GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

4/20/98	I92-03-052	Commission Order Instituting Investigation to determine methodology the Commission should use to flow through tax savings to ratepayers available to possible over assessment of property owned by regulated utilities by the State Board of Equalization.
---------	------------	--

Summary: On April 15, 1998, Dennis Evans, Executive Director - Regulatory Proceedings for Pacific Bell (Pac Bell), met with Lester Wong, advisor to Cmmr. Bilas, in San Francisco. Also present was Lynn Mowery, Director - Regulatory Relations for Pac Bell. Written materials (attached to the notice) were used. Evans stated that changes in property taxes which resulted from the settlement between Pac Bell and the State Board of Equalization (SBE) do not constitute a Z factor under Pac Bell's regulatory framework. Evans further stated that the Commission should grant Pac Bell's application for rehearing and determine that property tax changes do not constitute an exogenous event. Evans pointed out that the established Z factor criteria would require that there be a tax law change, or that the cost causing event be beyond management's control, to qualify as a Z

factor. Evans further stated that since there was no tax law change, and since it was within Pac Bell's management control to sign or not to sign the settlement agreed upon by Pac Bell and the SBE, this issue does not qualify as a Z factor.

Summary: On April 15, 1998, Dennis Evans, Executive Director - Regulatory Proceedings for Pacific Bell (Pac Bell), met with Timothy Sullivan, advisor to Cmmr. Duque, in San Francisco. Also present was Lynn Mowery, Director - Regulatory Relations for Pac Bell. Written materials (attached to the notice) were used. Escalon, Riverbank, Oakdale, and surrounding rural

Summary: On April 16, 1998, Jana Corey, Director, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Cmmr. Duque in San Francisco. Also present were: Michelle Cooke, advisor to Cmmr. Duque; Scott Steffen, Assistant General Counsel, and Chris Mayer, Assistant General Manager, for Modesto Irrigation District (MID); and Les Guliasi, Manager, Regulatory Relations, and Bill Manheim, attorney, for PG&E. Two handouts: on PG&E/MID sale of facilities, and one titled "Level 1-47 Decisions" (both attached to the notice) were used. Guliasi stated that PG&E would like the proposed decision modified to allocate the gain on sale to shareholders, preserving the Redding II decision, and to reflect changes made to the service area agreement by PG&E and MID. Mayer noted that during the AB 1890 process, the legislature encouraged MID and PG&E

to come to an agreement. Manheim stated that it would be punitive to require customers who received demand side management grants to refund those grants solely because they switched suppliers. Manheim suggested that the Commission examine all aspects of distribution competition. Mayer stated that competition will be good for MID's current customers and the 30,000 customers that would become MID customers with this transaction, and that this transaction means approximately \$500 in savings per year for each customer.
