GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is

resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A Removed from the SB 960 category requirements.

Public Meeting

<p>October 16, 1998 9 am - 4 pm</p>	<p>California Public Utilities Commission 505 Van Ness Avenue, Training Room (Corner of Van Ness and McAllister Street) San Francisco</p>
---	--

The Telecommunications Division of the California Public Utilities Commission will be holding a technical workshop on the efficient utilization of numbering resources. Number pooling offers the potential to reduce NXX demand by enabling multiple carriers to share numbers from a single NXX code. A workshop is scheduled to initiate a plan to implement number pooling within California in cooperation with the program underway at the national level. The October 16, 1998 second workshop will further address the formation of a number pooling task force and develop administrative protocol for the ongoing operation of the Task Force and for the submission of progress reports to the Commission.

Proposals regarding voting membership and mechanisms, and what constitutes consensus of the Task Force, should be E-mailed to all participants by October 9, 1998, so participants will have time to review all proposals. Participants should come prepared to adopt a definition of consensus and rules regarding voting membership and mechanisms at the October 16, 1998 meeting. Commission staff will E-mail a participants list to all concerned by October 2, 1998. Participants must E-mail their proposals to everyone on the participants list by October 9, 1998. Any persons interested in being included on the participants list who were not in attendance at the September 25, 1998 meeting should contact Mary Jo Borak, at 415/703-1879, Email: BOR@CPUC.CA.GOV or Risa Hernandez at 415/703-5331, Email: RHH@CPUC.CA.GOV

Participants should come prepared to nominate persons to the Task Force, and adopt self-governance rules regarding voting membership and mechanisms. Following the adoption of the above matters, the Task Force will then begin its work dealing with the substantive issues associated with implementing number pooling in California. If you plan to attend the October 16, 1998 workshop please RSVP by October 14, 1998 to Mary Jo Borak, at 415/703-1879, Email: BOR@CPUC.CA.GOV or Risa Hernandez at 415/703-5331, Email: RHH@CPUC.CA.GOV

Summary: On October 6, 1998, the “Parties” (see below) initiated two meetings and subsequently met with: (1) Commission President Bilas and his advisor, Ms Julie Halligan, and (2) Commissioner Neepser and his advisor, David Gamson at CPUC. The content of the ex parte communication was the same in each meeting. The parties urged support for the

proposed decision (“PD”) of Administrative Law Judge (“ALJ”) Minkin. Designating themselves as the “parties” were representatives from Enron Capital & Trade Resources, Enron Energy Services, City and County of San Francisco, State of California Department of General Services, and Independent Energy Producers. The representatives involved were Michael B. Day, counsel for Enron; Ms Dian Grueneich and Ms Traci Grundon of Grueneich Resources; counsel for the City and County of San Francisco, and Mr. Andrew Brown of Ellison & Schneider, counsel for the Department of General Services and Independent Energy Producers. The parties stated ancillary or standby services provided to a customer whose new or incremental load was eligible for § 369 exemption would be provided under separate tariff or standby agreement and that such agreements are not part of the direct access transaction defined in AB 1890. Thus, the parties said, the direct transaction itself would not “otherwise” utilize utility transmission or distribution facilities. They said AB 1890 states a preference for a reliable and integrated statewide electric grid. The alternate decision, which they said provides a financial incentive for customers to construct isolated “islands” of electric service, is inconsistent with that preference and would be less reliable. Finally, the parties said, the PD’s interpretation would benefit only a limited number of direct access projects, and that the utilities’ collective recovery of CTC would not be threatened.
