GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

Others present were: Walter Mosley, Regulatory Affairs Manager, AT&T, Richard Scheer, Regulatory Affairs Manager, AT&T, Theresa Cabral, Senior Corporate Counsel, MediaOne, and Tony DiTirro, Regulatory Affairs, MCI. The meeting was held to discuss the Commission's pending decision to impose an overlay upon the 310 NPA. Mosley and Candelaria urged the Commission to move forward with Code Conservation and to begin by directing wireline incumbents to provide information to the Telecommunications Division necessary to identify the percent utilization for all blocks of 1000 numbers with NXX codes assigned to them in the 310 NPA. Cabral expressed MediaOne's concern that its investment in providing local telephone service will remain stranded unless measures to free NXX codes in the 310 NPA are initiated. Written material (attached) was also presented in the meeting.

Southern California Edison Company, for an order approving the settlement agreements between Southern California Edison Company and winning bidders in Edison's biennial resource plan update auction

Summary: On May 4, 1998, Sara Steck Myers, attorney for Zond, met with Cmmr. Knight, in San Francisco. Robert C. Lane, adv. to Cmmr. Knight was also present. Robert T. Boyd, Director of Government and Regulatory Affairs for Zond, Steven F. Greenwald, attorney for Oxbow and Bowerman/Olinda, and Frank De Rosa, Vice President, Western Region, for U.S. Generating were also present. Greenwald provided a summary of the current status of the application and said that a stipulation had been reached among Southern California Edison Company (SCE) and Office of Ratepayer Advocates (ORA). Greenwald indicated that the settlements and procedural stipulation with ORA were the result of many years of effort during a time of significant change in the industry and were directly responsive to the Assigned Commissioner's Ruling (ACR) issued in July, 1995, in the Biennial Resource Plan Update (BRPU) (I89-07-004). Myers emphasized that the ACR had made clear that there would be no re-bid of BRPU megawatts nor any further evaluation by the Commission of any BRPU bid. The representatives urged the Commission to resolve the issues quickly without evidentiary hearings are required. They also asked that a ruling set a schedule for the parties to brief the relevant issues in a time frame which would ensure a decision by the Commission definitively resolving this matter within the next few months.
