GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A Removed from the SB 960 category requirements.

The package you receive via mail will include only those agenda items available at the time of the agenda distribution date, which is usually 10 to 12 days prior to the Commission meeting. Pacific Gas and Electric Company, for authority to sell Hunters Point, Potrero, Pittsburg, and Contra Costa Power Plants and Geysers geothermal power plant and related assets.

Summary: LATE FILED. On July 21, 1998, Union Oil Company of California (“Unocal”) and Thermal Power Company representatives conducted oral ex parte communications in San Francisco with PUC officials in three (3) consecutive sessions as follows: (a) in person with Commission President Bilas, (b) in person with Commissioner Knight and advisor Dorothy Duda, and (c) by telephone with Commissioner Conlon and advisor James Hendry. In each session, the representatives explained that Pacific Gas & Electric’s (“PG&E”) proposed breakup fee is neither necessary nor reasonable. It was stated that the only CPUC precedent and relevant evidence, that pertaining to the El Segundo sale, supports the position that the breakup fee is unnecessary. Administrative Law Judge (“ALJ”) Careaga’s proposed decision should be approved, the parties stated, because it balances all arguments regarding the breakup fee. The parties raised additional points with Commissioner Knight, including the matter of the right of first refusal, the unreasonableness of a \$2 million breakup fee, and challenging PG&E’s assertion that due diligence on geothermal plants is more expensive than due diligence on other types of plants.

Summary: On July 22, 1998, Pacific Gas & Electric Company (“PG&E”) engaged in ex parte communications in the form of a telefax sent to Dorothy Duda, advisor to Commissioner Knight. PG&E’s representative, Leslie Everett (company Vice President and Project Manager (Divestiture)), sent the one (1) page backgrounder to Ms Duda entitled “Break-Up Fee.” “PG&E believes that a break-up fee will result in a more robust auction leading to a higher sales prices for the Sonoma County units..” is stated near the top of the paper with seven (7) supporting contentions. “Why should the ratepayers fund the break-up fee?” is asked near the bottom of the paper with one (1) supporting contention, including “The break-up fee benefits ratepayers because it creates a higher sales price...”

7/27/98 R95-04-043 Rulemaking on the Commission's own motion into competition for local exchange service, and
 I95-04-044 Investigation on the Commission's own motion into competition for local exchange service.

Summary: On July 24, 1998, David A. Simpson representing Teligent, Inc. ("Teligent") conducted oral and written ex parte communications with Jose Jimenez, advisor to Commissioner Conlon. The communications occurred at CPUC headquarters, San Francisco. Mr. Simpson urged the Commission to include wireless competitive local carriers ("CLC") within the right-of-way ("ROW") access rules and to ensure non-discriminatory access for all providers. Teligent's written communications consisted of a four (4) page handout entitled "Draft Decision on Right-of-Way Access." The four major sections therein were: "I. The proposed right-of-way...access rules should apply equally to both wireless and wireline competitive local carriers." II. The DD fails to ensure nondiscriminatory access to ROW within buildings. III. The DD fails to adopt a presumption that private easements permit access by third parties. IV. The DD's definition of 'right of way' is not meaningful.

7/28/98 A97-12-048 Southern California Gas Company, for authority to unbundle core interstate pipeline transportation.

Summary: On July 23, 1998, the California Industrial Group and California Manufacturers Association ("CIG/CMA") communicated ex parte to Commissioner Knight. The written communication was a follow up to an all party meeting conducted July 10, 1998 in which parties were invited to further provide written inputs. Representing CIG/CMA, Keith R. McCrea's letter of July 23, 1998 to Commissioner Knight contained two (2) attached pages entitled "Why should the commission adopt the settlement?" and "What is the appropriate scope of proceeding?" In the former, the introductory sentence includes the statement: "Unbundles core capacity and provides core customer with the same competitive options available to noncore customers..." In the latter, one statement reads "Narrowing the scope of issues at this late date as suggested by the ALJ would unnecessarily deprive the Commission of a reasonable resolution of long-standing and controversial issues." In the cover letter, "cc" indicated distribution of the communication to "All Parties."
