GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

SUBSCRIPTION INFORMATION

Subscription Notice for Draft Agenda Items

In compliance with Public Utilities Code Section 311.5, parties who wish to subscribe to receive draft agenda items may do so by writing to the Public Utilities Commission; Attention: Poly Arca, Room 1003; 505 Van Ness Avenue; San Francisco, CA 94102; or by calling (415) 703-1798. The cost for a one-year subscription to the entire public agenda package (which excludes Executive Session materials) is \$1,000. You may also order a partial agenda package (energy agenda items only or telecommunication agenda items only) at the cost of \$500 per year. The package you receive via mail will include only those agenda items available at the time of the agenda distribution date, which is usually 10 to 12 days prior to the Commission meeting. If agenda items (including revisions) are not ready on the distribution date, they will be made available at no charge in the lobby outside the Commission Auditorium at 9:00 a.m. on the morning of the Commission meeting, but not earlier.

In addition, the Commission will make draft agenda items available for viewing and photocopying (at 20 cents per page) at the Commission's Central Files Office (Room 2002), 505 Van Ness Avenue, San Francisco, and in the Los Angeles, San Diego, and the following field offices: El Centro, Eureka, Sacramento and San Bernardino. Since the agenda package will be mailed to these locations, it will be available at these locations a day or two after the distribution date. These locations will not receive agenda items that are not ready on the distribution date.

If an agenda item is held over to a subsequent Commission meeting, that agenda item and any revisions to that agenda item that were available on the morning of the initial Commission meeting (as well as any further available revisions) will be mailed in the Escutia package for the subsequent Commission meeting; the item and its revisions will also be available for viewing and photocopying in the Commission's Central Files Office and field offices as set forth above.

Intervenors who have a financial hardship determination pending or granted shall be eligible to receive draft agenda item packets at no charge.

Summary: On October 16, 1998, ICG Telecom Group, Inc. representative Doug Garrett delivered to CPUC written ex parte material to all of the commissioners and their telecommunications advisors. In reference to the Commission's October 22, 1998 meeting, ICG's letter and accompanying handout discussed agenda item H-6 (ALJ's draft decision) and H-6A (draft alternate of Commissioner Duque), stating, inter alia, that "both H-6 and H-6A correctly find that local calls to ISPs are intrastate in nature and subject to and within this Commission's jurisdiction." The letter urged adoption of H-6. ICG said this ex parte communication "is to respond to some of the arguments advanced by Pacific... ("Pacific Bell")...in its recent ex parte communications." The handout was twelve (12) pages and consists of rebuttal to PacBell's earlier ex parte communications to PUC decision makers. One statement in the handout was "Pacific Bell's 9-slide ex parte presentations on Sept 23-24 resorted to misstatements and exaggeration to dissuade the Commission from adopting a sound policy decision." The handout also contained graphs and data on reciprocal compensation and issues related to local calls to Internet service providers ("ISP"). The letter and handout were attached to ICG's Notice of Ex Parte Communication.

Summary: On October 19, 1998, ICG Telecom Group, Inc. ("ICG") attorney Nick Selby initiated and conducted two (2) ex parte sessions at CPUC with PUC decision makers. In addition to Mr. Selby, ICG representatives in attendance were Cindy Schonhaut and Doug Garrett. Both oral and written ex parte communications were conveyed in each session. The PUC officials receiving such communications were, respectively, (a) Commissioner Knight and his advisor, Dorothy Duda, and (b) Commissioner Neeper and his advisor, Fassile Fenikile. The ICG representatives urged the Commission to adopt agenda item H-6 during the October 22, 1998 meeting, but they further noted that both item H-6 and item H-6A correctly find that local calls originated by Pacific Bell and terminated by competitive

local carriers ("CLC") are jurisdictionally intrastate calls. The representatives stated disagreement with Commissioner Neepers' alternative item H-6B that would find these calls to be interstate. ICG said the Commission should not cede jurisdiction to the Federal Communications Commission on what are a burgeoning number of local calling minutes associated with calls to Internet service providers ("ISP"). ICG said their \$50 million investment in 1998 to new network facilities to serve ISP's were made in reliance on prior Commission decisions defining the nature of local calls and approving ICG's current interconnection agreement with Pacific Bell ("PacBell"). The ICG representatives concluded by saying PacBell's calculation of financial harm from reciprocal compensation were flawed. The ex parte handout was twelve (12) pages and consisted of rebuttal to PacBell's earlier ex parte communications to PUC decision makers. One statement in the handout was "Pacific Bell's 9-slide ex parte presentations on Sept 23-24 resorted to misstatements and exaggeration to dissuade the Commission from adopting a sound policy decision." The handout also contained graphs and data on reciprocal compensation and issues related to local calls to Internet service providers ("ISP"). The letter and handout were attached to ICG's Notice of Ex Parte Communication.

Summary: On October 19, 1998, MCIWorldCom representatives met ex parte in consecutive sessions with, respectively, (1) Commissioner Duque and his advisor, Timothy Sullivan, and (2) Commissioner Knight and his advisors, Dorothy Duda and Robert Lane. The representatives were Gary Ball, William Harrelson, and Robert Munoz. The same oral and written communications were conveyed in each session. The representatives stated local calls to Internet service providers are local, the PUC has jurisdiction over such calls, the calls are subject to reciprocal compensation, and that Pacific Bell's ex parte handout on the same subject dated 9/22/98 was inaccurate and misleading. The written communications consisted of two sections: a five (5) page handout summarizing MCIWorldCom's position on these issues, and a two (2) page letter dated 10/8/98 from the president and CEO of Covad Communications Co. to MCIWorldCom. The introductory paragraph to the latter states "This is to clarify and place in context (and disavow portions of) the statements of Mr. McMinn reported in the trade press last month concerning the payment of reciprocal compensation by ILECs and CLECs for the transport of circuit-switches traffic to internet service providers ("ISPs")."

Summary: On October 20, 1998, and again the next day (10/21/98) MCIWorldCom representative Robert Munoz engaged in oral ex parte communications with Robert Lane, advisor to Commissioner Knight. According to the filer's two Notice(s) of Ex Parte Communications, Mr. Munoz initiated a direct telephone call on the first day and left voice mail on the second day. Both communications conveyed the same question to Mr. Lane. That was whether the Commission intends to hold for some future Commission meeting

their ruling on the California Telecommunications Coalition's motion seeking a determination of the jurisdiction and billing treatment of local telephone calls to Internet service providers.
