GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

Summary: On August 18, 1998, Russell Worden, Regulatory Affairs Manager for Southern California Edison Company (Edison), had a telephone conversation with Michelle Cooke, advisor to Cmmr. Duque. Worden referred to a scoping memo in the Pacific Gas

and Electric (PG&E) electric cost adjustment clause (ECAC) application A98-04-003, stating that “[w]e conclude that this SoCalGas issue is not appropriate for this PG&E ECAC proceeding, and will not consider it”. Worden stated that SoCalGas had also made this argument in Edison’s subject application. Worden expressed his hope that the imminent proposed decision in A97-12-043 would similarly reject SoCalGas’ position in a manner consistent with the ruling on SoCalGas’ issue in the scoping memo.

Summary: On August 20, 1998, Pac-West Telecomm, Inc., sent an ex parte letter to Commissioner Conlon and provided copies of the letter to the other four (4) commissioners. The page and a half letter was signed by John L. Clark and entitled “Payment of Reciprocal Compensation for Internet service providers (“ISP”) Traffic.” The letter states that the reciprocal competition issue continues to be a stumbling block to effective negotiation of interconnection agreements and that the expeditious issuance of an order requiring the payment of compensation is vital. Mr. Clark additionally pointed out that the Federal Communications Commission (“FCC”), numerous state commissions, and several district and state courts have found such payments to be required. The letter also cites an Eighth Circuit Court of Appeals decision of August 19, 1998 upholding an FCC ruling exempting ISP traffic from interstate access charges. In the letter’s final paragraph, Mr. Clark urges the Commission to expeditiously issue an order “requiring Pacific Bell and GTEC to pay reciprocal compensation for calls to ISPs” and that such an order would be vitally important and eminently reasonable.

Summary: On August 19, 1998 attorney David B. Follett representing Southern California Gas Company (“SoCalGas”) conducted an ex parte telephone call with Administrative Law Judge (“ALJ”) Robert Barnett. Mr. Follett advised the ALJ that Kern/Mojave had not yet responded to SoCalGas’ request for information regarding the original cost and depreciated book value of the California portion of the Kern/Mojave pipeline. The SoCalGas

representative further stated that such information is not available in public records, and that it should be available to potential bidders to assist them in assessing the value of the options. Mr. Follett additionally advised ALJ Barnett that the August 10, 1998 assigned commissioners' ruling did not address the issue notwithstanding the earlier declaration of Jeffrey K. Hartman outlining the need for the information. Inasmuch as the revised auction protocol has been posted on SoCalGas' website, the value of the requested information to potential bidders was quickly slipping away according to Mr. Follett's comments. In concluding, the SoCalGas representative stated the ALJ's assistance may be necessary on an expedited basis in order to obtain the information from Kern/Mojave.
