1/15/98	A97-12-004	Pacific Gas and Electric Company, for an order granting PG&E permission to use natural gas-based financial instruments to manage gas costs associated with natural gas purchased for utility electric generation and
	A97-12-005	Pacific Gas and Electric Company, for an order granting PG&E permission to use gas-based financial instruments to manage the impact of Natural Gas Prices on the Cost of Electricity under existing power purchase agreements.

**Summary:** On January 12, 1998, Jana Corey, Director, Regulatory Relations, Pacific Gas and Electric Company (PG&E), contacted Cmmr. Bilas in San Francisco. Julie Halligan, adv. to Cmmr. Bilas; Jim Macias, Senior Vice President and General Manger, Generation, Transmission, and Supply, PG&E; and Ann Kozlovsky, Manager, Power Generation Fuels, PG&E, were also present. A two-page handout titled "Gas-Based Price Risk Management," dated January 5, 1998, was used and is attached to this notice. Macias stated that PG&E recently filed two applications to manage price risk associated with (1) gas purchases for utility electric generation and (2) existing electric payment obligations. She noted that these applications seek authority to use gas-based financial instruments only, not electricity-based financial instruments. In addition, neither application requests authority to hedge power exchange prices and that PG&E has proposed shareholders pay all transaction costs, bear all losses, and receive all gains from these transactions.
