GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A Removed from the SB 960 category requirements.

The package you receive via mail will include only those agenda items available at the time of the agenda distribution date, which is usually 10 to 12 days prior to the Commission meeting. 7/13/98 A96-08-001 Pacific Gas and Electric Company, for approval of valuation and categorization of non-nuclear generation related sunk costs eligible for recovery in the competition transition charge.

Summary: On July 8, 1998, Pacific Gas & Electric (“PG&E”) representative Jana Corey and two other PG&E agents initiated oral ex parte communications with Michelle Cooke, advisor to Commissioner Duque and David Gamson, advisor to Commissioner Neeper. PG&E conveyed their view of AB 1890 sections 369, 372, and 374 regarding competitive transition costs (CTC), and that if any use is made of PG&E facilities, direct or indirect, that CTC’s apply. PG&E representative Rubin stated sec. 369 applies CTC responsibility to all “existing and future consumers” in the service territory, and that it would be unfair to existing customers if new loads were allowed to evade CTC responsibility just by sitting adjacent to non-utility generating plants connected to PG&E’s grid. PG&E also discussed the consequences of the “no use” provision of section 369 and that the “contract only” theory would not work for self-generation because there is no purchase and sale.

7/15/98 A97-12-048 Southern California Gas Company, for authority to unbundle core interstate pipeline transportation.

Summary: On July 10, 1998, Enron Corporation. (“Enron”) represented by Jeffrey Dascovich and James W. McTarnaghan conveyed an oral ex parte communication to Commissioner Knight and advisor Duda during an all party meeting initiated by Office of Ratepayer Advocates (“ORA”) to discuss a proposed settlement offered in May, 1998. Sixteen other parties were in attendance (as listed in previous calendars). Enron expressed opposition to the settlement and Southern California Gas’ (“SoCalGas”) approach to unbundling as presented in A97-12-048, and further that the settlement unduly focused on

cost allocation issues and ignored the unbundling issues that should be the focus of this proceeding. Enron stated their proposal would provide for gradual release of all of SoCalGas' reserved core capacity over the next 24 months, and that this proceeding should not prejudice issues in Natural Gas Strategy proceeding R98-01-011.

A97-12-039

San Diego Gas & Electric Company, for authority to sell electrical generation facilities and power contracts.

Summary: On July 13, 1998, Sempra Energy ("Sempra") representatives engaged in ex parte communications with Commissioners Bilas and Conlon their advisors, Ann Watson and James Hendry respectively. The meeting was in Commissioner Bilas' office at PUC headquarters. The communications consisted of an oral presentation accompanied by a one page exhibit. Sempra representatives Lisa Hubbard and Bruce Williams stated is imperative the Commission issue an interim decision approving the auction process proposed in A97-12-039 prior to San Diego Gas & Electric (SDG&E) receiving bids in the first stage of the auction process. Sempra conveyed that the two fossil issues have been resolved and that hearings on that matter are no longer required. Sempra's written exhibit was headlined "SDG&E Generation Divestiture," with the two subheadings entitled "Interim Decision Approving Auction—Critical" and "Modify June 5 ACR."
