GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A Removed from the SB 960 category requirements.

7/22/98 A98-05-024 Southern California Edison Company, for consideration of unbundled rate of return on common equity, capital structure, cost factors for embedded debt and preferred stock, and overall rate of return for utility operations

Summary: On July 21, 1998, 17, 1998, John Hughes, Regulatory and Policy Affairs manager of Southern California Edison (“Edison”) communicated ex parte to Michelle Cooke, advisor to Commissioner Duque. Mr. Hughes sent Ms Cooke a copy of its “Response to ORA’s Motion to Compel Production” and then followed up with a telephone call to the advisor. Mr. Hughes stated ORA had requested information about two of Edison’s non-regulated affiliates in relation to the Cost of Capital proceeding, and that Edison did not respond because (1) the request had nothing to do with the Cost of Capital proceeding, and (2) the request was related solely to an employee compensation issue for those affiliates. Mr. Hughes concluded by saying Edison customers were fully insulated from the activities of the affiliates, and that the Motion to Compel should therefore be denied.

Mrs. Pascoe, the company’s Director of Regulatory Numbering and Ms Mowery, Director of Regulatory Relations, conducted a ten (10) minute telephone call to express PacBell’s concern to Mr. Fenikile that the draft decision of the Media One emergency motion seems to pre-judge the outcome of potential numbering code lottery process revisions. Mrs. Pascoe added that the lottery process might be reviewed more completely within the larger numbering conservation proceeding also pending before the Commission.
