## GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

---------------------------------	--

**San Francisco**

The Telecommunications Division of the California Public Utilities Commission will be holding a technical workshop on the efficient utilization of numbering resources. Number pooling offers the potential to reduce NXX demand by enabling multiple carriers to share numbers from a single NXX code. A workshop is scheduled to initiate a plan to implement number pooling within California in cooperation with the program underway at the national level. The October 16, 1998 second workshop will further address the formation of a number pooling task force and develop administrative protocol for the ongoing operation of the Task Force and for the submission of progress reports to the Commission.

Proposals regarding voting membership and mechanisms, and what constitutes consensus of the Task Force, should be E-mailed to all participants by October 9, 1998, so participants will have time to review all proposals. Participants should come prepared to adopt a definition of consensus and rules regarding voting membership and mechanisms at the October 16, 1998 meeting. Commission staff will E-mail a participants list to all concerned by October 2, 1998. Participants must E-mail their proposals to everyone on the participants list by October 9, 1998. Any persons interested in being included on the participants list who were not in attendance at the September 25, 1998 meeting should contact Mary Jo Borak, at 415/703-1879, Email: BOR@CPUC.CA.GOV or Risa Hernandez at 415/703-5331, Email: RHH@CPUC.CA.GOV

Participants should come prepared to nominate persons to the Task Force, and adopt self-governance rules regarding voting membership and mechanisms. Following the adoption of the above matters, the Task Force will then begin its work dealing with the substantive issues associated with implementing number pooling in California. If you plan to attend the October 16, 1998 workshop please RSVP by October 14, 1998 to Mary Jo Borak, at 415/703-1879, Email: BOR@CPUC.CA.GOV or Risa Hernandez at 415/703-5331, Email: RHH@CPUC.CA.GOV

	I95-04-044	Investigation on the Commission's own motion into competition for local exchange service.

**Summary:** On September 28, 1998, three representatives of the Metropolitan Transportation Commission (“MTC”), Oakland, California, met at CPUC and engaged in oral and written ex parte communications with Commissioner Conlon and his advisor, Jose Jimenez. The representatives were William Hein, Melanie Crotty, and Francis Chin. MTC described their TravInfo program and the program’s ability to dial a single telephone number in every Bay Area area code to receive traffic and transit information. MTC requested that its pending motion to reserve the “817” NXX block be supported and that it be provided to the carrier who successfully wins the bid to provide the TravInfo service to the public. MTC stated this was in the public interest and that substantially greater costs would result if the service had to be switched to a toll free number. MTC provided two writings to the PUC officials, a letter from Assembly-member Louis J. Papan from the Nineteenth District supporting MTC’s initiative, and three (3) pages of MTC talking points to amplify certain technical facts and to counter particular arguments in opposition to MTC’s proposal.

**Summary:** On September 28, 1998, four representatives of the Metropolitan Transportation Commission (“MTC”), Oakland, California, met at CPUC and engaged in oral and written ex parte communications with Fasil Fenikile, advisor to Commissioner Neeper. The representatives were William Hein, Melanie Crotty, Francis Chin, and Jose E. Guzman, Jr. They requested support for MTC’s pending motion before the Commission to reserve the “817” NXX block from general assignment in each new area code opened in the Bay Area and that it be provided to the carrier who successfully wins the bid to provide the

TravInfo service to the public. MTC described their TravInfo program and the program's ability to dial a single telephone number in every Bay Area area code to receive traffic and transit information. MTC responded to comments filed in opposition to the motion, and stated assignment of a specific NXX block at the initial opening of a new area code would not impact the availability of codes for all authorized carriers. Commissioner Neeper's support for the motion was requested. MTC provided two writings to the PUC officials, a letter from Assembly-member Louis J. Papan from the Nineteenth District supporting MTC's initiative, and three (3) pages of MTC talking points to amplify certain technical facts and to counter particular arguments in opposition to MTC's proposal.

**Summary:** LATE FILED. On September 29, 1998, attorney Nick Selby of the ICG Telecom Group, Inc. ("ICG") told Mr. Tim Sullivan, advisor to Commissioner Duque, that the Coalition supported application of the proposed "rights-of-way" ("ROW") rules to cable television companies attaching to utility poles based on the policy position that there should be one set of rules for rates, terms and conditions applicable to all parties attaching to utility support structures in the same manner. This oral ex parte communication occurred during a meeting at CPUC initiated by the California Cable Television Association ("CCTA"). Others present during the meeting were Cynthia Walker, Glenn Semow, and Lesla Lehtonen of CCTA, and Peter Casciato, counsel to CCTA.

**Summary:** On September 30, 1998 Time Warner Connect attorney Peter A. Casciato telephoned Lester Wong, advisor to Commission President, and stated the draft ALJ decision should be changed to provide for mandatory ILEC voice mail resale to CLCs providing residential resale service. Mr. Casciato said the record establishes that, except for very large resellers which do not exist in the marketplace, there is no economically viable alternative for residential CLC resellers other than ILEC voice mail for resale.
