GLOSSARY

After January 1, 1998, the California Public Utilities Commission is required by statute (SB 960) to categorize each case that comes before it. There are three categories, quasi-legislative, adjudicatory and ratesetting. If a case does not require hearings before it is resolved, the case is removed from the SB 960 category requirements. The legend below shows the abbreviation for each of the categories and provides a brief explanation.

- Q** **Quasi-legislative** proceedings are proceedings that establish policy or rules (including generic ratemaking policy or rules) affecting a class of regulated entities, including those proceedings in which the Commission investigates rates or practices for an entire regulated industry or class of entities within the industry.
- A** **Adjudicatory** proceedings are: (1) enforcement investigations into possible violations of any provision of statutory law or order or rule of the Commission; and (2) complaints against regulated entities, including those complaints that challenge the accuracy of a bill, but excluding those complaints that challenge the reasonableness of rates or charges, past, present, or future.
- RS** **Ratesetting** proceedings are proceedings in which the Commission sets or investigates rates for a specifically named utility (or utilities), or establishes a mechanism that in turn sets the rates for a specifically named utility (or utilities). Ratesetting proceedings include complaints that challenge the reasonableness of rates or charges, past, present, or future.
- N/A** Removed from the SB 960 category requirements.

052898	A98-05-004	Pacific Gas and Electric Company, to establish the eligibility and seek recovery of certain electric industry restructuring implementation costs as provided for in Public Utilities Code Section 376.
--------	------------	--

Summary: On May 22, 1998, Jana Corey, Director, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with John Scadding, adv. to Cmmr. Bilas in San Francisco.

James Hendry, adv. to Cmmr. Conlon, William Manheim, attorney, Law Department of PG&E, and Veronica Andrews, Case Manager, Revenue Requirements, PG&E, were also present. Manheim stated that PG&E has proposed a voluntary limit of \$95 million on its post-rate freeze collection of displaced Competition Transition Charge. He also stated that PG&E is seeking to establish a memorandum account to track restructuring implementation costs and to seek recovery in a future proceeding. Andrews stated that PG&E is seeking recovery of only incremental restructuring implementation costs that were incurred expressly to accommodate implementation of direct access, the Power Exchange and the Independent System Operator, and are not currently recovered in rates. An one-page handout, titled "Brief Summary of PG&E's Section 376 Filing," was used and is attached to the notice.
