GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

---------------------------------	--

San Francisco

The Telecommunications Division of the California Public Utilities Commission will be holding a technical workshop on the efficient utilization of numbering resources. Number pooling offers the potential to reduce NXX demand by enabling multiple carriers to share numbers from a single NXX code. A workshop is scheduled to initiate a plan to implement number pooling within California in cooperation with the program underway at the national level. The October 16, 1998 second workshop will further address the formation of a number pooling task force and develop administrative protocol for the ongoing operation of the Task Force and for the submission of progress reports to the Commission.

Proposals regarding voting membership and mechanisms, and what constitutes consensus of the Task Force, should be E-mailed to all participants by October 9, 1998, so participants will have time to review all proposals. Participants should come prepared to adopt a definition of consensus and rules regarding voting membership and mechanisms at the October 16, 1998 meeting. Commission staff will E-mail a participants list to all concerned by October 2, 1998. Participants must E-mail their proposals to everyone on the participants list by October 9, 1998. Any persons interested in being included on the participants list who were not in attendance at the September 25, 1998 meeting should contact Mary Jo Borak, at 415/703-1879, Email: BOR@CPUC.CA.GOV or Risa Hernandez at 415/703-5331, Email: RHH@CPUC.CA.GOV

Participants should come prepared to nominate persons to the Task Force, and adopt self-governance rules regarding voting membership and mechanisms. Following the adoption of the above matters, the Task Force will then begin its work dealing with the substantive issues associated with implementing number pooling in California. If you plan to attend the October 16, 1998 workshop please RSVP by October 14, 1998 to Mary Jo Borak, at 415/703-1879, Email: BOR@CPUC.CA.GOV or Risa Hernandez at 415/703-5331, Email: RHH@CPUC.CA.GOV

	A96-08-072	San Diego Gas & Electric Company, to estimate transition costs and establish a transition cost balancing account; prepared direct testimony attached.

Summary: On October 1, 1998, Southern California Edison (“SCE”) representatives Bruce Foster and Michael Hoover initiated a meeting at CPUC with Commission President Bilas Neeper and his advisor, Julie Haligan. In oral ex parte communications, the SCE representatives stated in regard to competition transition charge (“CTC”) exemptions under Pub.Util.C. § 369 that standby service is not physically separate from the direct access transaction. While they may be two distinct contracts, SCE said, the direct access transactions the ALJ’s proposed decision (“PD”) would allow cannot occur without the use of the utility transmission and distribution. They further stated the PD makes a serious error and reaches the wrong conclusion on the exemption by neglecting the word “otherwise” in the analysis of § 369. The SCE representative concluded by saying the PD would result in significant amounts of CTC being shifted from certain, large customers to other customers and this would be unfair.

10/5/98 R95-04-043 Rulemaking on the Commission's own motion into competition for local exchange service, and

 I95-04-044 Investigation on the Commission's own motion into competition for local exchange service.

Summary: On October 1, 1998, attorney Nick Selby of the ICG Telecom Group, Inc. ("ICG") initiated a telephone call to Dorothy Duda, advisor to Commissioner Knight. Mr. Selby addressed the pending motion of the California Telecommunications Coalition for a ruling regarding the jurisdictional nature of local telephone calls to Internet service providers ("ISPs"). He urged the Commission to adopt the draft decision released as part of the "Escutia package," and to do so at its agenda conference on October 8. Mr. Selby told the advisor holding the matter until a later agenda conference was no "small thing" but would harm the development of facilities-based competition in California.

10/5/98 A96-08-001 Pacific Gas and Electric Company, for approval of valuation and categorization of non-nuclear generation related sunk costs eligible for recovery in the competition transition charge,

Summary: On September 30, 1998, Pacific Gas & Electric ("PG&E") representatives Jana Corey and Jack Fallin initiated a meeting at CPUC with Michelle Cooke, advisor to Commissioner Duque. Mr. Fallin said standby service is "insurance" and is used all the time, not just when back-up energy is consumed. Existing utility rules and Commission authority were more than sufficient to handle CTC metering and billing he said. Mr. Fallin added "otherwise" required use was intended to cover all factually required use and that the Legislature's intention to cover CTC exemption for new loads served by co-gen and self-cogen in § 372 confirms § 369's narrow scope. Ms Corey said PUC should rely on the broad intent of restructuring legislation which provides utilities an opportunity to recover above market generation costs and starts with the premise that CTC should be equally shared among all existing and future consumers. These principles require exemptions be restricted she added. Ms Corey said interpreting § 369 more broadly would introduce a new class of exemptions in opposition to the fundamental elements in AB 1890. Ms Corey stated with shared CTC responsibility, no competitor receives an unearned advantage and that the exception in § 369 was only for the unique situation where that responsibility could be fairly avoided because there was no use whatever of utility facilities. If PUC adopts the proposed decision, according to Mr. Fallin, new loads will be granted an unearned competitive advantage despite their admitted reliance on utility facilities.

Summary: On October 1, 1998 Teligent, Inc. ("Teligent") attorney Phuong Pham called Dorothy Duda, advisor to Commissioner Knight, and urged modification of the most recent draft decision ("DD") on right-of-way access. Mr. Pham said language requiring the express written consent of the underlying property owner to obtain access to a utility's poles, support structures, or rights of way should be deleted. Mr. Pham also told Ms. Duda of an inconsistency in the DD, stating the discussion on alternate pages H-2a provides pre-existing contracts with building owners must be renegotiated within 90 days from the decision's effective date to eliminate any exclusive or discriminatory access provisions, but that the Conclusions of Law do not provide for the 90 day provision.

10/5/98 R98-03-040 Commission Order Instituting Rulemaking, on the Commission's own motion, into the third triennial review of the regulatory framework adopted in Decision 89-10-031 for GTE California Incorporated and Pacific Bell.

Summary: On September 30, 1998, at 10:30 a.m. Pacific Bell ("PacBell") representatives Daniel McCarthy and Michael Sasser engaged in oral ex parte communications with Fasil Fenikile, advisor to Commissioner Neepser. The occasion was a telephone call initiated by Mr. Fenikile. Later in the day, Mr. McCarthy initiated a call back to Mr. Fenikile, and for the second call, Emery Borsodi of PacBell was additionally present. The PacBell representatives stated that PacBell's "Z" factor proposal in R98-03-040 included the discontinuance of cost recovery for post-retirement benefits other than pensions ("PBOPs"). Mr. McCarthy said the resolution of the PBOP matter in the draft decision ("DD") rendered moot the PBOP issues that would have been considered in the Forum OII. Mr. McCarthy and Mr. Sasser also explained that D92-12-015 authorized cost recovery for PBOPs when specified conditions were met. Mr. McCarthy stated PacBell's October 1995, 1996, and 1997 price cap filings were consistent with D92-12-015. He added that each of PacBell's price cap requests for PBOP recovery was approved, and that Resolution T-16102 concerning PacBell's October 1997 price cap filing anticipated that any changes concerning what costs should be authorized for PBOP recovery were to be prospective only. Since the DD determined that FASB changes no longer qualify for "Z" factor recovery, PacBell stated, the consideration of changes in PBOP cost recovery in the Forum OII is rendered moot.
