GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

3/12/98 A91-05-050 Southern California Edison Company, to revise its electric rates under (ECAC) Energy Cost Adjustment Clause; (MAABF) Major Additions Adjustment Billing Factor; (ERABF) Electric Revenue Adjustment Billing Factor; (LIS) Low Income Surcharge for rate increase of \$214.4 million effective 1992.

Summary: On March 9, 1998, Bruce Foster, Vice President of Regulatory Affairs for Edison, met with Cmmr. Conlon in San Francisco. Also present were James Hendry, advisor to Cmmr. Conlon; Russell Worden and Michael Hoover, Regulatory Affairs Managers for Edison. The Edison representatives urged the Commission not to support the proposed decision because it endorses the concept of using the after-the-fact decline in recorded avoided cost to calculate a disallowance. The Edison representatives stated that the standard that the Commission should use in calculating disallowance is "what's known at the time" the decision in question was made. The Edison representative also stated that Edison only receives several million dollars per year in customers' rates to administer qualifying facilities contracts and no opportunity to earn a profit if the company performs well in administering the contracts as a whole.

Summary: On March 12, 1998, Thomas MacBride, Jr., counsel for Worldcom, met with Robert Lane, advisor to Cmmr. Knight, in San Francisco. MacBride expressed the view that evidentiary hearings would be time consuming and burdensome. MacBride also stated that the Commission has authority under section 853(b) of the Public Utilities Code to exempt the application from all or part of section 854 of the Code.

subsidiaries of a newly created holding company,
Mineral Energy Company.

Summary: On March 12, 1998, Donald Felsing, President and Chief Operating Officer for Enova Corporation (Enova), spoke with Cmmr. Bilas, via telephone. Felsing stated that the merger between Pacific Enterprises and Enova would create over \$1 billion in savings, half of which the applicants propose to refund to customers. Felsing stated that the applicants did not believe that they should divert any of the customer refunds to groups like Greenlining who thought they knew better what to do with customers' money than the customers themselves. Felsing stated that this presented a policy decision for the Commission, and that applicants believe that the ALJ's Proposed Decision has correctly decided the issue. Felsing stated that as far as applicants are concerned, the refunds should go directly to customers.

Summary: On March 13, 1998, Nancy Day, representing New Energy Ventures L.L.C. and its wholly owned subsidiary NEV California L.L.C. (collectively referred to as "NEV"), met with Cmmr. Bilas in San Francisco. Also present were: Cmmr. Conlon; Julie Halligan, advisor to Cmmr. Bilas; James Hendry and John Scadding, advisors to Cmmr. Conlon; and Stan Hulett, and Aaron Thomas, of NEV. Written material (attached to the notice), providing information on the potential impact of the adopted PX Credit calculation methodology on customers taking service under different rate schedule, was used. NEV representatives supported petition for modification of D97-08-056 and argued that the adopted PX Credit calculation methodology eliminates one-half of the interval metered customers from participating in Direct Access, distorts price signals, and creates additional barriers to entry for prospective non-utility energy providers.

3/18/98 A96-10-036 Southern California Gas Company, for authority to allow management discretion to close branch offices or modify branch office operations.

Summary: On March 13, 1998, Thomas MacBride, counsel for the City of Vernon, attended an all party meeting with Cmmr. Duque in San Francisco. Also present was Michelle Cooke, advisor to Cmmr. Duque. MacBride indicated that the absence of San Diego Gas and Electric Company as an advocate for reasonable wholesale natural gas would have an adverse impact on other gas customers of Southern California Gas Company (SoCalGas). MacBride stated further that the proposed requirement that SoCalGas relinquish its option to purchase the intrastate facilities of Kern and Mojave was a desirable, but inadequate mitigation measure. MacBride also explained that on page 83, the proposed decision inaccurately attributes to the City of Vernon a position that SoCalGas publicize the details of its natural gas procurement transaction.
