GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

---	---

The Telecommunications Division of the California Public Utilities Commission will be holding a technical workshop on the efficient utilization of numbering resources. Number pooling offers the potential to reduce NXX demand by enabling multiple carriers to share numbers from a single NXX code. A workshop is scheduled to initiate a plan to implement number pooling within California in cooperation with the program underway at the national level. The October 16, 1998 second workshop will further address the formation of a number pooling task force and develop administrative protocol for the ongoing operation of the Task Force and for the submission of progress reports to the Commission. Proposals regarding voting membership and mechanisms, and what constitutes consensus of the Task Force, should be E-mailed to all participants by October 9, 1998, so participants will have time to review all proposals. Participants should come prepared to adopt a definition of consensus and rules regarding voting membership and mechanisms at the October 16, 1998 meeting. Commission staff will E-mail a participants list to all concerned by October 2, 1998. Participants must E-mail their proposals to everyone on the participants list by October 9, 1998. Any persons interested in being included on the participants list who were not in attendance at the September 25, 1998 meeting should contact Mary Jo Borak, at 415/703-1879, Email: BOR@CPUC.CA.GOV or Risa Hernandez at 415/703-5331, Email: RHH@CPUC.CA.GOV

Participants should come prepared to nominate persons to the Task Force, and adopt self-governance rules regarding voting membership and mechanisms. Following the adoption of the above matters, the Task Force will then begin its work dealing with the substantive issues associated with implementing number pooling in California. If you plan to attend the October 16, 1998 workshop please RSVP by October 14, 1998 to Mary Jo Borak, at 415/703-1879, Email: BOR@CPUC.CA.GOV or Risa Hernandez at 415/703-5331, Email: RHH@CPUC.CA.GOV

- 9/30/98 A98-04-030 Preferred Transportation, Inc. and Tamarack Transportation, Inc., to transfer and SuperShuttle International, Inc. to acquire Preferred Transportation, Inc. and Tamarack Transportation, Inc.

Summary: On September 28, 1998, attorney Thomas J. MacBride, Jr., on behalf of SuperShuttle initiated a telephone conversation with Jose Jimenez, advisor to Commissioner Conlon. Mr. MacBride said it was imperative that a decision granting SuperShuttle's application be placed on the Commission's agenda as soon as possible, that the application had been on file five (5) months, and that no party had ever questioned the fitness of SuperShuttle to acquire and operate Preferred Transportation, Inc. or Tamarack Transportation, Inc. He said the pending objection was based on the erroneous assumption that the parties had already consummated the transaction in issue, and that declarations under penalty of perjury had been executed by officers of all three (3) applicants to that effect. Therefore, Mr. MacBride stated, there was no reason to hold up the application and that it should be granted ASAP.

Summary: On September 28, 1998, Roseville Telephone Co. ("Roseville") representatives initiated oral and written ex parte communications at CPUC with Commissioner Conlon and his advisor, Jose Jimenez. Representatives Michael D. Campbell and Greg R. Gierczak stated that the Office of Ratepayer Advocates ("ORA") has not demonstrated that this is an appropriate time for a verification/nonregulated operations audit, and that Roseville objects to the scope and cost of ORA's proposed audit. They handed out five (5) briefing sheets to the PUC officials, four (4) of which contained Roseville's point by point rebuttals to various ORA contentions regarding the proposed audit, and a fifth sheet depicting responses to requests for proposals on selection of an audit firm.

- A96-08-072 San Diego Gas & Electric Company, to estimate transition costs and establish a transition cost balancing account; prepared direct testimony attached.

Summary: On September 29, 1998, Southern California Edison (“SCE”) representatives Bruce Foster and Michael Hoover initiated a meeting at CPUC with Commissioner Neeper and his advisor, David Gamson. In oral ex parte communications, the SCE representatives stated in regard to competition transition charge (“CTC”) exemptions under Pub.Util.C. § 369 that standby service is not physically separate from the direct access transaction. While they may be two distinct contracts, SCE said, the direct access transactions the ALJ’s proposed decision (“PD”) would allow cannot occur without the use of the utility transmission and distribution. They further stated the PD makes a serious error and reaches the wrong conclusion on the exemption by neglecting the word “otherwise” in the analysis of § 369. The SCE representative concluded by saying the PD would result in significant amounts of CTC being shifted from certain, large customers to other customers and this would be unfair.

The Cox representative conducting the communications was Richard Smith, the company’s regulatory affairs

director. The contact with Mr. Fenikle was at CPUC in a meeting, with the Cox representative conveying oral communications to the advisor. The subsequent contact with Mr. Jimenez occurred by telephone. Mr. Smith conveyed the same message in each conversation. He stated that CLC access to vacant space in incumbents' entrance facilities should not be limited to commercial buildings or to only some portions of the conduit or other facilities owned or controlled by incumbents. Mr. Smith followed up the telephone conversation with Mr. Jimenez with a fax to him. The fax was page "93" of the draft decision, with Cox's recommended changes inserted near the bottom of page "93," changing the word "commercial" to "multi-tenant" and deleting the phrase "up to the MPOE."
