GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

	I95-04-044	Investigation on the Commission's own motion into competition for local exchange service.

Summary: On October 19, 1998, representatives of AT&T Communications of California, Inc. ("AT&T") initiated an ex parte session at CPUC with Commissioner Knight and his advisors, Dorothy Duda and Robert Lane. AT&T attendees were Rick Witherington and Bob Kargoll. The oral ex parte communications consisted of statements by the AT&T representatives that the company supports the administrative law judge's proposed decision affirming Commission jurisdiction over traffic bound for Internet services providers ("ISP") and that calls to ISPs within the local calling area are local calls for purposes of reciprocal compensation.

Summary: On October 19, 1998, GTE California Inc. ("GTE") representative Jenny Wong initiated and conducted an ex parte session with Lester Wong, advisor to Commission President Bilas. Written ex parte communications were conveyed. A copy of H.R. 4801, ("InterLATRA Communication Improvements Acts of 1998 (Introduced in the House)) was provided. Additionally, a copy of the Notice of Investigation of the PUC of the State of Maine on Brooks Fiber Communications as it relates to the Internet issue was provided. An introductory sentence in the latter states: "In this Notice we propose to find that Brooks's actions constitute an unreasonable act or practice by a public utility within the meaning of...(citation)...and to order corrective actions." The introduction further identifies Brooks as a competitive local exchange carrier ("CLEC"), and that Brooks obtained fifty

two (52) central office codes in Maine that are outside the area that it designated in its terms and conditions as its local exchange service area. It adds: "Brooks...use of a large number of CO codes for a purpose other than providing local exchange service presents a serious risks that Maine will run of CO codes in the 207 area code, and will need a second area code, thus causing substantial disruption to a large number of customers." The Maine PUC document is fourteen (14) pages in length. Both documents are attached to GTE's Notice of Ex Parte Communication.

10/22/98 A98-10-030 Pacific Gas and Electric Company and Mt. Poso Cogeneration Company, L.P., for order approving termination agreement of IS04 power purchase agreement between Pacific Gas and Electric Company and Mt. Poso Cogeneration Company, L.P.

Summary: October 19, 1998, Pacific Gas & Electric Co. ("PG&E") initiated an ex parte meeting with Commissioner Neepser on the application to terminate the Mt. Poso power purchase contract. Present for PG&E were Les Guliasi, Barney M. Speckman, and Edward V. Kurz. Others present were Michael Hawkins of the Mt. Poso Cogeneration Co., and Warren Mack of Ahlstrom Development Corp. The representatives for the utilities stated both parties seek ex parte treatment of the application with expedited approval. The PG&E-Mt. Poso agreement took more than a year to negotiate, the commissioner was told, but that the Office of Ratepayer Advocates ("ORA") to date has declined to issue a "comfort letter" on the pending transaction notwithstanding ORA was provided information on the agreement in June, 1998. The commissioner was further told the parties are operating under a bridging agreement which allows accrual of ratepayer benefits while the application is pending before the Commission. Further delay in the process will, however, increase the business risk for Mt. Poso according to Mr. Mack's comments. A three (3) page handout highlighting the parties' position was provided to Commissioner Neepser. The following sentence was among the background comments in the handout: "50 MW coal-fired QF located in Bakersfield." The following sentences were among the "highlights of agreement" contained in the handout: "Ratepayer benefits of contract termination: \$17 million net present value; reduces 'must-take' power; enables Mt. Poso to become a merchant plant."
