Sabrina J. Miller, Senior Regulatory Representative, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Julie Halligan, adv. to Cmmr. Bilas, in San Francisco. Jana R. Corey, Director, Regulatory Relations,

PG&E was also present. Miller stated that PG&E supports the original proposed decision allowing it to provide a check to the end-use customer for billing credits. Miller also stated that the revised proposed decision was not specific about how PG&E would be required to allow an Energy Service Provider (ESP), using consolidated billing, to identify the credits provided by PG&E and bill the customer accordingly. She added that modifying PG&E's billing systems to allow credits would divert PG&E resources and affect other direct access priorities. Miller stated that shifting the policy direction to applying credits to ESPs reflects a fundamental change in the relationship among the utilities, ESP, and customers. Miller said that the issue of who should get the credits should have been addressed in the revenue cycle services proceeding's original scoping memo in order to implement a solution by 1999. Miller further stated that if the revised proposed decision is voted out, PG&E would only be able to implement the decision by sending checks to ESPs. Corey stated that PG&E would be willing to develop ways of working around its 1999 billing limitations. She added that PG&E did testify in the proceeding that sending credits to ESPs, would require PG&E to do a significant amount of work on PG&E's current billing system, and that modifying the system accordingly would have a substantial affect on other direct access systems work.

Summary: On June 25, 1998, Jana R. Corey, Director, Regulatory Relations, Pacific Gas and Electric Company (PG&E), communicated with Michelle Cooke, adv. to Cmmr. Duque, in San Francisco. Corey stated that PG&E supports the original proposed decision allowing it to provide a check to the end-use customer for billing credits. Alternatively, the revised proposed decision would allow an ESP to identify the credits provided by PG&E and bill the customer accordingly. The revised proposed decision was not specific about how PG&E would be required to implement this billing option. She said that if the revised proposed decision is adopted, PG&E would be able to provide check to ESP for credits, similar to the process of providing checks to the end-use customer.

Weil said that TURN and UCAN will oppose granting any second opportunity; TURN and UCAN do not propose early resolution of the legal issue.
