## GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

9/3/98            A98-05-033            Southern California Edison Company, for approval of contract amendments necessitated by industry restructuring between Southern California Edison Company and AES Placerita, Brea Power Partners, Kern River Cogeneration Company, Midway Sunset Cogeneration, OLS-Camarillo, OLS-Chino, Ontario Cogeneration, Sycamore Cogeneration, and Watson Cogeneration.

**Summary:** On September 1, 1998, Russell Worden, Regulatory Affairs Manager for Southern California Edison Company (Edison), met with Cmmr. Neeper in San Francisco. Also present was David Gamson, advisor to Cmmr. Neeper. Worden stated that, through discovery, Edison provided the Office of Ratepayer Advocates (ORA) with a forecast of Standard Offer 1 prices for electricity, subject to the confidentiality restrictions of Public Utilities Code section 583. Worden stated further that four of the affected qualifying facilities (QFs) sought this forecast from the ORA. Worden explained that if the QF were to obtain Edison's energy price forecast, Edison's ability to negotiate effectively on behalf of its customers would be compromised. Worden emphasized that Edison has explained in its application why reliance on the forecast as an analytical tool is problematic with respect to these amendments. Worden expressed hope that the Commission would not compel Edison to release this forecast as disclosure of this confidential information would be harmful to Edison's customers.

9/9/98            A97-07-015            Southwest Gas Corporation, to modify the terms and conditions of the certificate of public convenience and necessity granted in D95-04-075 to provide natural gas service in areas of El Dorado, Nevada, and Placer Counties.

**Summary:** THIS IS AN AUGMENTED NOTICE OF AN EX PARTE COMMUNICATION WHICH WAS FILED ON AND APPEARED IN THE CALENDAR OF September 9, 1998. On September 1, 1998, Southwest Gas Corporation ("Southwest") conducted oral ex parte communications at CPUC with Commission President Bilas and his

advisor, Julie Halligan. This meeting was initiated by Southwest’s Senior Vice President (Regulation & Product Pricing) Edward S. Zub. Several topics were discussed, including: (a) Southwest’s filings since decision D-98-07-031 was handed down, (b) the Town of Truckee’s lack of formal participation in this proceeding; and ( c ) the impact Southwest’s position has had and will have on potential customers in Truckee. Mr. Zub requested President Bilas’ support for Southwest’s application for rehearing and motion to stay decision D98-07-031. Mr. Zub advised the Commission President that Southwest is considering a new filing in light of D98-07-031, which includes a new application with the Commission addressing the economic feasibility of completing the expansion in Truckee, an appeal to the California Supreme Court if the application for rehearing is denied and the intended initiation of civil litigation involving the recovery of cost overruns caused by the town of Truckee . Mr. Zub further asserted the town’s lack of formal participation in this proceeding and the resultant inability of Southwest or the Commission to address the town’s concerns, and the financial impact this will have on potential customers in Truckee. Finally, Mr. Zub briefed the Commission President on the terms and conditions of Southwest’s last offer to Truckee, and the company’s commitment to address actual costs incurred by potential customers, including the loss of potential savings resulting from the conversion to natural gas.

**Summary:** On September 4, 1998, Southwest Gas Corporation’s (“Southwest”) Vice President for Regulation & Product Pricing, Edward S. Zub, met ex parte with Commissioner Neeper at CPUC. The meeting was initiated by Mr. Zub. Oral communications were conducted. The Southwest official advised Commissioner Neeper of potential filings Southwest is considering because of the Commission’s decision in D98-07-031. Those include a new application addressing the economic feasibility of completing the expansion in Truckee, an appeal to the California Supreme Court if the application for rehearing is denied, and the intended initiation of civil litigation involving the recovery of cost overruns caused by the town of Truckee. Mr. Zub stated his concern regarding the Commission’s ability to include entities as parties in PUC proceedings, and the Commission’s disposition to rule in a proceeding when an entity that has an interest in the proceeding decides not to become a party to the proceeding. The Notice of Ex Parte Communications further states: “Mr. Zub did not discuss Southwest’s pending application for rehearing or motion to stay Decision (D.) 98-07-031.”

9/10/98            A98-05-037            Island Navigation Company, Inc., for authority to

increase rates of fare and for an ex parte interim order authorizing the same.

**Summary:** LATE FILED.

On September 3, 1998, an attorney for Island Navigation Company, Inc., (“Island”) engaged in written ex parte communications with Commissioner Duque. In the page and a half letter, Jose E. Guzman, Jr., of Nossaman, Guthner, Knox & Elliott, LLP, asked that the Commission act soon on the rate increase application because Island lost \$270,000.00 in the last fiscal year. Mr. Guzman said much of that loss was because the Commission granted interim authority to competitor Santa Catalina Island Company and did so without hearings and despite protests. Mr. Guzman further expressed dissatisfaction that Island’s request for cross channel authority submitted last October was not acted upon for 600 days by the Commission while other Catalina carriers had their requests acted upon within 100 days or so. Mr. Guzman suggested Island’s present interim request to increase rates should be acted upon soon, else it would suffer the same fate. Mr. Guzman concludes “...the regulatory process seems to be working just fine for everyone except Island Navigation. Can something be done, please?” Attached to the letter was a two page paper entitled “Catalina Island Carriers” which was submitted to the Commission on October 17, 1997 in conjunction with Island’s displeasure over the Commission’s failure as of that date to have acted on their application. Both the letter and two page paper were attached to the Notice of Ex Parte Communication.
