GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

PUBLIC MEETINGS & WORKSHOPS

Public Meeting

<i>October 16, 1998 9 am - 4 pm</i>	<i>California Public Utilities Commission 505 Van Ness Avenue, Training Room (Corner of Van Ness and McAllister Street) San Francisco</i>
---	---

The Telecommunications Division of the California Public Utilities Commission will be holding a technical workshop on the efficient utilization of numbering resources. Number pooling offers the potential to reduce NXX demand by enabling multiple carriers to share numbers from a single NXX code. A workshop is scheduled to initiate a plan to implement number pooling within California in cooperation with the program underway at the national level. The October 16, 1998 second workshop will further address the formation of a number pooling task force and develop administrative protocol for the ongoing operation of the Task Force and for the submission of progress reports to the Commission.

Proposals regarding voting membership and mechanisms, and what constitutes consensus of the Task Force, should be E-mailed to all participants by October 9, 1998, so participants will have time to review all proposals. Participants should come prepared to adopt a definition of consensus and rules regarding voting membership and mechanisms at the October 16, 1998 meeting. Commission staff will E-mail a participants list to all concerned by October 2, 1998. Participants must E-mail their proposals to everyone on the participants list by October 9, 1998. Any persons interested in being included on the participants list who were not in attendance at the September 25, 1998 meeting should contact Mary Jo Borak, at 415/703-1879, Email: BOR@CPUC.CA.GOV or Risa Hernandez at 415/703-5331, Email: RHH@CPUC.CA.GOV

Participants should come prepared to nominate persons to the Task Force, and adopt self-governance rules regarding voting membership and mechanisms. Following the adoption of the above matters, the Task Force will then begin its work dealing with the substantive issues associated with implementing number pooling in California. If you plan to attend the October 16, 1998 workshop please RSVP by October 14, 1998 to Mary Jo Borak, at 415/703-1879, Email: BOR@CPUC.CA.GOV or Risa Hernandez at 415/703-5331, Email: RHH@CPUC.CA.GOV

If specialized accommodations for the disabled are needed, call the Public Advisor at (415) 703-2032 five working days in advance of the event.

10/9/98	A97-10-014	Southern California Edison Company, for authority to recover capital additions to its fossil generating facilities made between 1/1/96 and 12/31/96.
---------	------------	--

Summary: On October 6, 1998, The Utility Reform Network ("TURN") and Office of Ratepayer Advocates ("ORA") (the "parties") jointly sent a letter to all of the PUC commissioners. The letter said the administrative law judge's proposed decision ("PD") errs in concluding that Edison acted reasonably in evaluating its 1996 capital additions by assuming a 20 year payback period. The parties urged the issuance of an alternate decision. The parties cited page "9" of the PD in support of their position on Edison's action, and for the proposition that Edison's actions were not excusable. Citing the PD's own language that the six year payback period "appears arbitrary," the parties urged the Commission to

select a payback period deemed to be consistent with the changing environment in which Edison was making decisions at the time. Other details concerning qualifying facility ("QF") payments were likewise presented. The parties concluded by saying their comments would be officially submitted in filings, but that the letter was simply conveyed to make the Commission aware of their position at the earliest opportunity.

10/9/98 A98-05-019 San Diego Gas & Electric Company, for authority to increase its authorized return on common equity, to adjust its existing ratemaking capital structure, to adjust its authorized embedded costs of debt and preferred stock, to decrease its overall rate of return, and to revise its electric distribution and gas rates accordingly.

Summary: On October 7, 1998, a Southern California Edison ("Edison") official left voice mail for Michelle Cooke, advisor to Commissioner Duque. The voice mail left by John P. Hughes stated Edison was filing its response to TURN's motion for public disclosure of certain Edison documents and that she (Ms Cooke) would be provided a copy promptly. Mr. Hughes further stated that granting the motion would harm Edison customers.

10/9/98 R98-03-040 Commission Order Instituting Rulemaking, on the Commission's own motion into the third triennial review of the regulatory framework adopted in Decision 89-10-031 for GTE California Incorporated and Pacific Bell.

Summary: On October 6, 1998, Pacific Bell ("PacBell") representatives conducted oral ex parte communications with Commissioner Conlon and his advisor, Jose Jimenez, and Dorothy Duda, advisor to Commissioner Knight. The communication occurred during an "all party" meeting at CPUC initiated by Mr. Jimenez. The PacBell representatives were Michael Sasser, William Blase, Dennis Evans, and Jamie Malone. Other parties represented at the meeting were the Office of Ratepayer Advocates ("ORA"), MCI, AT&T, California Manufacturer's Association, GTE California Inc. and certain PUC staff. PacBell representatives stated the draft decision ("DD") did not go far enough because it suspends rather than eliminates sharing and the price cap index formula. They pointed out the elimination of sharing and the inflation minus productivity factor index does not mean price cap regulation would be discontinued because the Commission would still continue to regulate the price for Category 1 services and the price caps and floors for Category 2 services. Elimination of sharing, Mr. Sasser said, constitutes elimination of the rate of return floor, and that PacBell would not come in and ask for rate relief as a result of the company's depreciation expense decisions. PacBell said the DD narrows the range of potential cost recovery issues to two categories involving commission mandated expenses

and jurisdictional cost shifts, and that this change promotes regulatory efficiency. Mr. Sasser further stated the Commission would address the appropriateness of cost recovery requests in the underlying proceeding and that under the DD, requests that fall within the two narrow areas eligible for cost recovery in the future will still need to meet the nine (9) current "Z" factor criteria. Under NRF, PacBell stated, they can ask that services be re-categorized, but that re-categorization cannot be done without PUC approval; that PUC will continue to approve all price changes, including request for re-categorization, thus continuing to assure that rates are reasonable.
