GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

Investigation on the Commission's own motion into competition for local exchange service.

Summary: On August 4, 1998, Pacific Bell ("PacBell") during a 10 minute meeting at CPUC conducted oral ex parte communications with Lester Wong, advisor to Commission President Bilas. David Discher, general attorney, conveyed to Mr. Wong that the draft decision on resale of voice mail is in error because it assumes that PBIS is already selling directly to CLEC end users. Mr. Discher explained that the Commission should conclude that the message recording market is competitive and decide now that resale of voice mail is not necessary; alternatively, if there are to be hearings, they should not be limited solely to the issue of CLEC self-provisioning.

Summary: On August 3, 1998, Pacific Bell ("PacBell") representatives engaged in oral and written ex parte communications with several PUC advisors and staff during a one hour meeting at CPUC initiated by PacBell. PacBell attendees were William Blase, (Vice President (Regulatory)), Mike Bennett (Director, Numbering, SBC), and Margaret Pascoe, (Director (Regulatory Numbering)). Mr. Bennett shared numbering data regarding area codes in California and PacBell's concerns regarding the lottery process. He added that original concerns regarding overlays have been resolved.

Ms. Pascoe suggested that the current code conservation proceeding workshops might be more collaborative if all communications carriers were required to provide utilization data and number conservation measures. Three (3) pages of written handouts were provided PUC members: (1) a multi-column paper entitled "Relief Summary" as of 8/3/98 designated by "area code," (2) a graph entitled "lottery results," and (3) another graph entitled "Pacific Bell NXX code requests in lottery."
