**GLOSSARY**

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

**Summary:** On April 3, 1998, Chris Danforth, project manager for the Office of Ratepayer Advocates (ORA), left an e-mail message (attached to the notice) for ALJ Minkin. A copy of the e-mail message was also sent to Mark Bumgardner of the Commission's Energy Division. Danforth requested clarification as to whether accounting procedures should be used if a utility does not have enough headroom to fully amortize all its depreciable assets in a given month. Danforth further inquired as to whether the utilities should amortize all depreciable assets, and reflect the insufficient headroom revenues as an undercollection in the Transition Cost Balancing Account.

- 4/9/98 R95-04-043 Rulemaking on the Commission's own motion into competition for local exchange service and
- I95-04-044 Investigation on the Commission's own motion into competition for local exchange service.

**Summary:** On April 6, 1998, Bill Blase, Pacific Bell's (PacBell) Vice President - Regulatory, met with Jose Jimenez, advisor to Cmmr. Conlon, in San Francisco. Also present were: Margaret Pascoe, Director of PacBell; and Mike Bennett, Director of South Western Bell Telephone. Written materials (attached to the notice) were used. Bennett pointed out, referring to the area code crisis, that in California the situation is acute. Bennett

suggested to consider an overlay in the 310 area code and in other upcoming area code relief projects. Bennett indicated that an overlay would help the industry address the current problem of insufficient numbering resources. Pascoe stated that PacBell is on track to complete LNP in the 310 area code in July, 1998. Pascoe noted that the Industry had submitted two different 3 way split plans to the Commission on the 619 area code, and that in that submission was a position paper proposing a 2 way split, followed by an overlay. Pascoe suggested to consider allowing the Industry to go back and present the overlay option to the 619 area code community.

**Summary:** On April 6, 1998, Bill Blase, Pacific Bell's (PacBell) Vice President - Regulatory, met with Robert Lane, advisor to Cmmr. Knight, in San Francisco. Also present were: Margaret Pascoe, Director of PacBell; and Mike Bennett, Director of SBC. Written materials (attached to the notice) were used. Bennett pointed out, referring to the area code crisis, that in California the situation is acute. Bennett suggested to consider an overlay in the 310 area code and in other upcoming area code relief projects. Bennett indicated that an overlay would help the industry address the current problem of insufficient numbering resources. Pascoe stated that PacBell is on track to complete LNP in the 310 area code in July, 1998. Referring to currently assigned NXX codes, Bennett stated that competitive local exchange carriers had a base of 310 NXX codes and with the implementation of local number portability competitors will have the ability to gain customers from the 310 area code, with an overlay in place. Pascoe noted that the Industry had submitted two different 3 way split plans to the Commission on the 619 area code, and that in that submission was a position paper proposing a 2 way split, followed by an overlay. Pascoe suggested to consider allowing the Industry to go back and present the overlay option to the 619 area code community.

**Summary:** On April 6, 1998, Bill Blase, Pacific Bell's (PacBell) Vice President - Regulatory, sent a letter (attached to the notice) to Cmmr. Bilas. Copies of the letter were also sent to Cmmrs. Conlon, Duque, Knight, and Neepner and the Commissioners' advisors Wong, Jimenez, Sullivan, Lane, Duda, and Fenikile. The letter introduces PacBell's response to the California Telecommunications Coalition's motion for an order regarding calls to Internet service providers. The letter mentions the financial and policy implications related to this issue, appropriateness of "bill and keep" versus "reciprocal compensation", the balance of traffic sent to ISPs versus the traffic received from ISP and the fact that reciprocal compensation results in competitive local carrier's providing subsidized service to ISPs.
