GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

7/22/98 A98-01-008 Pacific Gas and Electric Company, for authority to sell Hunters Point, Potrero, Pittsburg, and Contra Costa Power Plants and Geysers geothermal power plant and related assets.

Summary: On July 17, 1998, Leslie Everett, Vice President and Project Manager—Divestiture, of Pacific Gas & Electric (“PG&E”), communicated by ex parte letter to all five (5) commissioners, the commissioners’ energy advisors, and Administrative Law Judge (“ALJ”) Careaga (with “cc” to all parties of record). The ex parte letter was a page and a half in length and notified the commission of PG&E’s filing to amend its pending § 851 application to sell five (5) power plants (Hunters Point, Potrero, Pittsburg, and Contra Costa fossil plants and the Geysers geothermal plant). The letter reports an agreement between PG&E and the City and County of San Francisco regarding the contentious issues surrounding PG&E’s intended auction of the Hunters Point plant. The letter further states the agreement was signed by San Francisco Mayor Brown and PG&E President and CEO Gordon Smith. The letter reports the agreement requires the approval of the City’s Public Utilities Commission on or before October 15, 1998 and additional approval by the Board of Supervisors. Finally, the letter indicates PG&E is planning to receive final bids on the Hunters Point plant sale on October 30, 1998, and urges the Commission to grant expedited, ex parte treatment to the above agreement.

7/23/98 A97-12-048 Southern California Gas Company, for authority to unbundle core interstate pipeline transportation.

Summary: On July 20, 1998, Lisa G. Urick of Southern California Gas Company (“SoCalGas”) submitted written ex parte communications to Commissioner Knight and advisor Dorthy Duda and, in addition, provided “cc” to all other commissioners, administrative law judge (“ALJ”) Malcolm, and “all parties of record in A.97-12-048.” The ex parte notice indicates the written (ex parte) supplemental information was requested by Commissioner Knight at the all party meeting on July 10, 1998. In addition to a half page cover letter, the provided supplemental information was four (4) pages in length and comprised five (5) major subdivisions entitled as follows: (1) “The Commission should

adopt the settlement in A.97-12-048;” (2) “Unbundling Interstate Capacity Costs;” (3) “Cost Allocation;” (4) “Consistent with Commission Settlement Standards;” and (5) “Appropriate Scope and Focus of the Proceeding A.97-12-048.”

Summary: On July 20, 1998, Enron counsel James W. McTarnaghan conducted written ex parte communications to Commissioner Knight and advisor Dorothy Duda in the form of a letter and three (3) page enclosure. The letter stated it was in response to Commissioner Knight’s invitation of July 10, 1998 at the all party meeting to submit position papers on (1) the settlement, (2) scoping issues, and (3) the proceeding’s interplay with the Natural Gas Strategy. Enron’s enclosure detailed their positions on the first and third issues, but indicated they took no position on the scoping issue. As to the first, Enron cited numerous reasons why the Southern California Gas Company’s proposed settlement should be rejected and Enron’s proposal be adopted. As to the third, Enron stated its proposal was the only one that does not infringe upon the Natural Gas Strategy and lacking adoption of that proposal, the Commission should defer its decision until the issue can be addressed in the context of that strategy. In Mr. McTarnaghan’s letter, it was indicated all parties on the proceeding’s service list were provided copies of the letter with enclosures.

Summary: THIS IS AN AUGMENTED NOTICE OF AN EX PARTE COMMUNICATION WHICH WAS FILED ON 7/16/98 AND APPEARED IN THE CALENDAR OF 7/20/98

On July 10, 1998, Indicated Producers (“IP”) representative Alexis K. Wodtke and sixteen (16) other parties met with Commissioner Knight and advisor Dorothy Duda for all party meeting initiated by the Office of Ratepayer Advocates (“ORA”) to discuss a proposed settlement. In its notice of ex parte communications, IP stated no written materials were used and that oral communications were conveyed reflecting concern about the settlement agreement’s allocation to non-core customers of costs associated with capacity reserved for the use of core customers. This result, stated by Ms Wodtke, would be inconsistent with previous Commission decisions in which capacity costs were assigned to customers who had the beneficial use of that capacity.

Summary: On July 20, 1998, MediaOne Telecommunications of California, Inc. (“MediaOne”) representatives engaged in oral ex parte communications with Mr. Jose Jimenez, advisor to Commissioner Conlon. The communications occurred during a meeting

at PUC headquarters initiated by MediaOne representative John Gutierrez, the company's Director of Regulatory Affairs. Also attending was Jeremy Stern, Vice President of Corporate and Legal Affairs. MediaOne discussed the need for prompt action on the Commission's order to modify the lottery process for allocation of "NXX" codes. MediaOne stated it is important that the Commission act within 30 days and that it should consider whether residential service providers be given priority in the lottery.

Summary: On July 20, 1998, the ICG Telecom Group, Inc. ("ICG") conducted three consecutive ex parte sessions with CPUC officials as follows at the Commission's headquarters. The filed ex parte notice indicated both oral and written communications were conveyed and that ICG was filing the notice on behalf of the "Rights-of-Way Coalition" in the "rights-of-way" phase of R95-04-043/I95-04-044. In addition to ICG counsel, Nick Selby, present at the sessions for the coalition were Rick Witherington and Rhett Currier of AT&T Communications of California, Inc. and Tony DiTirro of MCI Telecommunications Corp. Thirty (30) minute sessions conveying the same subject matter were reported with: (1) Commissioner Duque and advisor Tim Sullivan; (2) Lester Wong, advisor to Commission President Bilas; and (3) Dorothy Duda and Robert Lane, advisors to Commissioner Knight. In each session, the coalition urged the Commission to approve ALJ Pulsifer's recently issued Revised Draft Decision ("RDD") without delay. The coalition cited and then praised the significant changes in the RDD from the contents of the earlier draft decision. Other issues were identified which were stated to require further attention in the future. A page and a half written handout was provided in each session, and was attached to the notice. The introductory headline of the handout read: "The Coalition favors adoption of the RDD with no changes."

Summary: On July 21, 1998, Pacific Bell's ("PacBell") Director of Regulatory Relations, Lynn Mowery, placed a 10 minute ex parte telephone call to Commissioner Conlon's advisor, Jose Jimenez. In regard to the Media One emergency motion, Ms Mowery referred Mr. Jimenez to the current draft decision, page nine of the discussion, as well as ordering paragraph two. She noted PacBell's concern that the current draft decision promotes opportunities for new entrants in a way that may pre-judge the outcome of any lottery changes. Ms Mowery stated PacBell believed this issue should be covered as part of the larger code conservation issue and that attempting to fix the lottery alone does not resolve the larger problems caused by code unavailability.

7/23/98	A98-01-008	Pacific Gas and Electric Company, for authority to sell Hunters Point, Potrero, Pittsburg, and Contra Costa Power Plants and Geysers geothermal power plant and related assets.
---------	------------	---

Summary: On July 21, 1998, three (3) Pacific Gas and Electric (“PG&E”) representatives met with Commissioner Knight and advisor Dorothy Duda at PUC Headquarters, San Francisco, in a meeting initiated by PG&E. Ex parte communications were oral. PG&E attendees were Kristel L. Frank, Director of Regulatory Relations, Leslie Everett, Vice President and Project Manager (Divestiture), and attorney Joe Malkin, attorney. PG&E reported Unocal holds a right of first refusal on the sale of the Sonoma County geothermal units per the steam supply agreement previously approved by CPUC. PG&E further reported they were advised by experts that right could deter bidders from participating in the auction and that the inclusion of a breakup fee would mitigate its effect. Other factors were conveyed on the breakup fee issue, including Unocal’s opposition to the breakup fee and the fee’s importance for geothermal assets. The further issue of the Hunters Point power plant was discussed, and PG&E’s agreement with the City and County of San Francisco in that regard. Certain terms of that agreement were discussed, with PG&E stating that the agreement is contingent upon approval of the ratemaking treatment by CPUC.

Summary: On July 20, 1998, three (3) Pacific Gas and Electric (“PG&E”) representatives met at PUC Headquarters with James Hendry, advisor to Commissioner Conlon. Ex parte communications were oral, and after the meeting PG&E faxed Mr. Hendry seven (7) pages from the purchase and sale agreement originally filed in PG&E’s application.. PG&E attendees were Kristel L. Frank, Director of Regulatory Relations, Leslie Everett, Vice President and Project Manager (Divestiture), and attorney Joe Malkin, attorney. PG&E cited the commission’s earlier decision that the Master Must-Run agreement must be completed substantially in the form approved by the Federal Energy Regulatory Commission (“FERC”). Mr. Malkin stated PG&E had revised its purchase and sale agreement to require the sale be conditioned on the buyer accepting PG&E’s must-run agreements or approval by FERC of the same must-run agreements for the new buyer. Ms Frank stated if this matter were held from the decision it could be detrimental to the auction, and she therefore urged the Commission to make the sale closing conditioned on either factor. She further stated this would be consistent with the Southern California Edison power plant sales. The seven page fax transmitted after the meeting included excerpts from “Attachment A-1 (Form of Purchase and Sale Agreements for Fossil Generating Plants)” and “Attachment A-2 (Form of Purchase and Sale Agreements for Geysers Geothermal Facility)” from the original application.
